Testimony Chantelle Warner, 2013 In this book Warner examines a number of German language literary autobiographies that are connected to diverse social movements of the last forty years These books have all received critical attention from the popular press topped bestseller lists and have been pivotal in discussions of authenticity subjectivity and referentiality Because of the thematic diversity of these works scholars within literary and cultural studies have tended to treat them separately under topical categories such as women s literature the post war generation migration and multiculturalism etc Underlying Warner s analysis is the belief that the social construction of autobiographical acts is as much a matter of textuality as it is of topicality i e how language means rather than what it means and that a pragmatic stylistic approach is well suited to describing how literary autobiographies come to function as testimonies to certain collective experiences By presenting a model for an integrative stylistics approach *The Pragmatics of Literary Testimony* participates in current discussions within fields of literary linguistic scholarship as well as autobiographical theory In its analysis of key examples of German social testimonies from the late twentieth century this book incorporates insights from discourse analysis pragmatics cognitive poetics and sociolinguistics in order to demonstrate that this diverse body of works constitutes a particular form of textual practice defined by what the author calls authenticity effects feelings of realism immediacy exemplarity genuineness and social relevance Such a study of authenticity as a poetic effect can help us to better understand the testimonial glamour owned by various types of autobiographical narration

Grand Designs Aneta

Podkalicka, Esther Milne, Jenny Kennedy, 2018-11-28 This is the first academic book to examine the long running hit series *Grand Designs* which occupies a significant place in the popular imagination internationally The authors apply an empirically grounded critical perspective to the study of television to reveal how people use the program in their everyday lives The emphasis on everyday uses and meanings combines creatively with understanding the program theoretically textually and in terms of its production structures This position challenges framings of the popular lifestyle and factual television genre that has been dominated by a neoliberal or governmentality perspective for many years Presented by British designer and writer Kevin McCloud *Grand Designs* follows the progress of home owners as they embark on design renovation and building projects at almost always dizzying scales of endeavour Understanding the program as both a text to analyse and a site of material impact the book draws on interviews with production members home renovators building practitioners and audiences as well as references to associated media formats to provide contextual depth to the analysis The authors argue that as a cultural object the program is both shaped by and enacts social discourses of home making design value and taste Navigating public commercial and promotional logics *Grand Designs* sparks new forms of cultural production and consumer markets
