

Sociological analysis (cultural criticism)

- This type of analysis interprets the story in term of social structures: class, race, gender, culture, nationality or economics. Feminist criticism, postcolonial criticism, Marxist criticism, etc. all fall into this category. It can also overlap with historical analysis. For example, a Marxist criticism of *Catcher in the Rye* might claim that Holden's depression is derived from material wealth and social inequality.

Philosophical

analysis:

This approach uses a philosophical framework from which to approach the work. The belief is that the larger purpose of literature is to teach morality and to probe philosophical issues. Existentialism is a common philosophy that find roots in literature, particularly in that of Sartre and Camus. Here are some questions to ask if you are interested in this approach.

Racism A Philosophic Probe

Racism A Philosophic Probe:

Racism--a Philosophic Probe Chukwudum Barnabas Okolo, 1974-01-01 **Racism** Albert J. Wheeler, 2000 Of all mankind's vices racism is one of the most pervasive and stubborn. Success in overcoming racism has been achieved from time to time but victories have been limited thus far because mankind has focused on personal economic gain or power grabs ignoring generosity of the soul. This bibliography brings together the literature providing access by subject groupings as well as author and subject indexes. Contents: Racial Attitudes, Racism and Poverty, Hate Groups, Racial Justice, Racism and Politics, Race Discrimination, Racial Identity, Racism Around the World. Sartre on Contingency Mabogo Percy More, 2021-09-22 The problem of antiblack racism has a long history in the world with as long a history of thinkers writing and theorizing against it. Few philosophers have opposed institutionalized racialism as vehemently as Jean Paul Sartre both in his intellectual work and in his political action. This book argues that not only does a relationship exist between Sartre's existentialist philosophy and antiracism but also more profoundly that it is precisely his existential ontology that informs his anti-racist social and political commitments. He sought to examine the complexity of our existence as conscious bodies and thus provides the ontological basis for understanding the situation of a black person in an antiblack world. This book is about how Sartre's philosophy especially his early writings can be applied to address the problem of racism against black people. It argues that among the many concepts in Sartre's work that are useful in understanding the problem of racism against black people the philosophical notion of contingency is one of the most significant. Contingency in Sartre is the view that whatever exists need not exist and that therefore it can be changed; that the fact that one is born white or black without their choice has no moral weight at all in treating others as though they are responsible for what they are. In this book Mabogo More contends that through Sartre's philosophical notion of contingency he provides us with the ammunition to understand and deal with racism broadly and antiblack racism in particular. *Identity Re-creation in Global African Encounters* John Ayotunde Isola Bewaji, Adedoyin Aguoru, 2019-08-07 *Identity Re-creation in Global African Encounters* explores race, racial politics and racial transformation in the context of Africa's encounters with non-African communities through various perspectives including oppression, racialization of ethnic difference and identity deconstruction. While the contributors recognize that ethnicity has long been a staple analytical category of engagements between African and non-African communities they present a holistic view of the continent and its diaspora through race outside of both colonial and neocolonial binaries allowing for a more nuanced study of Africa and its diaspora. Cool Pose Richard Majors, Janet Mancini Billson, 1993-08 Traces the history of black men in America using a tough guy image to obscure their anger and disappointment over their roles in society back to their origins in Africa and the slave era. *Race and Racism in Modern Philosophy* Andrew Valls, 2005 An innovative substantial intervention in critical race theory this book brings together an impressive roster of thinkers to trace the question of race in modern philosophical inquiry and explore its influence on contemporary philosophy. *Punk Rockers' Revolution*

Curry Malott, Milagros Peña, 2004 For punk rockers music and art have often been used as tools for resisting and accommodating the interests of society's dominant classes During the late 1970s a predominantly white male working middle class counterculture began to develop what is now known as punk rock This book shows how punk rock serves to both subvert and accommodate the interest of late capitalist American society by looking at the trends in the ideas values and beliefs transmitted through punk lyrical messages specifically through the content of three punk record labels and how they have evolved over time The impact of punk will continue because it is a product of the changing face of alternative cultural spaces spaces that impact and are impacted by increasingly hostile and exploitive relationships between and within oppressor and oppressed groups

