Racial Profiling:

Racial Profiling Steven J. Muffler, 2006 In recent years racial profiling has drawn the attention of state and federal governments In this book racial profiling is defined as the practice of targeting individuals for police or security interdiction detention or other disparate treatment based primarily on their race ethnicity or national origin in the belief that certain minority groups are more likely to engage in unlawful behaviour Assertions that law enforcement personnel at all levels unfairly target certain racial and ethnic groups particularly but not exclusively for traffic stops and searches have raised concerns about violations of the Constitution The major debate on racial profiling centres on whether the practice should be prohibited entirely and whether data on traffic stops and searches should be collected to determine if the practice is occurring This book gathers presents the major issues available data and analyses important to understanding on the most dangerous and divisive practices of our time

RACIAL PROFILING Darin D. Fredrickson, Raymond P. Siljander, 2002-01-01 This book was written to eliminate confusion regarding what has come to be called racial profiling by clarifying the legitimate law enforcement practice of criminal profiling and by clarifying what constitutes unfair discrimination and persecution This book was written to benefit sociology students law enforcement officers and anyone else in a position to be concerned with or affected by the profiling issue Police administrators judges and legislators must adequately understand the topics and their many ramifications if they are to make decisions that are based on fact rather than stereotype and myth and free from the influence of adverse social and political pressures And attorneys when prosecuting or defending cases wherein profiling and discrimination is an issue must have good insight into the many

interrelated dynamics of the topics to properly prepare and argue their case This writing explores difficult social issues that are often poorly understood but issues that need to be understood if solutions are to be meaningful And a poorly conceived solution is especially likely when the issues are both complex and controversial In this book the writers acknowledge that while criminal profiling is a necessary and legitimate law enforcement practice unchecked bias can pollute the practice And while they acknowledge that measures to detect those whose enforcement practices reflect bias can have merit they emphasize that such efforts must be in addition to the hiring of high caliber officers providing quality training providing competent leadership and on a properly staffed and trained Internal Affairs department But the authors also emphasize the unfortunate fact that many efforts intended to prevent bias are to varying degrees ineffectual and create collateral problems Germane to that discussion is illumination of the difficulties of monitoring fair treatment policies and the unintended problems that often accompany consent decrees

Racial Profiling Karen S. Glover, 2009-08-16 Karen S Glover investigates the social science practices of racial profiling inquiry examining their key influence in shaping public understandings of race law and law enforcement Commonly manifesting in the traffic stop the association with racial minority status and criminality challenges the fundamental principle of equal justice under the law as described in the U S Constitution Communities of color have long voiced resistance to racialized law and law enforcement yet the body of knowledge about racial profiling rarely engages these voices Applying a critical race framework Glover provides in depth interview data and analysis that demonstrate the broad social and legal realms of citizenship that are inherent to the racial profiling phenomenon To demonstrate the often subtle workings of race and the law in the post Civil Rights era the book includes examination of the 1996 U S Supreme Court s Whren decision a judicial pronouncement that allows pretextual action by law enforcement and thus widens law enforcement powers in decisions concerning when and against whom law is applied

Racial Profiling Alison Marie Behnke, 2017-01-01 In the United States racial profiling affects thousands of Americans every day Both individuals and institutions such as law enforcement agencies government bodies and schools routinely use race or ethnicity as grounds for suspecting someone of an offense The high profile deaths of unarmed people of color at the hands of police officers have brought renewed national attention to racial profiling and have inspired grassroots activism from groups such as Black Lives Matter Combining rigorous research with powerful personal stories this insightful title explores the history the many manifestations and the consequences of this form of social injustice

of profiles in drug trafficking prevention efforts in airports and on the U S highways until it became synonymous with racial discrimination by law enforcement The authors draw upon an extensive body of primary sources social science literature and court cases to examine how law enforcement legislators and the courts have handled racial profiling They also review the debate over racial profiling offering arguments made by its opponents and defenders before and after the events of September 11 and describe its development as both a legal and a cultural concept

Profiles in Injustice David A. Harris, 2003 Argues that racial profiling by police officers highway troopers and customs officials is morally reprehensible and does not help catch criminals but rather contributes to the moral decay of American society
