Question with boldness even the existence of a God; because, if there be one, he must more approve of the homage of reason, than that of blind-folded fear.

Reason And The Question Of God:

Reason and the Question of God Richard Schaeffler, 1999 A masterful presentation of the basic themes of the philosophy of religion and the various philosophical approaches to the question of religion The Question of God Michael Palmer, 2001 This invaluable text introduces the six great arguments for the existence of God It requires no specialist knowledge of philosophy and includes a wealth of primary sources from classic and contemporary texts **The Question of God's Perfection** Yoram Hazony, Dru Johnson, 2018-11-26 Philosophers have often described theism as the belief in the existence of a perfect being a being that is said to possess all possible perfections so that it is all powerful all knowing immutable perfectly good perfectly simple and necessarily existent among other qualities But such a theology is difficult to reconcile with the God we find in the Bible and Talmud The Question of God's Perfection brings together leading scholars from the Jewish and Christian traditions to critically examine the theology of perfect being in light of the Hebrew Bible and classical rabbinic sources Contributors are James A Diamond Lenn E Goodman Edward C Halper Yoram Hazony Dru Johnson Brian Leftow Berel Dov Lerner Alan L Mittleman Heather C Ohaneson Randy Ramal Eleonore Stump Alex Sztuden and Joshua I Weinstein **Kant and the Question of Theology** Chris L. Firestone, Nathan A. Jacobs, James H. Joiner, 2017-09-21 God is a problematic idea in Kant's terms but many scholars continue to be interested in Kantian theories of religion and the issues that they raise In these new essays scholars both within and outside Kant studies analyse Kant's writings and his claims about natural philosophical and revealed theology Topics debated include arguments for the existence of God natural theology redemption divine action miracles revelation and life after death The volume includes careful examination of key Kantian texts alongside discussion of their themes from both constructive and analytic perspectives These contributions broaden the scope of the scholarship on Kant exploring the value of doing theology in consonance or conversation with Kant It builds bridges across divides that often separate the analytic from the continental and the philosophical from the theological The resulting volume clarifies the significance and relevance of Kant's theology for current debates about the philosophy of God and religion **Reason, Faith and History** Martin Stone, 2016-04-08 Spanning the breadth of philosophical historical and theological interests articulated in the work of Paul Helm including chapters on Calvinism philosophical theology philosophy of mind Christian Doctrine and epistemology Reason Faith and History offers an accessible text for students of contemporary philosophy of religion as well as those interested in philosophical theology more broadly Reason Faith and History offers a unique collection of essays on key topics in the philosophy of religion Published in honour of Paul Helm a major force in contemporary English speaking philosophy of religion this book presents newly commissioned chapters by distinguished philosophers and theologians from North America Israel the UK and Continental Europe Contributors include Robertson Trueman Hughes Swinburne Torrance Clark Robinson Pink Gellman Cross Byrne Hossack and Crisp *The Question of Providence* Charles Monroe Wood, 2008-01-01 The traditional doctrine of providence has fallen

