**Realizations** Martin Meisel, *Desire and Excess* Jonah Siegel, 2021-05-11 In this fascinating look at the creative power of institutions Jonah Siegel explores the rise of the modern idea of the artist in the nineteenth century a period that also witnessed the emergence of the museum and the professional critic Treating these developments as interrelated he analyzes both visual material and literary texts to portray a culture in which art came to be thought of in powerful new ways Ultimately Siegel shows that artistic controversies commonly associated with the self consciously radical movements of modernism and postmodernism have their roots in a dynamic era unfairly characterized as staid self satisfied and stable The nineteenth century has been called the Age of the Museum and yet critics art theorists and poets during this period grappled with the question of whether the proliferation of museums might lead to the death of Art itself Did the assembly and display of works of art help the viewer to understand them or did it numb the senses How was the contemporary artist to respond to the vast storehouses of art from disparate nations and periods that came to proliferate in this era Siegel presents a lively discussion of the shock experienced by neoclassical artists troubled by remains of antiquity that were trivial or even obscene as well as the anxious aesthetic reveries of nineteenth century art lovers overwhelmed by the quantity of objects quickly crowding museums and exhibition halls In so doing he illuminates the fruitful crises provoked when the longing for admired art is suddenly satisfied Drawing upon neoclassical art and theory biographies of early nineteenth century writers including Keats and Scott and the writings of art critics such as Hazlitt Ruskin and Wilde this book reproduces a cultural matrix that brings to life the artistic passions and anxieties of an entire era

*Moving Pictures* Anne Hollander, 1989 Hollander explores the premise that paintings prints and movies move us similarly by virtue of their narrative element which evokes our memories and feelings She argues that we respond to the depiction of glimpses of human life to the realization that we cannot see everything at once and how the rendering of light and spatial composition translates them and keeps them moving into our awareness Thus there is a continuum from the paintings and graphic arts of 15th century northern Europe to the proto cinematic arts of the present ISBN 0 394 57400 1 29 95

**Victorian Literature and the Victorian Visual Imagination** Carol T. Christ, John O. Jordan, 2024-03-29 Nineteenth

century British culture frequently represented the eye as the preeminent organ of truth These essays explore the relationship between the verbal and the visual in the Victorian imagination They range broadly over topics that include the relationship of optical devices to the visual imagination the role of photography in changing the conception of evidence and truth the changing partnership between illustrator and novelist and the ways in which literary texts represent the visual Together they begin to construct a history of seeing in the Victorian period This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1995 **The wood**

Payne, 2005-05-23 An ambitious

weave of ideological literary and commodity history The Reenchantment of Nineteenth Century Fiction shows how Dickens Thackeray and George Eliot sacralized Victorian modernity in two contradictory ways by incarnating their moment as one of transcendent development and by reenacting bloody rituals from a fading Protestant past Both the magnitude and the brevity of their success make these works exemplary for our own era caught between the archaic gods of traditional religion and the still mysterious ones of market society **Art, Vision, and Nineteenth-Century Realist Drama** Amy

Holzapfel, 2014-01-03 Realism in theatre is traditionally defined as a mere seed of modernism a crude attempt to reproduce an exact copy of reality on stage Art Vision Nineteenth Century Realist Drama redefines realism as a complex and under examined form of visual modernism one that positioned theatre at the crux of the encounter between consciousness and the visible world Tracing a historical continuum of acts of seeing on the realist stage Holzapfel demonstrates how theatre participated in modernity s aggressive interrogation of vision s residence in the human body New findings by scientists and philosophers such as Diderot Goethe M ller Helmholtz and Galton exposed how the visible world is experienced and framed by the unstable relativism of the physiological body rather than the fixed idealism of the mind Realist artists across media paradoxically embraced this paradigm shift by focusing on the embodied observer Drawing from extensive archival research

Holzappel conducts close readings of iconic dramas and their productions including Scribe's *The Glass of Water*, Zola's *Thérèse Raquin*, Ibsen's *A Doll House*, Strindberg's *The Father* and Hauptmann's *Before Sunrise* alongside analyses of artwork by major painters and photographers such as Chardin, Nadar, Millais, Rejlander and Liebermann. In a radical challenge to existing criticism, Holzappel argues that realism in theatre was never the attempt to reproduce an exact copy of the seen world but rather the struggle to make visible the act of seeing.

