Tanya Maria Golash-Boza

Racial Classification And History:

Racial Classification and History E. Nathaniel Gates, 1997 This collection of essays and reviews represents the most significant and comprehensive writing on Shakespeare's *A Comedy of Errors* Miola's edited work also features a comprehensive critical history coupled with a full bibliography and photographs of major productions of the play from around the world In the collection there are five previously unpublished essays The topics covered in these new essays are women in the play the play's debt to contemporary theater its critical and performance histories in Germany and Japan the metrical variety of the play and the distinctly modern perspective on the play as containing dark and disturbing elements To compliment these new essays the collection features significant scholarship and commentary on *The Comedy of Errors* that is published in obscure and difficult accessible journals newspapers and other sources This collection brings together these essays for the first time

A Cultural History of Race in the Modern and Genomic Age Tanya Maria Golash-Boza, 2023-06-01 The period from the 1920s to the present is marked by the rise of eugenics the expansion and hardened enforcement of immigration laws legal apartheid the continuance of race pseudoscience and the rise of human and civil rights discourse in response Eugenics programmes in the early 20th century focused on sterilization and evolved into unimaginable horrors with the Nazi regime in Germany Countries in Europe and across the Americas have used immigration policies to shape the racial composition of their territories Legal apartheid has been slowly dismantled in the United States and South Africa yet continues to have enduring consequences Eugenics today persists in various permutations of race science Leaders and activists have drawn from civil and human rights discourses to fight back against the persistence of racial inequalities and racialized discourses in the 21st century We can look back on history and see that the Holocaust was a tragedy of historic proportions yet the tradition of scientific racism that led to the Holocaust continues We can look back and see that the internment of the Japanese during the Second World War was a horrific injustice yet detention camps filled with Central Americans continue to proliferate in the United States and refugee camps around the world are overflowing As this volume makes clear racism is an ideology that is adept at changing with the times yet never dissipates

White Logic, White Methods Tukufu Zuberi, Eduardo Bonilla-Silva, 2008-05-02 Examines how the racial lenses of the social sciences and the subscription of social scientists to whites' racial common sense have limited their understanding of racial matters and handicapped their capacity to appreciate the significance of the race effect they call it the racial stratification effect With an assemblage of leading scholars *White Logic White Methods* explores the possibilities and necessary dethroning of current social research practices and demands a complete overhaul of current methods towards a multicultural and pluralist approach to what we know think and question Readers in various social sciences will find useful the chapters in the collection but all will agree that the introductory and concluding chapters to the volume *Towards a Definition of White Logic and White Methods* and *Telling the Real Tale of the Hunt Towards a Race Conscious Sociology of Racial Stratification* are likely to

become classics in the field of racial and ethnic relations

Race, Nation, History Oded Y. Steinberg,2019-07-05 In *Race Nation History* Oded Y Steinberg examines the way a series of nineteenth century scholars in England and Germany first constructed and then questioned the periodization of history into ancient medieval and modern eras shaping the way we

continue to think about the past and present of Western civilization at a fundamental level Steinberg explores this topic by tracing the deep connections between the idea of epochal periodization and concepts of race and nation that were prevalent at the time especially the role that Germanic or Teutonic tribes were assumed to play in the unfolding of Western history Steinberg shows how English scholars such as Thomas Arnold Williams Stubbs and John Richard Green and German scholars such as Christian Karl Josias von Bunsen Max Müller and Reinhold Pauli built on the notion of a shared Teutonic kinship to establish a correlation between the division of time and the ascent or descent of races or nations For example although they viewed the Germanic tribes conquest of the Roman Empire in A D 476 as a formative event that symbolized the transformation from antiquity to the Middle Ages they did so by highlighting the injection of a new and dominant ethnoracial character into the decaying empire But they also rejected the idea that the fifth century A D was the most decisive era in historical periodization advocating instead for a historical continuity that emphasized the significance of the Germanic tribes influence on the making of the nations of modern Europe Concluding with character studies of E A Freeman James Bryce and J B Bury Steinberg demonstrates the ways in which the innovative schemes devised by this community of Victorian historians for the division of historical time relied on the cornerstone of race

The History and Politics of the Bedouin Seraje Assi,2018-04-27 This book examines contending visions on nomadism in modern Palestine with a special focus on the British Mandate period Extending from the late Ottoman period to the founding of the State of Israel it highlights both ruptures and continuities with the Ottoman past and the Israeli present to prove that nomadism was not invented by the British or the Zionists but is the shared legacy of Ottoman British Zionist Palestinian and most recently Israeli attitudes to the Bedouin of Palestine Drawing on primary sources in Arabic and Hebrew the book shows how native conceptions of nomadism have been reconstructed by colonial and national elites into new legal taxonomies rooted in modern European theories and praxis By undertaking a comparative approach it maintains that the introduction of these taxonomies transformed not only native Palestinian perceptions of nomadism but perceptions that characterized early Zionist literature The book breaks away from the Arab Jewish duality by offering a comparative and relational study of the main forces operating under the Mandate British colonialism Labor Zionism and Arab nationalism Special attention is paid to the British side which covers the first three chapters Each chapter represents a formative stage of British colonial enterprise in Palestine extending from the late Ottoman down to the postwar and the Mandate periods A major theme is the nexus of race and ethnography reshaping British perceptions of the Bedouin of Palestine before and during the early phases of the Mandate and the ways these perceptions guided the administrative division of the country along newly demarcated racial boundaries Using an interdisciplinary approach that combines new findings in the fields of history ethnic studies postcolonial theory and environmental studies this book contributes to understandings of the Israel Palestine conflict and current trends of displacement in the Middle East