Philosophers on Race Julie K. Ward, Tommy L. Lott, 2008-04-15 Philosophers on Race adds a new dimension to current research on race theory by examining the historical roots of the concept in the works of major Western philosophers

African Intellectual Heritage Abu Sharrow Abarry, 1996 Organized by major themes such as creation stories and resistance to oppression this collection gathers works of imagination politics and history religion and culture from many societies and across recorded time Asante and Abarry marshal together ancient anonymous writers whose texts were originally written on stone and papyrus and the well known public figures of more recent times whose spoken and written words have shaped the intellectual history of the diaspora Within this remarkably wide ranging volume are such sources as prayers and praise songs from ancient Kemet and Ethiopia along with African American spirituals political commentary from C L R James Malcolm X Mary McLeod Bethune and Joseph Nyerere stirring calls for social justice from David Walker Abdias Nascimento Frantz Fanon and Martin Luther King Jr Featuring newly translated texts and documents published for the first time the volume also includes an African chronology a glossary and an extensive bibliography With this landmark book Asante and Abarry offer a major contribution to the ongoing debates on defining the African canon Author note Molefi Kete Asante is Professor and Chair of African American Studies at Temple University and author of several books including *The Afrocentric Idea* Temple and *The Historical and Cultural Atlas of African Americans* Abu S Abarry is Assistant Chair of African American Studies at Temple University

Racism- philosophic probe Okolo, *The Oxford Handbook of Feminist Theory* Lisa Disch, Mary Hawkesworth, 2018-02-01 The Oxford Handbook of Feminist Theory provides a rich overview of the analytical frameworks and theoretical concepts that feminist theorists have developed to analyze the known world Featuring leading feminist theorists from diverse regions of the globe this collection delves into forty nine subject areas demonstrating the complexity of feminist challenges to established knowledge while also engaging areas of contestation within feminist theory Demonstrating the interdisciplinary nature of feminist theory the chapters offer innovative analyses of topics central to social and political science cultural studies and humanities discourses associated with medicine and science and issues in contemporary critical theory that have been transformed through feminist theorization The handbook identifies limitations of key epistemic assumptions that inform traditional scholarship and shows how

theorizing from women's and men's lives has profound effects on the conceptualization of central categories whether the field of analysis is aesthetics biology cultural studies development economics film studies health history literature politics religion science studies sexualities violence or war Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office,1976 *World Racism and Related Inhumanities* Meyer Weinberg,1992-05-27 This is the first comprehensive worldwide bibliography of racism It contains references on some 135 countries and extends from ancient times to the present The first part of the work consists of references dealing with single countries More than 10 000 citations are organized according to country from Afghanistan to Zimbabwe The second part contains references to areas or regions or to related bibliographies Some 2 000 non duplicated citations are provided here While the vast majority of entries are to English language materials a number of German French Spanish and other language items are included as well The work concludes with an author index and a subject index Due to the many ways racism manifests itself this bibliography will be of great value to scholars and students from a variety of disciplines from economics and education to sociology and history

