Racialized Politics The Debate About Racism In America:

Racialized Politics David O. Sears, Jim Sidanius, Lawrence Bobo, 2000-02-15 Are Americans less prejudiced now than they were thirty years ago or has racism simply gone underground Is racism something we learn as children or is it a result of certain social groups striving to maintain their privileged positions in society In *Racialized Politics* political scientists sociologists and psychologists explore the current debate surrounding the sources of racism in America Published here for the first time the essays represent three major approaches to the topic The social psychological approach maintains that prejudice socialized early in life feeds racial stereotypes while the social structural viewpoint argues that behavior is shaped by whites fear of losing their privileged status The third perspective looks to non racially inspired ideology including attitudes about the size and role of government as the reason for opposition to policies such as affirmative action Timely and important this collection provides a state of the field assessment of the current issues and findings on the role of racism in mass politics and public opinion Contributors are Lawrence Bobo Gretchen C Crosby Michael C Dawson Christopher Federico P J Henry John J Hetts Jennifer L Hochschild William G Howell Michael Hughes Donald R Kinder Rick Kosterman Tali Mendelberg Thomas F Pettigrew Howard Schuman David O Sears James Sidanius Pam Singh Paul M Sniderman Marylee C Taylor and Steven A Tuch

Multiracial Identity and Racial Politics in the United States Natalie Masuoka, 2017 Policy makers academic administrators scholars and members of the public are clamoring for indicators of the value and reach of research The question of how to quantify the impact and importance of research and scholarly output from the publication of books and journal articles to the indexing of citations and tweets is a critical one in predicting innovation and in deciding what sorts of research is supported and whom is hired to carry it out There is a wide set of data and tools available for measuring research but they are often used in crude ways and each have their own limitations and internal logics *Measuring Research What Everyone Needs to Know* R will provide for the first time an accessible account of the methods used to gather and analyze data on research output and impact Following a brief history of scholarly communication and its measurement from traditional peer review to crowdsourced review on the social web the book will look at the classification of knowledge and academic disciplines the differences between citations and references the role of peer review national research evaluation exercises the tools used to measure research the many different types of measurement indicators and how to measure interdisciplinarity The book also addresses emerging issues within scholarly communication including whether or not measurement promotes a publish or perish culture fraud in research or citation cartels It will also look at the stakeholders behind these analytical tools the adverse effects of these quantifications and the future of research measurement

Anger and Racial Politics Antoine J. Banks, 2014-05-12 Politicians scholars and pundits often disagree about whether race has been injected into a political campaign or policy debate Some have suspected that race sometimes enters into politics even when political elites avoid using racial cues or racially coded language *Anger and Racial Politics* provides a theoretical

framework for understanding the emotional conditions under which this effect might happen Banks asserts that making whites angry no matter the basis for their anger will make ideas about race more salient to them He argues that anger and not fear or other negative emotions provides the foundation upon which contemporary white racial attitudes are structured Drawing on a multi method approach he demonstrates that anger plays an important role in enhancing the impact of race on whites preferences for putting an end to affirmative action repealing health care reform hanging the confederate flag high and voting for Tea Party backed candidates **The SAGE Handbook of African American Education** Linda C.

Prejudice in Politics Lawrence D. Bobo, Mia Tuan, 2006-04-15 The authors explore a lengthy controversy surrounding fishing hunting and gathering rights of Chippewa Indians in Wisconsin The book uses a carefully designed survey of public opinion to explore the dynamics of prejudice and political contestation and to further our understanding of how and why racial prejudice enters into politics in the U S

Transcending Racial Barriers Michael O. Emerson, George A. Yancey, 2011 Despite recent progress against racial inequalities American society continues to produce attitudes and outcomes that reinforce the racial divide In *Transcending Racial Barriers* Michael Emerson and George Yancey offer a fresh perspective on how to combat racial division They document the historical move from white supremacy to institutional racism then look at modern efforts to overcome the racialized nature of our society The authors argue that both conservative and progressive approaches have failed as they continually fall victim to forces of ethnocentrism and group interest They then explore group interest and possible ways to account for the perspectives of both majority and minority group members They look to multiracial congregations multiracial families the military and sports teams all situations in which group interests have been overcome before In each context they find the development of a core set of values that binds together different racial groups along with the flexibility to express racially based cultural uniqueness that does not conflict with this critical core *Transcending Racial Barriers* offers what is at once a balanced approach towards dealing with racial alienation and a bold step forward in the debate about the steps necessary to overcome present day racism