**The Victorian Painting of Modern Life** Pamela Fletcher, 2024-12-30. This text offers a comprehensive and tightly focused account of the emergence and flourishing of British modern life paintings at midcentury. Contemporary subjects were new and risky in the late 1840s and early 1850s, immensely popular and much debated by 1858 and already falling out of fashion by the mid 1860s. The book follows this story chronologically, moving from the anxious attempts by young artists such as William Powell Frith and William Holman Hunt to capture modern life in a visual language that conveyed both the literal and emotional truths of contemporary experience through the new genre's explosion into popularity in the later 1850s and early 1860s and the critical debates and changing fashions that led to its diminishment by the end of that decade. The book will be of interest to scholars working in art history, British studies, visual culture, exhibition culture, museum studies and the sociology of art.

**The Routledge Concise History of Nineteenth-Century Literature** Josephine Guy, Ian Small, 2010-11-15. Nineteenth-century Britain saw the rise of secularism, the development of a modern capitalist economy, multi-party democracy and an explosive growth in technological, scientific and medical knowledge. It also witnessed the emergence of a mass literary culture which changed permanently the relationships between writers, readers and publishers. Focusing on the work of British and Irish authors, *The Routledge Concise History of Nineteenth-Century Literature* considers changes in literary forms, styles and genres as well as in critical discourses, examines literary movements such as Romanticism, Pre-Raphaelitism, Aestheticism and Decadence, considers the work of a wide range of canonical and non-canonical writers, discusses the impact of gender studies, queer theory, postcolonialism and book history. It contains useful student-friendly features such as explanatory text boxes, chapter summaries, a detailed glossary and suggestions for further reading. In their lucid and accessible manner, Josephine M. Guy and Ian Small provide readers with an understanding of the complexity and variety of nineteenth-century literary culture as well as the historical conditions which produced it.

**Sound, Sin, and Conversion in Victorian England** Julia Grella O'Connell, 2018-04-19. The plight of the fallen woman is one of the salient themes of nineteenth-century art and literature; indeed, the ubiquity of the

trope galvanized the Victorian conscience and acted as a spur to social reform In some notable examples Julia Grella O Connell argues the iconography of the Victorian fallen woman was associated with music reviving an ancient tradition conflating the practice of music with sin and the abandonment of music with holiness The prominence of music symbolism in the socially committed quasi religious paintings of the Pre Raphaelites and their circle and in the Catholic Wagnerian novels of George Moore gives evidence of the survival of a pictorial language linking music with sin and conversion and shows even more remarkably that this language translated fairly easily into the cultural lexicon of Victorian Britain Drawing upon music iconography art history patristic theology and sensory theory Grella O Connell investigates female fallenness and its implications against the backdrop of the social and religious turbulence of the mid nineteenth century *The Nineteenth-century Sensation Novel* Lyn Pykett,2011 This study responds to developments of the sensation novel within literature television and popular culture and takes into account recent studies of the genre

**Picturing Reform in Victorian Britain** Janice Carlisle,2012-05-31 How did Victorians as creators and viewers of images visualize the politics of franchise reform This study of Victorian art and parliamentary politics specifically in the 1840s and 1860s answers that question by viewing the First and Second Reform Acts from the perspectives offered by Ruskin s political theories of art and Bagehot s visual theory of politics Combining subjects and approaches characteristic of art history political history literary criticism and cultural critique *Picturing Reform in Victorian Britain* treats both paintings and wood engravings particularly those published in *Punch* and the *Illustrated London News* Carlisle analyzes unlikely pairings a novel by Trollope and a painting by Hayter an engraving after Leech and a high society portrait by Landseer to argue that such conjunctions marked both everyday life in Victorian Britain and the nature of its visual politics as it was manifested in the myriad heterogeneous and often incongruous images of illustrated journalism
