The Anatomy of Racial Attitudes Richard A. Apostle, Charles Y. Glock, Thomas Piazza, Marijean Suelzle, 2023-04-28 Racial tension divides American society Racial equality remains a distant goal Although the potion of Black Americans has improved in recent years the widespread enthusiasm for the Civil Rights movement has waned Why has progress slowed What makes racial problems in America so difficult to solve A principal cause according to The Anatomy of Racial Attitudes is the way in which white Americans explain or account for the social conditions in which most black Americans find themselves A substantial proportion of whites believe that stereotypes that Black Americans are relatively less well off because blacks do not try hard enough to better themselves or because of the difference due to genertics or to God's plan Whites who hold such views have relatively little sympathy for programs designed to improve the social conditions In contrast whites who believe that Black Americans are kept back either by deliberate discrimination or by the accumulated social results of past discrimination are much more receptive to policies designed to help blacks Using qualitative and quantitive data this book explores the variety and extent of these explanations for social differences it also describes how each explanation or combination of explanations influences a person's views on policies designed to bring about greater racial equality This study promises to influence not only the course of future academic research on race relations but also the formulation of public policy to deal with racial problems It reveals that the resistance of many whites to policies favorable to racial equality are not isolated phenomenon but instead is part of a comprehensive view of how society works If strides

toward racial equality are to be made in the foreseeable future the insights provided here must be considered seriously by policy makers and be incorporated into their strategies This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1983 Measuring Racial Discrimination National Research Council, Division of Behavioral and Social Sciences and Education, Committee on National Statistics, Panel on Methods for Assessing Discrimination, 2004-07-24 Many racial and ethnic groups in the United States including blacks Hispanics Asians American Indians and others have historically faced severe discrimination pervasive and open denial of civil social political educational and economic opportunities Today large differences among racial and ethnic groups continue to exist in employment income and wealth housing education criminal justice health and other areas While many factors may contribute to such differences their size and extent suggest that various forms of discriminatory treatment persist in U S society and serve to undercut the achievement of equal opportunity *Measuring Racial Discrimination* considers the definition of race and racial discrimination reviews the existing techniques used to measure racial discrimination and identifies new tools and areas for future research The book conducts a thorough evaluation of current methodologies for a wide range of circumstances in which racial discrimination may occur and makes recommendations on how to better assess the presence and effects of discrimination *The International Convention on the Elimination of All Forms of Racial Discrimination* Patrick Thornberry, 2016-07-14 The Convention on the Elimination of All Forms of Racial Discrimination is the centrepiece of international efforts to address racial discrimination defined in broad terms to include discrimination based on skin colour descent ethnic and national origin Victims of discrimination within the scope of the Convention include minorities indigenous peoples non citizens and caste or descent groups Virtually all national societies are diverse in terms of ethnicity or race and none is free from discrimination making it one of the great issues of our time Against the background of international human rights standards and mechanisms to counter racial and ethnic discrimination this book provides the first comprehensive legal analysis of the provisions of the Convention on an article by article basis The book addresses the place of the Convention within the broader framework of United Nations action against discrimination The different chapters analyse and discuss broad topics of race ethnicity and international law the genesis and drafting of the Convention the aims and objectives of the Convention in light of its preamble and principles of non discrimination and equality In particular the book includes a critical appraisal of the contribution of the Convention to the eradication of racial discrimination It also reflects on whether there is scope for modification of the substance or procedures of the Convention in light of challenges arising from enhanced transnational population movements the intersection between discrimination on the ground of race and discrimination against religious communities and the intersection of racial and gender based discrimination **The UN**

Convention on the Elimination of All Forms of Racial Discrimination Natan Lerner, 2015-01-08 The universal feeling that discrimination and intolerance based on race religion or beliefs have to be confronted by the international community led to the adoption half a century ago of the international convention to which this book is devoted one of the most ratified treaties The book comments on the contents of the Convention and its impact on anti racist and anti bias legislation and jurisprudence as well as its influence on and applicability to other international texts In an Introduction to this reprint the author updates the status of the Convention summarizes the work of CERD the implementation body of the Convention and discusses its relevance to general human rights particularly the area of religious intolerance and some difficult issues such as the possible clash with other fundamental freedoms Rethinking the Color Line Charles A. Gallagher, 2021-12-16