"I'm Not a Racist, But..." Lawrence Blum, 2015-08-01 Not all racial incidents are racist incidents Lawrence Blum says We need a more varied and nuanced moral vocabulary for talking about the arena of race We should not be faced with a choice of racism or nothing Use of the word racism is pervasive An article about the NAACP's criticism of television networks for casting too few minority actors in lead roles asks Is television a racist institution A white girl in Virginia says it is racist for her African American teacher to wear African attire Blum argues that a growing tendency to castigate as racism everything that goes wrong in the racial domain reduces the term's power to evoke moral outrage In *I'm Not a Racist But* Blum develops a historically grounded account of racism as the deeply morally charged notion it has become He addresses the question whether people of color can be racist defines types of racism and identifies debased and inappropriate usages of the term Though racial insensitivity racial anxiety racial ignorance and racial injustice are in his view not racism they are racial ills that should elicit moral concern Blum argues that race itself even when not serving distinct racial malfeasance is a morally destructive idea implying moral distance and unequal worth History and

genetic science reveal both the avoidability and the falsity of the idea of race Blum argues that we can give up the idea of race but must recognize that racial groups historical and social experience has been shaped by having been treated as if they were races *Us Against Them* Donald R. Kinder,Cindy D. Kam,2010-04-15 Ethnocentrism our tendency to partition the human world into in groups and out groups pervades societies around the world Surprisingly though few scholars have explored its role in political life Donald Kinder and Cindy Kam fill this gap with *Us Against Them* their definitive explanation of how ethnocentrism shapes American public opinion Arguing that humans are broadly predisposed to ethnocentrism Kinder and Kam explore its impact on our attitudes toward an array of issues including the war on terror humanitarian assistance immigration the sanctity of marriage and the reform of social programs The authors ground their study in previous theories from a wide range of disciplines establishing a new framework for understanding what ethnocentrism is and how it becomes politically consequential They also marshal a vast trove of survey evidence to identify the conditions under which ethnocentrism shapes public opinion While ethnocentrism is widespread in the United States the authors demonstrate that its political relevance depends on circumstance Exploring the implications of these findings for political knowledge cosmopolitanism and societies outside the United States Kinder and Kam add a new dimension to our understanding of how democracy functions Racial Stasis Christopher D. DeSante,Candis Watts Smith,2020-02-25 Racial progress in the United States has hit a wall and the rise of white nationalism is but one manifestation of this Most Americans continue to hope that the younger generation which many believe manifests less racism and more acceptance of a multiracial society will lead to more moderate racial politics but this may not be happening Overtly racist attitudes have declined but anti black stereotypes and racial resentment remain prevalent among white Americans To add the shape of racial attitudes has continued to evolve but our existing measures have not evolved in step and cannot fully illuminate the challenge at hand With *Racial Stasis* Christopher D DeSante and Candis Watts Smith argue persuasively that this is because millennials a generational cohort far removed from Jim Crow and the Civil Rights era lack sufficient understanding of the structural nature of racial inequalities in the United States and therefore also the contextual and historical knowledge to be actively anti racist While these younger whites may be open to the idea of interracial marriage or living next to a family of a different race they often do not understand why policies like affirmative action still need to exist and are weary about supporting these kinds of policies In short although millennials language and rationale around race racism and racial inequalities are different from previous generations the end result is the same *Who is White?* George A. Yancey,2003 Yancey demonstrates how and why the definition of whiteness is changing rapidly in the United States **Dog Whistle Politics** Ian Haney-Lopez,2014-02 A sweeping account of how dog whistle racial politics contributed to increasing inequality in America since the 1960s

Rights, Race, and Recognition Derrick Darby, 2009-04-02 What is the source of rights Rights have been grounded in divine agency human nature and morally justified claims and have been used to assess the moral status of legal and customary social practices The orthodoxy is that some of our rights are a species of unrecognized or natural rights For example black slaves in antebellum America were said to have such rights and this was taken to provide a basis for establishing the immorality of slavery Derrick Darby exposes the main shortcomings of the orthodox conception of the source of rights and proposes a radical alternative He draws on the legacy of race and racism in the USA to argue that all rights are products of social recognition This bold lucid and meticulously argued book will inspire readers to rethink the central role assigned to rights in moral political and legal theory as well as in everyday evaluative discourse