On Race and Racism in America Roy Martinez,2010 On Race and Racism in America offers a variety of perspectives on American Philosophy's relative blindness to issues of race **Race, Racism, and Reparations** J. Angelo Corlett,2018-08-06 If affirmative action and other ethnicity based social programs are justified then J Angelo Corlett believes it is important to come to an adequate understanding of the nature of ethnicity in general and ethnic group membership in particular In *Race Racism and Reparations* Corlett reconceptualizes traditional ideas of race in terms of ethnicity As he makes clear the answers to the questions What is a Native American or What is a Latino have important implications for public policy especially for those programs designed to address historic injustices and economic and social imbalances among different groups in our society Having supplanted race with a well defined concept of ethnicity the author then analyzes the nature and function of racism Corlett argues for a notion of racism that must encompass not only racist beliefs but also racist actions omissions and attempted actions His aim is to craft a definition of racism that will prove useful in legal and public policy contexts Corlett places special emphasis on the broad questions of whether reparations for ethnic groups are desirable and what forms those reparations should take land money social programs He addresses the need for differential affirmative action programs and reparations policies the experiences and oppressors of different ethnic groups vary greatly Arguments for reparations to Native and African Americans are considered in light of a variety of objections that are or might be raised against them Corlett articulates and critically analyzes a number of possible proposals for reparations **Racial Theories in Social Science** Sean Elias,Joe R. Feagin,2016-04-14 *Racial Theories in Social Science* A Systemic Racism Critique provides a critique of the white racial framing and lack of systemic racism analysis prevalent in past and present mainstream race theory As this book demonstrates mainstream racial analysis and social analysis more generally remain stunted and uncritical because of this unhealthy white framing of knowledge and evasion or downplaying of institutional structural and

systemic racism In response to ineffective social science analyses of racial matters this book presents a counter approach systemic racism theory The foundation of this theoretical perspective lies in the critical insights and perspectives of African Americans and other people of color who have long challenged biased white framed perspectives and practices and the racially oppressive and exclusionary institutions and social systems created by whites over several centuries Another white Man's Burden Tommy J. Curry, 2018-11-27 Winner of the 2020 Josiah Royce Prize in American Idealist Thought presented by the Josiah Royce Society Another white Man's Burden performs a case study of Josiah Royce's philosophy of racial difference In an effort to lay bare the ethnological racial heritage of American philosophy Tommy J Curry challenges the common notion that the cultural racism of the twentieth century was more progressive and less racist than the biological determinism of the 1800s Like many white thinkers of his time Royce believed in the superiority of the white races Unlike today however whiteness did not represent only one racial designation but many Contrary to the view of the British born Germanophile philosopher Houston S Chamberlain for example who insisted upon the superiority of the Teutonic races Royce believed it was the Anglo Saxon lineage that possessed the key to Western civilization It was the birthright of white America he believed to join the imperial ventures of Britain to take up the white man's burden To this end he advocated the domestic colonization of Blacks in the American South suggested that America's xenophobia was natural and necessary to protecting the culture of white America and demanded the assimilation and elimination of cultural difference for the stability of America's communities Another white Man's Burden reminds philosophers that racism has been part of the building blocks of American thought for centuries and that this must be recognized and addressed in order for its proclamations of democracy community and social problems to have real meaning **Philosophy, Black Film, Film Noir** Dan Flory, 2008-01-01 Examines how African American as well as international films deploy film noir techniques in ways that encourage philosophical reflection Combines philosophy film studies and cultural studies Provided by publisher *Race as Phenomena* Emily S. Lee, 2019-07-09 This book introduces and explores the relation between race and phenomenology through varied African American Latina Asian American and White American perspectives Phenomenology is best known as a descriptive endeavor to more accurately describe our experience of the world These essays examine the ways in which this relation between phenomenology and race acts as a site of racial meaning Philosophy of race conceives race as a social construction Because of the sedimentation of racial meaning into the very structure and practices of society the socially constructed meanings about features of the body are mistaken as natural Hence although racial meaning is theoretically recognized as socially constructed during an every day interaction racial meaning is mistaken as inevitable and natural Ideal for advanced students in phenomenology and philosophy of race this volume pushes the phenomenological method forward by exploring its relation to questions within philosophy of race **American Book Publishing Record** , 1977-03-31 Here's quick access to more than 490 000 titles published from 1970 to 1984 arranged in Dewey sequence with sections for Adult and Juvenile

Fiction Author and Title indexes are included and a Subject Guide correlates primary subjects with Dewey and LC classification numbers These cumulative records are available in three separate sets
