EU development cooperation Karin Arts, Anna Dickson, Anna K. Dickson, 2018-07-30 This electronic version has been made available under a Creative Commons BY NC ND open access license It is increasingly recognised that EU development cooperation policy has failed to meet its stated aims In this book Arts and Dickson ask the obvious and important question if the policy doesn't work why bother with it The authors assess why EU development policy has become largely ineffective citing among the external causal factors the liberalisation of trade and the growing influence of US and international actors

such as the World Bank and the International Monetary Fund upon EU policy It also considers contributing factors within the EU such as the enlargement of its membership and the resulting shifts in priorities It is this analysis of internal and external factors affecting the decline of EU development policy that makes this study both innovative and unique It brings together an impressive range of contributors from different disciplines resulting in a thorough and intelligent assessment of the debate This study will appeal to advanced level undergraduates and academics of European politics in general EU integration development studies and International Relations

Will to Live João Biehl, 2021-10-12 Will to Live tells how Brazil against all odds became the first developing country to universalize access to life saving AIDS therapies a breakthrough made possible by an unexpected alliance of activists government reformers development agencies and the pharmaceutical industry But anthropologist Jo o Biehl also tells why this policy hailed as a model worldwide has been so difficult to implement among poor Brazilians with HIV AIDS who are often stigmatized as noncompliant or untreatable becoming invisible to the public More broadly Biehl examines the political economy of pharmaceuticals that lies behind large scale treatment rollouts revealing the possibilities and inequalities that come with a magic bullet approach to health care By moving back and forth between the institutions shaping the Brazilian response to AIDS and the people affected by the disease Biehl has created a book of unusual vividness scope and detail At the core of Will to Live is a group of AIDS patients unemployed homeless involved with prostitution and drugs that established a makeshift health service Biehl chronicled the personal lives of these people for over ten years and Torben Eskerod represents them here in more than one hundred stark photographs Ethnography social medicine and art merge in this unique book illuminating the care and agency needed to extend life amid perennial violence Full of lessons for the future Will to Live promises to have a lasting influence in the social sciences and in the theory and practice of global public health

Regional and Global Regulation of International Trade Francis Snyder, 2002-07-05 The processes of legal and economic integration at a regional and global scale have created powerful legal and economic dilemmas They challenge the paradigms of constitutionalism including the State s monopoly of constitutionalism the autonomy of national political communities and the traditional forms of participation and representation The phenomena of globalisation and regional forms of governance have promoted the inter dependence of national political communities and destroyed the artificial boundaries upon which national constitutional democracies are found and from which they derive their legitimacy Furthermore it is inevitable that the development of international trade and economic integration will raise claims for some form of global distributive justice to complement the wealth maximisation arising from free trade This will come from the gradual development of global forms of political discourse and law making challenging State constitutionalism and requiring some of the instruments and theories of constitutionalism The essays in this collection written by leading scholars in international trade law argue the pros and cons of greater regional and global regulation They conclude that whatever the final framework for international trade the critical decisions about institutional form and content

will be decided in an emerging global political arena They help to identify this political arena who governs it and according to which rules and identify the different institutional alternatives in that global political arena *Stakeholders* Ian Smillie, 2013-11-05 This unique study from the OECD Development Centre presents a comprehensive review by independent experts of the relationships and division of responsibility between the 22 member governments of the OECD Development Assistance Committee DAC and NGOs from these donor countries working in international development Additional chapters cover the roles of the European Union and the World Bank Among other themes the book looks at two very significant issues First at the way in which an overemphasis on evaluation may be leading NGOs to focus purely on measuring their output thus choosing activities which are easily accountable Second it examines the important impacts of the evolution in the funding relationship between governments and NGOs from matching grants to contracts where NGOs must increasingly compete for contracts *Access to Justice in Africa and Beyond* , 2007 Mayo Internal Medicine Board Review, 1996-97 Udaya B. Prakash, 1996 New Labour, New Hope? Paul Whittingham, 1998 *Nation Today* , 1992
