continental and feminist thought which has stressed the privileging of subjectivity and masculinity in such a metaphor

Beings of Light - We are All ONE Layne Layton,2009-04-02 This is the story of Jonathan Smith an average guy who spent the majority of his life trying to find purpose and reason The only real quest he had was for truth He wanted more than anything to know who he really was where he came from and what would happen to him when he died Jonathan had all but abandoned any hope of knowing such things when through an unexplained occurrence he found himself outside of time and space in a Realm of Thought and Light Through his experience Jonathan came to understand who he was He once again was brought back into the knowledge of all the things he had forgotten He saw and experienced the Entities of Light the Beings of Light the Light World the World of Matter the Entities of Self and so on He learned the nature of good and evil and he came to understand why things appear the way they do Jonathan knowing he could stay in the World of Light came back to share his story with us that we might remember who and what we are Please visit www.laynelayton.com Orogenies of Light Richard Leviton,2019-10-29 ONE DAY IN 2084 EARTH S ORIGINAL MOUNTAINS SUDDENLY REAPPEARED ON THE PLANET AS 85 000 DOMED CANOPIES OF LIGHT FROM THE STARS The story of this return is told by Blaise a well informed but mysterious figure who claims to be an engineer 134 years old and part of an ancient team that first designed the planet It s a chronicle of his last field assignment a unique career retrospective and a firsthand account of the momentous return of the domes These are giant half spheres of Light that originally helped create the biosphere and were the Earth s first mountains They generated the Earth s sacred sites and the mythic homes of the gods and linked them all in a global pattern of Light The domes arrived all at once and started to reorganize the global landscape It was their fourth visit and it would be several perilous years as the planet adjusts to it Blaise and his team of geomancers travel across the Earth and time to deal with the unprecedented perturbations set in motion by this celestial rescue of the planet Problems are rife the revolt of Pan and the Nature Spirits the continuing dark interference by humanity s ghostly forebears the resurgence of Babylon and its imperious agenda and the planet s dangerous drift towards becoming flattened like a hockey puck But the opportunities are fabulous too as the planet enters an era of unceasing Light and beatific conditions The return of the domes lays bare the true history of the Earth how it diminished from perfection the benign superintendents of this bold experiment and who its earliest inhabitants were and the massive problems they created which still affect us today It is a genuinely apocalyptic moment as the Earth reveals its original bright pattern of energy and consciousness and starts at last to fulfill its destiny **Mani** Ort,2024-09-23 *The Eschatology of the Restoration of All Things* Mike Parsons,2023-05-17 Eschatology is often thought of as describing the end of the world or end times Yet many have begun to conclude that the restoration of all things is an inevitable consequence of who God really is as Love encouraging them to look to the future with optimistic anticipation and expectation Isaiah prophesied no end to the increase of God s government and peace so why are believers still looking for an end Mike Parsons examines the reasons for this confusion exposing the Great Deception that lies behind it

and proposing instead a happy eschatology in which all of God's children can recognise and fulfil their eternal destiny

Light from Light Judith L. Corey, 2016-12-01 Cosmology and theology share a long held relationship with one another explaining as they do the constitution of the world and the interaction of forces The author explores the history of this relationship from ancient pre scientific and theological explanations through to contemporary science and philosophy In this history a particular problem is highlighted by the author the prevalence of dualism from Aristotelian philosophy to modern mechanistic conceptions many of these accounts presume a sharp absolute dichotomy between matter and spirit and the material world and the divine Increasingly dualistic conceptions are called into question by contemporary science theology and philosophy The author argues that a particular trajectory stemming from Greek Heraclitian and Platonic philosophy to non orthodox and early Christian theologies provides a fruitful resource for contemporary discussions This is the Logos theology and its attendant language of light The author brings this tradition into dialogue with contemporary science and theology to construct an integrative account **In Search of Truth. H. Dodd, 1968-05 Since its publication almost forty years ago The Interpretation of the Fourth Gospel has established itself as a classic of biblical scholarship Regarded as a seminal text in Johannine studies it provides a comprehensive and authoritative exposition of the major elements and themes contained in this more original and fascinating of ancient documents The author reconstructs the background and intellectual milieu out of which the Fourth Gospel may be supposed to have taken shape He then defines as precisely as possible the leading concepts that may be said to have determined the structure and arrangement of the book as we have it The result is a massive achievement and no serious student of the New Testament can afford to ignore this study's findings The Interpretation of the Fourth Gospel represents the culmination of a lifetime's reflection on its subject by one of this century's most distinguished New Testament scholars and will continue to stimulate and provoke generations of readers **The Oxford Handbook of Light in Archaeology** Costas Papadopoulos, Holley Moyes, 2021-12-09 Light has a fundamental role to play in our perception of the world Natural or artificial lightscapes orchestrate uses and experiences of space and in turn influence how people construct and negotiate their identities form social relationships and attribute meaning to im material practices Archaeological practice seeks to analyse the material culture of past societies by examining the interaction between people things and spaces As light is a crucial factor that mediates these relationships understanding its principles and addressing illumination's impact on sensory experience and perception should be a fundamental pursuit in archaeology However in archaeological reasoning studies of

lightsapes have remained largely neglected and understudied This volume provides a comprehensive and accessible consideration of light in archaeology and beyond by including dedicated and fully illustrated chapters covering diverse aspects of illumination in different spatial and temporal contexts from prehistory to the present Written by leading international scholars it interrogates the qualities and affordances of light in different contexts and in material environments explores its manipulation and problematises its elusive properties The result is a synthesis of invaluable insights into sensory experience and perception demonstrating illumination's vital impact on social cultural and artistic contexts *Light and Life. A Collection of New Hymns and Tunes for Sunday-schools, Prayer Meetings, Praise Meetings, and Revival Meetings* R. M. McIntosh, 2025-07-12 Reprint of the original first published in 1881 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage

The Oxford Handbook of Johannine Studies Judith M. Lieu, Martinus C. de Boer, 2018-07-19 The contribution of the Johannine literature to the development of Christian theology and particularly to Christology is uncontested although careful distinction between the implications of its language especially that of sonship in a first century Jewish context and in the subsequent theological controversies of the early Church has been particularly important if not always easily sustained Recent study has shaken off the weight of subsequent Christian appropriation of Johannine language which has sometimes made readers immune to the ambiguities and challenging tensions in its thought The Oxford Handbook of Johannine Studies begins with chapters concentrating on discussions of the background and context of the Johannine literature leading to the different ways of reading the text and thence to the primary theological themes within them before concluding with some discussion of the reception of the Johannine literature in the early church Inevitably given their different genres and levels of complexity some chapters pay most if not all attention to the Gospel whereas others are more able to give a more substantial place to the letters All the contributors have themselves made significant contributions to their topic They have sought to give a balanced introduction to the relevant scholarship and debate but they have also been able to present the issues from their own perspective The Handbook will help those less familiar with the Johannine literature to get a sense of the major areas of debate and why the field continues to be one of vibrant and exciting study and that those who are already part of the conversation will find new insights to enliven their own on going engagement with these writings