on hard times in the face of human suffering such as that of September 11 2001 In this clear and engaging book Charles Wood seeks to renew reflection on doctrine of providence by reexamining features of the classical doctrine and reorienting the doctrine in a way that coheres more fully with the gospel Woods argument moves in two directions first by examining recent thinking about the function of doctrine Wood sheds light on what the doctrine of providence is supposed to do and how one might assess its adequacy Second Wood proposes a reorientation of the doctrine around the central Trinitarian and christological commitments a reorientation that moves beyond neglecting the doctrine of providence and toward a new way of understanding Gods involvement with the world *The Catholicity of Reason* D. C. Schindler, 2013-08-11 An original argument for the recovery of a robust notion of reason and truth in response to modern rationalism and postmodern skepticism *The Catholicity of Reason* explains the grandeur of reason the recollection of which Benedict XVI has presented as one of the primary tasks in Christian engagement with the contemporary world While postmodern thinkers religious and secular alike have generally sought to respond to the hubris of Western thought by humbling our presumptuous claims to knowledge D C Schindler shows in this book that only a robust confidence in reason can allow us to remain genuinely open both to God and to the deep mystery of things Drawing from both contemporary and classical theologians and philosophers Schindler explores the basic philosophical questions concerning truth knowledge and being and proposes a new model for thinking about the relationship between faith and reason The reflections brought together in this book bring forth a dramatic conception of human knowing that both strengthens our trust in reason and opens our mind in faith Constructing Moral Concepts of God in a Global Age Myriam Renaud, 2022-07-29 *Constructing Moral Concepts of God in a Global Age* focuses on what people say and think about God rather than on arguments about Gods existence It advances a theological method or step by step approach to explore and reframe personal convictions about God and the worldviews shaped by those convictions Since a moral God is more likely to foster a moral life this method integrates an ethical check to ensure that understandings of God and their associated worldviews are validly moral The proposed method builds on the work of twentieth century theologian Gordon Kaufman during the Kantian phase of his work It anticipates a person like God who hears prayers loves without end and comforts in times of hardship To accommodate today s pluralistic and globalized world the ethical check integrated in the method is a widely collaborative and vetted global ethic the Parliament of the World s Religions Declaration Towards a Global Ethic This volume of constructive philosophical theology is written for seminary students educators clergy study groups and anyone interested in delving more deeply and systematically into understandings of God whether their own or those of others *The Romance of Reason* Montague Brown, 1993 A study of reason as an invitation to explore and discover a new life of meaning *The Romance of Reason* is an attempt to put the philosophical basis of Aquinas thinking into nontechnical language and make it accessible to the general reader *The Challenge of God* Colby Dickinson, Hugh Miller, Kathleen McNutt, 2020-01-23 In view of the double vocative that characterizes the relation of Creator

to creature this book offers critiques of modern and postmodern philosophy for the ways in which they have separated philosophy theology and spirituality This collection examines the complicated relationship of God to Being and the meaning of Revelation as well as highlighting the context and the role of the Spiritual Exercises of Ignatius Loyola Discussions include the Catholic Principle and its relevance in contemporary times and Christian epic visionaries such as Dante Milton Blake and Joyce providing scholars a forum to debate their theological identity and its meaning for future studies This volume contributes a unique engagement from many perspectives with the Catholic intellectual tradition in its philosophical theological spiritual literary and artistic dimensions *The Cambridge Review* ,1894 Vols 1 26 include a supplement The

University pulpit vols 1 26 no 1 661 which has separate pagination but is indexed in the main vol **Reason's Inquisition** Christopher A. Colmo,2023-08-29 Reasons Inquisition On Doubtful Ground is an exploration in the literature of political philosophy before and after Alfarabi and ranging from Thucydides to Leo Strauss and Eric Voegelin These studies most of them previously unpublished open inquiries into theory and practice reason and revelation and the relation between thinkers ancient and modern Readers may be surprised to see the Platonist Alfarabi presented as a critic of Plato s theory in the name of practice while Alfarabi and Hobbes are shown to have a common interest in a theory commensurate with action Strauss Voegelin and Lucien Febvre all explore the problem of reason and revelation in relation to the limits of human knowledge An ambitious study of Shakespeare s Macbeth explores the ambiguity of both nature and knowledge in relation to male and female good and evil present and future The contrast between ancients and moderns is explicit in questions of the modern aspects of Marlowe s Doctor Faustus and of Rousseau s reversal of Plato Kierkegaard and Heidegger bring radical modernity into focus against a Platonic background in the closing essay These diverse essays attempt to follow the thinkers and themes explored in turning a critical gaze upon reason itself **The Oracle of Reason; Or, Philosophy Vindicated ...** ,1842

