Racism In Europe 1870 :

Racism in Europe Neil MacMaster, 2017-03-08 The study of modern racism has tended to treat anti-Semitism and anti-black racism as separate and unconnected phenomena This innovative study argues that a full understanding of the origins and development of racism in Europe after 1870 needs to examine the structure and interrelationships between the two dominant forms of prejudice Contrary to expectation anti-black racism was not confined to the colonial maritime nations of western Europe but perpetrated even the rural societies of central and eastern Europe Likewise anti-Semitism could flourish even in the almost total absence of Jews MacMaster explores the conditions under which modern political movements faced with the crisis of modernity began to draw upon and mobilise the negative stereotypes that through the development of the mass media had become almost universal features of popular culture By weaving together the changing spatial and temporal dimensions of anti-Semitic and anti-black prejudice the study provides a fresh and more global framework for understanding modern racism

Racism and Anti-Racism in Europe Alana Lentin, 2004-06-20 Remarkable a major contribution to our understanding and handling of one of the crucial contemporary issues that acquires more gravity by the day Zygmunt Bauman This is an in-depth sociological study of the phenomenon of anti-racism as both political discourse and social movement practice in western Europe Lentin develops a comparative study of anti-racism in Britain France Italy and Ireland While race and racism have been submitted to many profound analyses anti-racism has often been dealt with as either the mere opposite of racism or as a theme for prescriptives or polemics by those concerned with the persistence of racist discrimination By contrast this book views anti-racism as a variety of discourses that are central to the understanding of the politics of modern states Examining anti-racism gives us insights not only into current debates on citizenship immigration and Europeanisation but it also crucially assists us in understanding the nature of race racism and racialisation themselves At a time of mounting state racism against asylum seekers migrants and refugees throughout Europe and beyond this book provides a much needed exploration of the discourse of anti-racism that shapes policy and public opinion today

Racism and Equality in the European Union Mark Bell, 2009-01-08 The European Union has committed itself to combating racism as a general objective of law and policy EU legislation requires Member States to introduce laws prohibiting racial discrimination in many aspects of everyday life including employment education healthcare and housing Alongside legislation requiring action at national level the EU institutions have also made periodic commitments to mainstream racial equality taking anti-racism objectives into account within all areas of EU law and policy This book analyses the extent to which the objectives of combating racism and promoting ethnic equality have been effectively mainstreamed throughout a wide range of EU policy fields It begins by considering what combating racism means in the contemporary context of the enlarged EU Bell explores what mainstreaming ethnic equality objectives entails and whether the priorities and instruments differ from those adopted in the earlier mainstreaming of gender equality or those used on other discrimination grounds The second part

of the book examines the extent to which EU law and policy objectives have in practice been integrated exploring the effects in the key areas of employment social inclusion including education health and housing immigration and criminal law

Italian Fascism and Spanish Falangism in Comparison Giorgia Priorelli, 2020-07-01. This book compares the Italian Fascist and the Spanish Falangist political cultures from the early 1930s to the early 1940s, using the idea of the nation as the focus of the comparison. It argues that the discourse on the nation represented a common denominator between these two manifestations of the fascist phenomenon in Mussolini's Italy and Franco's Spain. Exploring the similarities and differences between these two political cultures, this study investigates how Fascist and Falangist ideologues defined and developed their own idea of the nation over time to legitimise their power within their respective countries. It examines to what extent their concept of the nation influenced Italian and Spanish domestic and foreign policies. The book offers a four-level framework for understanding the evolution of the fascist idea of the nation: the ideology of the nation, the imperial projects of Fascism and Falangism, race and the nation, and the place of these cultures in the new Nazi continental order. In doing so, it shows how these ideas of the nation had significant repercussions on fascist political practice.