Broadening the Contours in the Study of Black Politics Aaron Wildavsky, 2017-07-05 Broadening the Contours in the Study of Black Politics volume 17 of the National Political Science Review NPSR is divided thematically into two books available separately or as a set The first concentrates on the institutional aspects of Black politics The second book addresses various dimensions of social capital that constitute the fundamental building blocks of Black politics Each contains peer reviewed articles a symposium section and book reviews as well as other featured sections Together these books build on the previous NPSR volume Black Women in Politics The symposium in Volume 17 1 examines the struggle of Black women both in the political science discipline and in getting their work published In the symposium section of Volume 17 2 members of the National Conference of Black Political Scientists carry on a revealing conversation about the dilemmas of professional life for Black women in political science The set also contains a section called Trends which offers data to use as starting points for discussions in teaching on professional panels or in the

mass media regarding the new versions of the Voting Rights Act after the Shelby County v Holder decision of 2013 Both volumes 17 1 and 17 2 contain rigorously vetted articles on significant themes in the study of Black politics This set represents the most recent offering in the distinguished National Political Science Review series American Identity and the Politics of Multiculturalism Jack Citrin,David O. Sears,2014-08-11 The civil rights movement and immigration reform transformed American politics in the mid 1960s Demographic diversity and identity politics raised the challenge of e pluribus unum anew and multiculturalism emerged as a new ideological response to this dilemma This book uses national public opinion data and public opinion data from Los Angeles to compare ethnic differences in patriotism and ethnic identity and ethnic differences in support for multicultural norms and group conscious policies The authors find evidence of strong patriotism among all groups and the classic pattern of assimilation among the new wave of immigrants They argue that there is a consensus in rejecting harder forms of multiculturalism that insist on group rights but also a widespread acceptance of softer forms that are tolerant of cultural differences and do not challenge norms such as by insisting on the primacy of English

Psychology of Prejudice and Discrimination Mary E. Kite,Bernard E. Whitley, Jr.,Lisa S. Wagner,2022-07-25 Psychology of Prejudice and Discrimination provides a comprehensive and compelling overview of what psychological theory and research have to say about the nature causes and reduction of prejudice and discrimination It balances a detailed discussion of theories and selected research with applied examples that ensure the material is relevant to students This edition has been thoroughly revised and updated and addresses several interlocking themes It first looks at the nature of prejudice and discrimination followed by a discussion of research methods Next come the psychological underpinnings of prejudice the nature of stereotypes the conditions under which stereotypes influence responses to other people contemporary theories of prejudice and how individuals values and belief systems are related to prejudice Explored next are the development of prejudice in children and the social context of prejudice The theme of discrimination is developed via discussions of the nature of discrimination the experience of discrimination and specific forms of discrimination including gender gender identity sexual orientation age ability and appearance The concluding theme is the reduction of prejudice The book is accompanied by a comprehensive website featuring an Instructor Manual that contains activities and tools to help with teaching a prejudice and discrimination course PowerPoint slides for every chapter and a Test Bank with short answer and multiple choice exam questions for every chapter This book is an essential companion for all students of prejudice and discrimination including those in psychology education social work business communication studies ethnic studies and other disciplines In addition to courses on prejudice and discrimination this book will also appeal to those studying racism and diversity From Prejudice to Intergroup Emotions Diane M. Mackie,Eliot R. Smith,2016-01-28 The theories or programs of research described in the chapters of this book move beyond the traditional evaluation model of prejudice drawing on a broad range of theoretical ancestry to develop models of why when and how differentiated reactions to groups arise and what

their consequences might be The chapters have in common a re focusing of interest on emotion as a theoretical base for understanding differentiated reactions to and differentiated behaviors toward social groups The contributions also share a focus on specific interactional and structural relations among groups as a source of these differentiated emotional reactions The chapters in the volume thus reflect a theoretical shift from an earlier emphasis on knowledge about ingroups and outgroups to a new perspective on prejudice in which socially grounded emotional differentiation becomes a basis for social regulation

Advances in Experimental Social Psychology Mark P. Zanna, 2005-05-03 *Advances in Experimental Social Psychology* continues to be one of the most sought after and most often cited series in this field Containing contributions of major empirical and theoretical interest this series represents the best and the brightest in new research theory and practice in social psychology

Racism without Racists Eduardo Bonilla-Silva, 2006-08-03 The first edition of this best selling book showed that alongside the subtle forms of discrimination typical of the post Civil Rights era new powerful ideology of color blind racism has emerged Bonilla Silva documented how beneath the rhetorical maze of contemporary racial discourse lies a full blown arsenal of arguments phrases and stories that whites use to account for and ultimately justify racial inequities In the new edition Bonilla Silva has added a chapter dealing with the future of racial stratification in America that goes beyond the white black dichotomy He argues that the U S is developing a more complex and apparently plural racial order that will mimic Latin American patterns of racial stratification Another new chapter addresses a variety of questions from readers of the first edition And he has updated the book throughout with new information data and references where appropriate The book ends with a new Postscript What is to be Done For Real As in the highly acclaimed first edition Bonilla Silva continues to challenge color blind thinking