Autonomy and Food Biotechnology in Theological Ethics Cathriona Russell,2009 What does autonomy mean from a Christian perspective What could a Christian environmental ethics bring to the debate about genetically modified food This book investigates conflicting claims in the public realm about food biotechnology It critically evaluates the contribution such technologies make to sustainable agricultural production and environmental stewardship Challenging the received wisdom in popular environmental theology the book defends the role of the human person as steward of creation and presents a human centred Christian environmental ethics rooted in the Kantian tradition of moral philosophy From this vantage point the author critiques the partiality of many contemporary environmental theologies which argue for a return to the technological simplicity of an idealised past or emphasise virtue while taking little account of the role that institutional issues play in framing and defining policy and good practice In this context the author examines whether or not under current conditions transgenic food can contribute to sustainable agricultural production **The Works of Orestes A. Brownson** Orestes Augustus Brownson, Henry Francis Brownson,2025-07-14 Reprint of the original first published in 1882 The Antigonos

Speaking of God in Thomas Aquinas and Meister Eckhart Anastasia Wendlinder, 2016-04-01 Medieval masters Thomas Aquinas and Meister Eckhart considered problems inherent to speaking of God exploring how religious language might compromise God's transcendence or God's immanence ultimately hindering believers in their journey of faith seeking understanding Going beyond ordinary readings of Aquinas and building a foundation for further insights into the works of both theologians this book draws out the implications of the thought of Eckhart and Aquinas for contemporary issues including ecumenical and inter religious dialogue liturgy and prayer and religious inclusivity Reading Aquinas and Eckhart in light of each other reveals the profound depth and orthodoxy of both of these scholars and provides a novel approach to many theological and practical religious issues

On Exceeding Determination and the Ideal of Reason Pablo Muchnik, Christopher D. Shaw, 2012-03-15 On Exceeding Determination and the Ideal of Reason Immanuel Kant William Desmond and the Noumenological Principle examines the critical philosophy of Immanuel Kant as it bears on theological principles Focusing on the foundational ideas of self world and God that constitute Kant's metaphysical system Shaw argues that these ideal projections of the rational structures of the thinking subject only conceal and obfuscate the more robust sense of the real that exists behind all phenomenal appearances This book aims to critically assess the theological content presented in the philosophy of Kant whilst reconstructing and developing some of Kant's more obscure points on the epistemological limitations of pure reason and the borders of knowledge itself Shaw draws into dialogue with the writings of the contemporary philosopher William Desmond to demonstrate some of the problems of Kantian thought when it comes to the deeper mysteries of being Desmondian philosophy proves to be a powerful influence over much of this work as Shaw advances upon the delicate nexus where philosophy and theology convene As a bold addition to this work Shaw lays the groundwork for a new discourse in theology and the philosophy of religion Noumenology Noumenology which is Shaw's response to the deficiencies in methods concerning many of the modern approaches to phenomenology is a call for the recalibration of the starting point for eidetic inquiry through the proposal of a non discursive approach to the sensible emotional and intellectual or perhaps the all together spiritual To accomplish this Shaw reaches back to Kant for a heterodox approach to the language and content surrounding the noumenal to set forth his theological interpretation of the Noumenological Principle

Plato's Introduction to the Question of Justice Devin Stauffer, 2001-01-01 Plato's Introduction to the Question of Justice uncovers the heart of the Platonic analysis of justice by focusing on the crucial opening sections of the Republic Stauffer argues that the dialectical confrontations with ordinary opinion presented in these sections provide the basis for Plato's view of justice and that they also help to show how Plato's thought remains relevant today especially as a rival to Kantianism

The Oracle of reason: or, Philosophy vindicated (ed. by C. Southwell). Charles Southwell, *Fakhr Al-Dīn Al-Rāzī and Thomas Aquinas on the Question of the Eternity of*

the World Muammer İskenderoğlu, 2002 This volume examines and compares the approaches of Fakhr al Dīn al Rāzī d. 1209 and Thomas Aquinas d. 1274 to the question of the eternity of the world and brings out some similarities and differences of their approaches between them as well as in relation to their own traditions Islam and Christianity respectively
