Reality Bites:

Reality Bites Back Jennifer Pozner, 2010-10-19 Nearly every night on every major network unscripted but carefully crafted reality TV shows routinely glorify retrograde stereotypes that most people would assume got left behind 35 years ago In *Reality Bites Back* media critic Jennifer L Pozner aims a critical analytical lens at a trend most people dismiss as harmless fluff She deconstructs reality TV's twisted fairytales to demonstrate that far from being simple guilty pleasures these programs are actually guilty of fomenting gender war ideology and significantly affecting the intellectual and political development of this generation's young viewers She lays out the cultural biases promoted by reality TV about gender race class sexuality and consumerism and explores how those biases shape and reflect our cultural perceptions of who we are what we're valued for and what we should view as our place in society Smart and informative *Reality Bites Back* arms readers with the tools they need to understand and challenge the stereotypes reality TV reinforces and ultimately to demand accountability from the corporations responsible for this contemporary cultural attack on three decades of feminist progress

Quentin Tarantino Quentin Tarantino,1998 Not since Martin Scorsese in the mid 1970s has a young American filmmaker made such an instant impact on international cinema as Quentin Tarantino whose PULP FICTION won the Cannes Film Festival s Grand Prix Award A manic talker Tarantino obsesses about American pop culture and his favorite movies and movie makers The Nineties Chuck Klosterman,2023-01-31 An instant New York Times bestseller Informative endlessly entertaining BuzzFeed Generation X s definitive chronicler of culture GQ From the author of But What If We re Wrong comes an insightful funny reckoning with a pivotal decade It was long ago but not as long as it seems The Berlin Wall fell and the Twin Towers collapsed In between one presidential election was allegedly decided by Ross Perot while another was plausibly decided by Ralph Nader Landlines fell to cell phones the internet exploded and pop culture accelerated without the aid of technology that remembered everything It was the last era with a real mainstream to either identify with or oppose The 90s

brought about a revolution in the human condition and a shift in consciousness that we're still struggling to understand. Happily, Chuck Klosterman is more than up to the job. In *The Nineties*, Klosterman dissects the film, the music, the sports, the TV, the pre-9/11 politics, the changes regarding race and class and sexuality, the yin-yang of Oprah and Alan Greenspan, and almost everything else. The result is a multidimensional masterpiece, a work of synthesis so smart and delightful that future historians might well refer to this entire period as *Klostermanian*.

Cinema of Simulation: Hyperreal Hollywood in the Long 1990s Randy Laist, 2015-03-26

Hyperreality is an Alice in Wonderland dimension where copies have no originals; simulation is more real than reality, and living dreams undermine the barriers between imagination and objective experience. The most prominent philosopher of the hyperreal, Jean Baudrillard, formulated his concept of hyperreality throughout the 1980s, but it was not until the 1990s that the end of the Cold War, along with the proliferation of new reality-bending technologies, made hyperreality seem to come true. In the lost decade between the fall of the Berlin Wall and 9/11, the nature of reality itself became a source of uncertainty, a psychic condition that has been recognizably recorded by that seismograph of American consciousness: Hollywood cinema.

The auteur cinema of the 1970s aimed for gritty realism, and the most prominent feature of Reagan-era cinema was its fantastic unrealism. Clinton-era cinema, however, is characterized by a prevailing mood of hyperrealism, communicated in various ways by such benchmark films as *JFK*, *Pulp Fiction*, and *The Matrix*. The hyperreal cinema of the 1990s conceives of the movie screen as neither a window on a preexisting social reality, realism, nor as a wormhole into a fantastic dream dimension, escapism, but as an arena in which images and reality exchange masks, blend into one another, and challenge the philosophical premises which differentiate them from one another.

Cinema of Simulation: Hyperreal Hollywood in the Long 1990s provides a guided tour through the anxieties and fantasies, reciprocally social and cinematic, which characterize the surreal territory of the hyperreal.
