immigration policies are meant to protect the nation's economy and strength. It is no coincidence however that the populations most affected by these regulations are ethnic and cultural minorities such as Mexican and Muslim immigrants. The analysis presented in *The Biopolitics of Race* will be valuable to philosophers and other scholars or students interested in critical race theory, feminism and queer theory. It also has implications for anyone working in public health, bioethics or migration studies.

Race: My Story & Humanity's Bottom Line Lauren Joichin Nile, 2014-01-20 Lauren Joichin Nile introduces what she believes is humanity's racial bottom line with a compelling account of her personal experiences growing up in 1950s and 60s segregated New Orleans. In so doing she posits what she believes is humanity's universal racial story. Lauren explains how starting out from Southern Africa, fully formed human beings over thousands of years walked out of Africa, populated the entire rest of Planet Earth and over 2,000 generations physically adapted to their new environments, gradually taking on the appearance of the many races of modern day humanity, making all of us literally one biologically related human family. She then provides an abbreviated account of some of the most significant events of humanity's racial history and an explanation of how that history has affected the American racial present. She also analyzes a number of controversial topics including whether there are truly superior and inferior races. Finally, Lauren shares what she believes are the specific actions that humanity must take in order to heal from our wretched racial past, realize that across the planet we all truly can love one another and as a species walk into a wiser, more empathetic, compassionate human future. Lauren Joichin Nile is an author, keynote speaker, trainer and licensed attorney who specializes in assisting organizations in increasing their emotional intelligence, compassion and productivity. The goal of her work with organizations is to help create environments in which understanding and kindness are valued and as a result every person is equally welcomed and uniformly appreciated, irrespective of all demographic differences. The goal of Lauren's speaking and training in the greater society is to help the human species grow in both wisdom and compassion.

Lincoln's Political Thought George Kateb, 2015-02-02 At the center of Lincoln's political thought and career is an intense passion for equality that runs so deep in the speeches, messages and letters that it has the force of religious conviction for Lincoln. George Kateb examines these writings to reveal that this passion explains Lincoln's reverence for both the Constitution and the Union.

Systemic Racism Joe Feagin, 2013-09-13 In this book Feagin develops a theory of systemic racism to interpret the highly racialized character and development of this society. Exploring the distinctive social worlds that have been created by racial oppression over nearly four centuries and what this has meant for the people of the United States, focusing his analysis on white on black oppression. Drawing on the commentaries of black and white Americans in three historical eras: the slavery era, the legal segregation era and then those of white Americans, Feagin examines how major institutions have been thoroughly pervaded by racial stereotypes, ideas, images, emotions and practices. He theorizes that this system of racial oppression was not an accident of history but was created intentionally by white Americans. While significant changes have occurred in this racist

system over the centuries key and fundamental elements have been reproduced over nearly four centuries and US institutions today imbed the racialized hierarchy created in the 17th century Today as in the past racial oppression is not just a surface level feature of society but rather it pervades permeates and interconnects all major social groups networks and institutions across society *Racism, Policy and Politics* Karim Murji, 2017-12-06 This book analyses and bridges the gap between critical social research on race and politics by reviewing the academic field of race theorising and scholarship covering changes in race and racism debates in recent decades and assessing the extent scope and limits of academic engagements with and impact on policy and politics

Race Paul C. Taylor, 2013-04-29 In *Race A Philosophical Introduction* Second Edition Paul C Taylor provides an accessible guide to a well travelled but still mysterious area of the contemporary social landscape As in the first edition the book blends metaphysics and social philosophy analytic philosophy and pragmatic philosophy of experience In this thoroughly updated and revised volume Taylor outlines the main features and implications of race thinking while engaging the ideas of such important figures as Linda Alcoff K Anthony Appiah W E B Du Bois Michel Foucault Sally Haslanger and Howard Winant The result is a comprehensive but accessible introduction to philosophical race theory and to a non biological and situational notion of race The book unfolds in a sequence of five chapters each devoted to one of the following questions What is race thinking Don't we know better than to talk about race now Are there any races What is it like to have a racial identity And how important ethically is colorblindness On the way to answering these questions Race takes up topics like mixed race identity white supremacy the relationship between the race concept and other social identity categories and the impact of race thinking on our erotic and romantic lives The second edition's new concluding chapter explores the racially fraught issues of policing immigration and global justice and interrogates the thought that Barack Obama has ushered in a post racial age This volume is suitable for the educated general reader as well as for students and scholars in ethnic studies philosophy sociology and other related fields

