clear and engaging introduction to a contemporary analysis of race and racism s This text effectively combines key theoretical perspectives with vivid contemporary examples Dr Rebecca Barnes University of Derby Fantastic book for helping students get past the stuntedness of the term racism to understand the way in which racisms are part of our social practices and institutions Dr Lucy Michael Hull University This is a solid text covering the topic in a thoughtful manner Studying and teaching racism is a complex issue and this book is a very good resource Dr Sanjay Sharma Brunel University We hear much

about race and racism in public discourse but the terms are frequently used without clear definitions or practical examples of how these phenomena work. *Racisms: An Introduction* introduces practical methods which enable students to think coherently and sociologically about this complex feature of the global landscape. Steve Garner argues that there is no single monolithic object of analysis but rather a plural set of ideas and practices that result in the introduction of race into social relations. This differs over time and from one place to another. Focussing on the basics, this book defines race, racism, institutional racism and racialization. Provides examples of how these function in fields like the natural sciences and asylum. Clearly sets out theoretical arguments around collective identities: race, class, gender, nation, religion. Uses empirical case studies including some drawn from the author's own fieldwork. Points students toward sources of further web and text-based information. Engaging and accessible, this book provides a signposted route into key elements of contemporary debates. It is an ideal introduction for undergraduates studying race and ethnicity, social divisions and stratification. **Whiteness, Pedagogy,**

Performance Leda M. Cooks, Jennifer S. Simpson, 2008-03-01. *Whiteness: Pedagogy Performance* is unique in bringing together these three important topics in the context of communication teaching and scholarship with an eye toward interdisciplinary perspectives. In fourteen chapters, the leading whiteness scholars in the field of communication analyze the process of teaching and learning and the complicated intersections of whiteness, racial identity and cross-racial dialogue. Toward these ends, these essays offer a variety of theoretical and practical approaches to the analysis of identity construction, racial privilege and pedagogies toward equality and social justice. Above all, for teachers, students and anyone interested in these issues, this book is a challenge to re-think the ways our curricula, texts, disciplinary boundaries and moreover how our interactions and performances re-inscribe racial privileges. Chapters provide innovative and accessible analyses of teaching and learning that will appeal to students, teachers, administrators and anyone interested in how race works. [The Routledge International Handbook of Intercultural Arts Research](#) Pamela Burnard, Elizabeth Mackinlay, Kimberly Powell, 2016-01-08. For artists, scholars, researchers, educators and students of arts theory interested in culture and the arts, a proper understanding of the questions surrounding interculturality and the arts requires a full understanding of the creative, methodological and interconnected possibilities of theory, practice and research. *The International Handbook of Intercultural Arts Research* provides concise and comprehensive reviews and overviews of the convergences and divergences of intercultural arts practice and theory, offering a consolidation of the breadth of scholarship, practices and the contemporary research methodologies, methods and multi-disciplinary analyses that are emerging within this new field. **Cushites in the Hebrew**

Bible Kevin Burrell, 2020-01-13. *Cushites in the Hebrew Bible* offers a reassessment of Cushite ethnographic representations in the biblical literature as a counterpoint to misconceptions about Africa and people of African descent which are largely a feature of the modern age. Whereas current interpretations have tended to emphasize unfavourable portraits of the people biblical writers called Cushites, Kevin Burrell illuminates the biblical perspective through a comparative assessment of

ancient and modern forms of identity construction Past and present modes of defining difference betray both similarities and differences to ethnic representations in the Hebrew Bible providing important contexts for understanding the biblical view This book contributes to a clearer understanding of the theological historical and ethnic dynamics underpinning representations of Cushites in the Hebrew Bible **The Politicization of Parenthood** Martina Richter, Sabine

Andresen, 2012-02-29 Currently families are being subjected to increasing public attention Interest is focussing on their potential strengths and weaknesses in determining how well children do at school Alongside such human development oriented expectations families are also becoming a focus of attention as a resource for human capital in times of economic crises and criticism of the welfare state In many European countries parents and children are at the forefront of the welfare state and socio educational activities in current programs and policies The current transformation processes in the welfare state are making the relationship between families and the state more dynamic in general and they are structuring the discourses on the childrearing education and child care services in the fields of both public and private responsibility The introduction of all day schooling in Germany also has to be viewed in this context This is gradually changing the traditional half day structure of German schools and shifting the borders of public and private responsibility on the levels of education child care and childrearing institutions The attention given to parental childrearing and educational responsibility within the context of current national and international debates clearly underlines the fact that issues in private life are increasingly entering the public discourse and becoming subject to attempts at socio political control This raises the assumption of an increasing politicization of parenthood in the post welfare state that is focusing more and more attention on the structural conditions of gainful employment and child care as well as on the current relations between the genders This context particularly emphasizes the time and care regimes that decisively determine the practices in daily family life and the utilization of all day education settings Civil Antisemitism, Modernism, and British Culture, 1902-1939 Lara

Trubowitz, 2012-04-26 This book addresses the development of civil anti Semitism in twentieth century Britain a crucial and often critically neglected strand of anti Jewish rhetoric that prior to 1934 was essential to the legitimization of proto fascist political and literary discourses as well as stylistic practices within literary modernism **Race, Ethnicity & Society** Tina

Patel, 2023-02-08 Part of the New Approaches to Sociology series Race Ethnicity Society expands on Tina Patel s acclaimed book Race and Society Offering a thoughtful and critically engaging exploration of some of the key issues around race and ethnicity in contemporary society this book provides a nuanced and impactful perspective for students studying sociology With a progressive approach that emphasises the social construction of race issues within a post racial era moving away from essentialist and polarized explanations of raced interaction this book Introduces the main concepts and key theories including their post developments Includes dedicated chapters on theorizing race and historical context Focuses on the processes and impact of racial categorisation in contemporary society Covers contemporary discussions related to

Shakespeare, Spectatorship and the Technologies of Performance Pascale Aebischer, 2020-04-30 Shakespeare Spectatorship and the Technologies of Performance examines how rapid changes in performance technologies affect modes of spectatorship for early modern drama It argues that seemingly disparate developments such as the revival of early modern architectural and lighting technologies digital performance technologies and the hybrid medium of theatre broadcast are fundamentally related How spectators experience performances is not only affected in medium specific ways by particular technologies but is also connected to the plays roots in early modern performance environments Aebischer s examples range from the use of candlelight and re imagined early modern architecture to set design performance capture technologies digital video social media hologram projection biotechnologies and theatre broadcasts This book argues that digital and analogue performance technologies alike activate modes of ethical spectatorship requiring audiences to adopt an ethical standpoint as they decide how to look where to look what medium to look through and how to take responsibility for looking
