**Is Racial Equality Unconstitutional?** Mark Golub, 2018-02-02 More than just a legal doctrine color blind constitutionalism has emerged as the defining metaphor of the post Civil Rights era Even for those challenging its constitutional authority the language of color blindness sets the terms of debate Critics of color blind constitutionalism are in this sense captured by the object of their critique And yet paradoxically to enact a color blind rule actually requires a heightened awareness of race As such color blind constitutionalism represents a particular form of racial consciousness rather than an alternative to it Challenging familiar understandings of race rights and American law Is Racial Equality Unconstitutional explores how current equal protection

law renders the pursuit of racial equality constitutionally suspect Identifying hierarchy rather than equality as an enduring constitutional norm the book demonstrates how the pursuit of racial equality historically has been viewed as a violation of white rights Arguing against conservative and liberal redemption narratives both of which imagine racial equality as the perfection of American democracy Is Racial Equality Unconstitutional calls instead for a break from the current constitutional order that it may be re founded upon principles of racial democracy , *Race Ethnicity And Difference: Imagining The Inclusive Society* Ratcliffe, Peter, 2004-06-01 This book addresses many of the key problems facing contemporary societies The social significance attached to various forms of difference most notably race and ethnicity has been seen as resulting in the exclusion of some groups from their full rights as citizens This in turn is viewed as presenting a series of barriers to the creation of more inclusive societies Early Years Management in Practice Maureen Daly, Elizabeth Byers, Wendy Taylor, 2004 Fully up to date with the latest information and theories this text supports students and practitioners working in early years management *Housing, Race and Law* Martin MacEwen, 2002-09-11 Equality of opportunity in housing is a key issue in social justice in Britain today To the extent that it patterns an individual s educational social and economic development housing constitutes a crucial battleground in the fight against racial discrimination *Housing Race and Law* is the first publication to examine the law in relation to issues of housing and race in both the private and public sector It places these issues in the broader context of the development of anti discrimination legislation outlines the current legislation and examines its impact in relation to owner occupation public housing housing association tenancies and private lets Throughout the book emphasizes the practical impact of the various legislative provisions and discusses the responses of the principle institutions from government departments and relevant professions to the Commission for Racial Equality and the Community Relations Councils or Racial Equality Councils It argues a case for a new approach to appraisal review and enforcement By collating material from a wide variety of sources the author provides an original assessment of the Race Relations Act of 1976 and its impact on housing which in its provision of cogent material and arguments for reforms is designed to be of value to practitioners academics and those concerned with racial discrimination *The Changing Terrain of Race and Ethnicity* Maria Krysan, Amanda E. Lewis, 2004-11-11 The legal institutions of overt racism in the United States have been eliminated but social surveys and investigations of social institutions confirm the continuing significance of race and the enduring presence of negative racial attitudes This shift from codified and explicit racism to more subtle forms comes at a time when the very boundaries of race and ethnicity are being reshaped by immigration and a rising recognition that old systems of racial classification inadequately capture a diverse America In *The Changing Terrain of Race and Ethnicity* editors Maria Krysan and Amanda Lewis bring together leading scholars of racial dynamics to study the evolution of America s racial problem and its consequences for race relations in the future *The Changing Terrain of Race and Ethnicity* opens by attempting to answer a puzzling question how is it that so many whites think racism is no longer a problem but so

many nonwhites disagree Sociologist Lawrence Bobo contends that whites exhibit what he calls laissez faire racism which ignores historical and structural contributions to racial inequality and does nothing to remedy the injustices of the status quo Tyrone Forman makes a similar case in his chapter contending that an emphasis on color blindness allows whites to be comforted by the idea that all races are on a level playing field while not recognizing the advantages they themselves have reaped from years of inequality The book then moves to a discussion of the new ways that Americans view race Eduardo Bonilla Silva and Karen Glover argue that the United States is moving from a black white divide to a tripartite system where certain light skinned non threatening minority groups are considered honorary whites The book's final section reexamines the theoretical underpinnings of scholarship on race and ethnicity Joe Feagin argues that research on racism focuses too heavily on how racial boundaries are formed and needs to concentrate more on how those boundaries are used to maintain privileges for certain groups at the expense of others Manning Marable contends that racism should be addressed at an institutional level to see the prevalence of structural racism deeply entrenched patterns of inequality that are coded by race and justified by stereotypes The Changing Terrain of Race and Ethnicity provides an in depth view of racism in modern America which may be less conspicuous but not necessarily less destructive than its predecessor Jim Crow The book's rich analysis and theoretical insight shed light on how despite many efforts to end America's historic racial problem it has evolved and persisted into the 21st century
