**Race and the Third Reich** Christopher Hutton, 2005-12-02 Race and the Third Reich aims to set out the key concepts debates and controversies that marked the academic study of race in Nazi Germany It looks in particular at the discipline of racial anthropology and its relationship to linguistics and human biology Christopher Hutton identifies the central figures involved in the study of race during the Nazi regime and traces continuities and discontinuities between Nazism and the study of human diversity in the Western tradition Whilst Nazi race theory is commonly associated with the idea of a superior Aryan race and with the idealization of the Nordic ideal of blond hair blue eyes and a long skull Nazi race theorists in common with their colleagues outside Germany without exception denied the existence of an Aryan race After 1935 official publications were at pains to stress that the term Aryan belonged to linguistics and was not a racial category at all Under the influence of Mendelian genetics racial anthropologists concluded that there was no necessary link between ideal physical appearance and ideal racial character In the course of the Third Reich racial anthropology was marginalized in favour of the rising science of human genetics However racial anthropologists played a key role in the crimes of the Nazi state by defining Jews and others as racial outsiders to be excluded at all costs from the body of the German Volk Anyone studying the Third Reich or who is interested in race theory will find this a fascinating informative and accessible study **Beyond the Racial State** Devin Owen Pendas, Mark Roseman, Richard F. **Psychotherapy in the Third Reich** Thomas Blomberg, 2018-04-27 The idea for this book sprang from Geoffrey Cocks curiosity as to what happened in the new dynamic field of psychotherapy in Germany with the advent of Hitler While traditional views merely asserted that the Nazis destroyed the field of psychotherapy in Germany a viewpoint justifiably based on the testimony of those in the field who had emigrated from Germany to escape Nazi persecution Cocks learned that there was more to the story He looked to several interesting shards of evidence that pointed to the possibility that one could reconstruct a history of morally questionable professional developments in German psychotherapy during the Third Reich The evidence included existence of a journal for psychotherapy published continuously from 1928 to 1944 accounts of a psychotherapist who assumed leadership of his colleagues and who was a relative of the powerful Nazi leader Hermann Goring and a strong psychotherapeutic lobby in German medicine that was intellectually impoverished but apparently not destroyed by the expulsion of the prominent and predominantly Jewish psychoanalytic movement Non Jewish psychoanalysts and psychotherapists had in fact pursued their profession under the aegis of the so called Goring Institute with substantial support from agencies of the Nazi party the Reich government the military and private business Much research has been done in the ten years since the first edition of this book was published hence the need for a second edition Included is more information on the history of psychotherapy and psychoanalysis in Nazi Germany on the social history of the Third Reich and on the history of the professions in Germany Three new chapters analyze postwar developments and conflicts as well as broader issues of continuity and discontinuity in the history of modern Germany and the West In addition the author has reorganized the volume along chronological and narrative lines for greater ease of reading Psychotherapy in the Third Reich is an important work for psychotherapists psychologists psychoanalysts sociologists and historians

**The Nazi Ancestral Proof** Eric Ehrenreich, 2007-10-10 How could Germans inhabitants of the most scientifically advanced nation in the world in the early 20th century have espoused the inherently unscientific racist doctrines put forward by the Nazi leadership Eric Ehrenreich traces the widespread acceptance of Nazi policies requiring German individuals to prove their Aryan ancestry to the popularity of ideas about eugenics and racial science that were advanced in the late Imperial and

Weimar periods by practitioners of genealogy and eugenics After the enactment of Nazi racial laws in the 1930s the Reich Genealogical Authority employing professional genealogists became the providers and arbiters of the ancestral proof This is the first detailed study of the operation of the ancestral proof in the Third Reich and the link between Nazi racism and earlier German genealogical practices The widespread acceptance of this racist ideology by ordinary Germans helped create the conditions for the Final Solution

**The Holocaust's Ghost** F. C. DeCoste, Bernard Schwartz, 2000-05 Numerous scholars explore the moral aesthetic and political outcomes of the Holocaust from the perspectives of various academic backgrounds including art literature political science education and history

From Racism to Genocide Gretchen Engle Schafft, 2004 From Racism to Genocide is an explosive richly detailed account of how Nazi anthropologists justified racism developed practical applications of racist theory and eventually participated in every phase of the Holocaust Using original sources correspondence between anthropologists of the time and previously unpublished documentation Gretchen Schafft shows the total range of anti human activity from within the confines of a particular discipline Based on seven years of archival research in this country and abroad the work includes many original photos and documents most of which have never before been published It uses primary data and original texts whenever possible including correspondence written by perpetrators A discussion of Hitler's final solution Nazi slave labor and the rape of occupied Poland reveal the full horror of the Third Reich Embedded concepts of scientism denial academic responsibility and race contribute to understanding some of today's most pressing social science issues The book also reveals that the United States was not merely a bystander in this research but instead contributed scientific and financial support to early racial r

**Catholic Citizens in the Third Reich** Donald J. Dietrich, 1988-01-01 Why did some German Catholics support and others oppose the police state that was the Third Reich In this insightful analysis Donald Dietrich explores the social psychological dynamics behind the religious reactions of German Catholics to political and moral issues during the late Weimar and Third Reich eras Along with many other Germans Catholics were enmeshed in a cruel dilemma Assenting to Nazi ideals would mean a loss of moral credibility opposing them would result in persecution Dietrich shows how Catholics accommodated and sometimes resisted totalitarianism and the Final Solution Three groups of Catholics

are examined the hierarchy the theologians and the laity The literature on Nazi Germany is enormous But this is the first analysis of the dynamics shaping individual motivations and group response to Nazi ideals This comprehensive work fuses results derived from social science research with the massive amount of historical data available It is an interdisciplinary study relating religious values to patterns of behavior an issue that retains its significance today *Influence on the Children and Youth in the Third Reich by National Socialism and Ideologies* Paul Guyet, 2016-05-17 Pre University Paper from the year 2016 in the subject History of Germany National Socialism World War II grade 13 language English abstract The following term paper deals with the life of children and youth in the Third Reich Influenced by the National Socialism and Adolf Hitler's ideologies of a perfect German the youth was taught racism and Nazi ideologies You can say they were brainwashed and they were educated to fight for their country in wars The adolescents believed they were doing the right thing by joining youth organizations and going to Nazi elite schools such as the Adolf Hitler School What the youth was taught in those establishments back then seems unconceivable to us today The young people were educated to become racists and warriors They were even convinced that it was good to be that kind of person and Germany would be proud of them The central question I want to treat with this term paper is How was it possible to control the mind of the German People and leading them to go to war
