*The Man of the East Global Constitution World Under One Rule* M. T. Abraham, 2005      *The New Testament and the Future of the Cosmos* Ryan P. Juza, 2020-11-05 The New Testament and the Future of the Cosmos is an exploration into the cosmic eschatology of the New Testament. It invites the reader to grapple with two interrelated questions along with the author: 1. What did the writers of the New Testament teach about the fate of the cosmos? and 2. Can we synthesize their teachings into a coherent New Testament theology? By offering a close reading of key texts that inform the topic most notably Matt 24:29-31, Mark 13:24-27, Luke 21:25-28, Rom 8:19-22, Heb 12:25-29, 2 Pet 3:4-13, and Rev 21:1-5, it is argued that one can, with certain qualifications, ascertain a clear and coherent New Testament message pertaining to the future of the cosmos. Along the way, new exegetical ground is broken in several passages by identifying a previously unnoticed theme that runs throughout the New Testament concerning the future of the cosmos: God's judgment of the heavenly powers of evil as a key component to the cosmic transition. At present, these hostile powers hold the cosmos captive to death, but on the Day of the Lord, they will be overthrown, setting the stage for a materially transformed world to emerge from the hand of God.

**The Creation: Its Infinite Features and Finite Realms Volume IV** Jack Hetrick, 2017-02-27 In 1996, a discovery was made of a body of knowledge which is believed to have important implications for the future of man. In that year, it was discovered that many cultural artifacts produced by man since about 30,000 BC possess an unusual symbolism. In *The Creation: Its Infinite Features and Finite Realms*, artifacts of man that possess this unusual symbolism are referred to as inspired sources. Volume IV of *The Creation* series addresses inspired sources that pertain to the destiny of man to carry the gospel of Jesus Christ and expand the kingdom of God to other stellar systems in the Milky Way Galaxy and ultimately to distant parts of the universe in the future age. This study also briefly addresses the means that is spaceship propulsion, wormhole travel, and black hole travel, by which man and other living entities who serve the Creator in the present age will travel to stellar and galactic destinations in the future age.

**The Creation: Its Infinite Features and Finite Realms Volume I** Jack Hetrick, 2014-09-19 In the last decade of the twentieth century AD, a discovery was made of a body of knowledge which it is believed has important implications for the future of man. In 1996, it was discovered that many cultural artifacts produced by man since about 30,000 BC possess an unusual symbolism. This symbolism, as we shall see, has a mathematical component associated with it that finds expression in the form of alignments and points of alignments. Because of this, the interpretation of this symbolism is not entirely subjective but has an objective aspect to it as well. In *The Creation: Its Infinite Features and Finite Realms*, artifacts of man that possess this unusual symbolism are referred to as inspired sources. They are called inspired because the symbolism present in these artifacts is believed to be inspired by the Creator, and they are called sources because the increments of knowledge transmitted by the symbolism of these artifacts are sources of knowledge.

*What is Present Reality* Vipin Gupta,2021-02-16 What is present reality is an incredibly profound but straightforward exposition of the limits of science Every scientist wishes that someone will falsify the world crafted using the present body of scientific methods one day One such world comprises the manifold versions of relativity theories measuring  $E=mc^2$  Suppose one deified scientist had not mathematically derived the value of energy in this way In that case today s scientists will not bind their understanding to the light serviced by the deified leader scientist traded and squared by them as a devoted follower Evidently when one conceives energy as  $mc^2$  its value without the presence of the leader deity is zero This landmark work grounded in India s ancient cultural metaphysics challenges the present reality of what we know and believe to be true whether about divinity or spirituality or the universe of objects or subjects or us as a person A unique feature is the precise quantification of the lightless energies of both the present reality as well as the varying paradigms and doctrines working on