Sniderman, Thomas Piazza, 1993 Attempts to define the issue of race in the 1980s and 1990s and whether or not there is a new racism more subtle and covert than that of a generation ago

Mondal,2025-01-23

Free speech has become central to discussions about racism and is increasingly weaponised against anti racist movements This book argues that the weaponization of free speech across the political spectrum particularly by the far right alt right has been central to the resurgence rehabilitation and normalisation of racism within the mainstream politics of western liberal democracies in the last decade The dilemma then for anti racist movements is how to respond to such a challenge for if free speech allows racism then it follows that the elimination of racism is not possible Anshuman A Mondal argues that liberalism has made it look as if there is something called free speech when in fact speech is enabled by the structures of power within which we are all embedded These structures determine who gets to say what and whose voices are heard They create and sustain racism and anti racism should look beyond the mythology of free speech and focus instead on creating expressive regimes that foster racial and social justice by reshaping social discourse and transforming racialized structures of power

Group Rights and Discrimination in International Law Natan Lerner,2022-07-18 Poison in the Ivy W. Carson Byrd,2017-11-24 The world of elite campuses is one of rarified social circles as well as prestigious educational opportunities W Carson Byrd studied twenty eight of the most selective colleges and universities in the United States to see whether elite students social interactions with each other might influence their racial beliefs in a positive way since many of these graduates will eventually hold leadership positions in society He found that students at these universities believed in the success of the best and the brightest leading them to situate differences in race and status around issues of merit and individual effort Poison in the Ivy challenges popular beliefs about the importance of cross racial interactions as an antidote to racism in the increasingly diverse United States He shows that it is the context and framing of such interactions on college campuses that plays an important role in shaping students beliefs about race and inequality in everyday life for the future political and professional leaders of the nation Poison in the Ivy is an eye opening look at race on elite college campuses and offers lessons for anyone involved in modern American higher education **Racial Resentment in the Political Mind** Darren W. Davis,David C. Wilson,2021-12-27 A thought provoking look at how racial resentment rather than racial prejudice alone motivate a growing resistance among whites to improve the circumstances faced by racial minorities In Racial Resentment in the Political Mind Darren W Davis and David C Wilson explore the idea that racial resentment rather than

simply racial prejudice alone is the basis for the growing resistance among whites toward efforts to improve the circumstances faced by minorities The authors argue that there is a growing sentiment among whites that they are losing out and being cut in line by Black people and other minorities as reflected in an emphasis on diversity and inclusion multiculturalism trigger warnings and political correctness an increase in African Americans occupying powerful positions and the election of Barack Obama The culprits as many white people see it are undeserving people of color who are perceived to benefit unfairly from and take advantage of resources that come at whites expense This rewarding of unearned resources is seen as a challenge to the status quo Yet as Davis and Wilson reveal such reactions may not stem only from racial prejudice or hatred instead they may be a defensive posture resulting from threats to whites sense of justice entitlement and status Their research finds racial resentment stemming from beliefs about justice fairness and deservingness makes ordinary citizens appear racist Informative and thought provoking Racial Resentment in the Political Mind adds a much needed dimension to a timely topic Hate Prejudice and Racism Milton Kleg, 1993-01-01 Hate Prejudice and Racism provides a comprehensive overview of the problems created by prejudiced attitudes racist beliefs and acts of discrimination from the casual racial or ethnic joke to the unrestrained violence of a lynch mob It addresses such topics as the nature of ethnicity stereotyping aggression and hate groups and individuals who promote ethnic and racial hatred Kleg s discussion of ethnicity and ethnic groups challenges us to reexamine the meaning of a multicultural society He traces the history of race as a scientific concept and its use as a social concept designed to stigmatize and subordinate members of minority racial and ethnic groups Chapters on prejudice stereotyping and discrimination scapegoating provide a foundation for the chapter on hate groups and haters which includes in depth descriptions of beliefs and activities of white supremacist groups and individuals who promote racism and anti-Semitism Finally Kleg outlines implications of hate prejudice and racism for educators and all cultural workers outlining suggestions on how to approach and study this important and controversial topic
