Subject Guide to Books in Print ,1971 *Birth and Death in Nineteenth-Century French Culture* ,2007-01-01 This volume draws contributors from around the globe who represent the full range of approaches to scholarship in nineteenth century French studies historical literary cultural art historical philosophical and comparative The theme of the volume Birth and Death is one with particular resonance for nineteenth century French studies since the nineteenth century is commonly perceived as an age of new life and renovation It is the epoch that witnessed an efflorescence of industrial and artistic progress the birth of the individual and the birth of the novel and the creation of an urban population in the major demographic shift from the rural provinces to Paris At the same time however it is the century of Decadence and degeneration theory marked by a prominent morbid aesthetic in the artistic sphere and a fascination with criminality moral

decay and the pathologization of racial and sexual minorities in the scientific discourses It is also the century in which reflection on processes of artistic creation begins to problematize concepts of mimetic representation the function of the author and the status of the text In the context of the dialectical quality of nineteenth century French culture caught between an obsession with the new and innovative and a paranoid sense of its own encroaching decay the twin themes of birth and death open onto a variety of issues literary social historical artistic which are explored interrogated and reassessed in the essays contained in this volume

The Education Index, 1986 **Cultural Techniques** Jörg Dünne, Kathrin Fehrer, Kristina Kuhn, Wolfgang Struck, 2020-08-24 This volume presents the preliminary results of the work carried out by the interdisciplinary cultural techniques research lab at the University of Erfurt Taking up an impulse from media studies its contributions examine from a variety of disciplinary perspectives the interplay between the formative processes of knowledge and action outlined within the conceptual framework of cultural techniques Case studies in the fields of history literary and media studies and the history of science reconstruct seemingly fundamental demarcations such as nature and culture the human and the nonhuman and materiality and the symbolical order as the result of concrete practices and operations These studies reveal that particularly basic operations of spatialization form the very conditions that determine emergence within any cultural order Ranging from manual and philological paper work to practices of opening up and closing off spaces and collective techniques of assembly these case studies replace the grand narratives of cultural history focusing on micrological examinations of specific constellations between human and nonhuman actors

State Power, Stigmatization, and Youth Resistance Culture in the French Banlieues Hervé Tchumkam, 2015-04-09 State Power Stigmatization and Youth Resistance Culture in the French Banlieues Uncanny Citizenship foregrounds the literary

sociological and political structures of urban literature in France It uses postcolonial theory sociology and political philosophy to investigate the modalities surrounding the question of citizenship in a country where citizens of African descent are not only considered a threat to national identity but also caught between inclusion and exclusion By examining the literary sociological and political structures of urban literatures produced after the 2005 riots this book interrogates the questions of citizenship belonging and coexistence in a context where literature from the periphery has become a site where central political power and mainstream French literary canons are contested Moreover these productions clearly reveal an unexplored correlation between geo aesthetics and contemporary French national geopolitics Ultimately this book is a plea for a serious approach to social formation in postcolonial France in a way that transcends skin color and instead is based on a shared colonial past as well as current social disqualifications