A Philosophy of Struggle Leonard Harris, 2020-04-30 Collating for the first time the key writings of Leonard Harris this volume introduces readers to a leading figure in African American and liberatory thought Harris' writings on honor insurrectionist ethics tradition and his work on Alain Locke have established him as a leading figure in critical philosophy His timely and urgent responses to structural racism and structural violence mark him out as a bold cultural commentator and a deft theoretician The wealth and depth of Harris' writings are brought to the fore in this collection and the incisive introduction by Lee McBride serves to orient contextualize and frame an oeuvre that spans four decades In his prolegomenon Harris eschews the classical meaning of philosophy supplanting it with an idiosyncratic conception of philosophy *philosophia nata ex conatu* that features an avowedly value laden dimension As well as serving as an introduction to Harris' philosophy *A Philosophy of Struggle* provides new insights into how we ought conceptualize philosophy race tradition and insurrection in the 21st century

Empowering Women in Higher Education and Student Affairs Penny A. Pasque, Shelley Errington Nicholson, 2023-07-03 Co published with How do we interrupt the current paradigms of sexism in the academy How do we construct a new and inclusive gender paradigm that resists the

dominant values of the patriarchy And why are these agendas important not just for women but for higher education as a whole These are the questions that these extensive and rich analyses of the historical and contemporary roles of women in higher education as administrators faculty students and student affairs professionals seek constructively to answer In doing so they address the intersection of gender and women s other social identities such as of race ethnicity sexual orientation class and ability This book addresses the experiences and position of women students from application to college through graduate school and the barriers they encounter the continuing inequalities in the rates of promotion and progression of women and other marginalized groups to positions of authority and the gap in earnings between men and women and pays particular attention to how race and other social markers impact such disparities contextualizing them across all institutional types Written collaboratively by an intergenerational group of women men and transgender people with different social identities feminist perspectives and professional identities and who in the process built upon each other s work this volume constitutes a call to educators and scholars to work toward centering feminist and other marginalized perspectives in their practice and research in order to equitably address the evolving complexities of college and university life Employing a wide range of theoretical lenses examining a variety of models of practice and giving voice to a diversity of personal experiences through narrative this is a major contribution to the scholarship on women in higher education This is a book for all women in the academy who want to better understand their experience and to dismantle the remaining barriers of sexism and oppression for themselves and future generations of students An ACPA Publication Critical Race Theory Matters Margaret Zamudio,Christopher Russell,Francisco Rios,Jacquelyn L. Bridgeman,2011-02-11 Critical Race Theory Matters provides a comprehensive and accessible overview of this influential movement shining its keen light on specific issues within education Pragmatism and Social Philosophy Michael G. Festl,2020-12-29 This book explores the role that American pragmatism played in the development of social philosophy in 20th century Europe The essays in the first part of the book show how the ideas of Peirce James and Dewey influenced the traditions of European philosophy especially existentialism and the Frankfurt School of Critical Theory that emerged in the 20th century The second part of the volume deals with current challenges in social philosophy The essays here demonstrate how discussions of two core issues in social philosophy the conception of social conflict and the public can be enriched with pragmatist resources In featuring both historical and conceptual perspectives these essays provide a full picture of pragmatism s role in the development of Continental social philosophy Pragmatism and Social Philosophy will be of interest to scholars and advanced students working on American philosophy social philosophy and Continental philosophy Unfinished Projects Paige Arthur,2020-05-05 In this major new reading of Sartre s life and work Paige Arthur traces the relationship between the philosopher s decades long commitment to decolonization and his intellectual positions Where other commentators have focused on the tensions between Sartre s Marxism and his account of existential freedom usually to denigrate one in favor of the other Arthur shows how Sartre s

political engagement with global liberation movements and his philosophical framework developed alongside one another. Closely following the postwar movements for decolonization and then supporting the war of independence in Algeria, Sartre proposed an influential and uncompromising view of imperialism. Analyzing the Western attitude to the subhuman colonial subject, he offered an account of the social constraints that applied to both ruler and ruled and came to argue that political violence on both sides was a systematic consequence of the colonial order. Arthur's rich and nuanced book locates Sartre within the political discussions of his time whilst also looking forward to contemporary debates about new forms of imperialism and resistance.
