Reason Sexlty In Wstrn:

Reason and Sexuality in Western Thought David West, 2005-05-06 This book traces the genealogy of ideas of reason self and sexuality in the West opening the way to a richer and more diverse understanding of sexual experience Western philosophy and religion have distorted and continue to distort our experience of sex and love through three far reaching constellations of reason self and sexuality Thinkers like Plato Aquinas and Kant helped to fashion an ascetic ideal of reason hostile to bodily pleasures and sexual diversity By contrast philosophical hedonism advocates a less demanding conception of rationality and defends sexual pleasure But this approach of thinkers like Hume Bentham La Mettrie and de Sade is still one sided and limiting A third constellation Romanticism avoids the limitations of both forms of rationalism but in the name of a religion of love and passion that ultimately threatens the integrity of the self In *Reason and Sexuality in Western Thought* a richer understanding of sexual experience is traced to a dissident philosophical tradition In their different ways Montaigne Spinoza Hegel and Kierkegaard Marcuse and Foucault contribute to a more holistic multi layered and open conception of reason sexuality and the self This book will be essential reading for all students of philosophy and gender studies **Gender**

and Sexuality in Russian Civilisation Peter I. Barta, 2013-06-17 *Gender and Sexuality in Russian Civilisation* considers gender and sexuality in modern Russia in the nineteenth and early twentieth centuries Chapters look individually at gender and sexuality through history art folklore philosophy or literature but are also arranged into sections according to the arguments they develop A number of chapters also consider Russia in the Soviet and post Soviet periods Thematic sections include Gender and Power Gender and National Identity Sexual Identity and Artistic Impression Literary Discourse of Male and Female Sexualities Sexuality and Literature in Contemporary Russian Society *The Politics of Gender and the Culture of Sexuality* Ali A. Mazrui, 2014-07-08 *The Politics of Gender and the Culture of Sexuality* outlines theories of gender within the intellectual paradigm of the triple heritage Islam Africanity and the West This book describes the impact of individual contexts and politics on meanings attributed to the human body *The Politics of Gender and the Culture of Sexuality* explores how men and women relate to each other in monogamous and polygamous marriage race rivalries slavery miscegenation cultures of procreation family planning and the Islamic view of women s dignity vis vis the Western view of women s liberty In doing so the author and editor present a multifaceted and dynamic theoretical discourse of gender *Why Stories Matter* Clare Hemmings, 2011-01-18 A powerful critique of the stories that feminists tell about the past four decades of Western feminist theory **Un-Veiling Dichotomies** Giorgia Baldi, 2021-09-27 This book analyzes the implication of secular liberal values in Western and human rights law and its impact on Muslim women It offers an innovative reading of the tension between the religious and secular spheres The author does not view the two as binary opposites Rather she believes they are twin categories that define specific forms of lives as well as a specific notion of womanhood This divergence from the usual dichotomy opens the doors for a reinterpretation of secularism in contemporary Europe This method also helps readers to

view the study of religion vs secularism in a new light It allows for a better understanding of the challenges that contemporary Europe now faces regarding the accommodation of different religious identities For instance one entire section of the book concerns the practice of veiling and explores the contentious headscarf debate It features case studies from Germany France and the UK In addition the analysis combines a wide range of disciplines and employs an integrated comparative and inter disciplinary approach The author successfully brings together arguments from different fields with a comparative legal and political analysis of Western and Islamic law and politics This innovative study appeals to students and researchers while offering an important contribution to the debate over the role of religion in contemporary secular Europe and its impact on women s rights and gender equality

Peterson, 2021-05-26 We are living in a rapidly changing culture Since the 1960s the changes in our sexual ethics have become increasingly problematic How are people especially Evangelicals and other conservative Christians supposed to respond Does the Bible address these seismic changes How is a believer supposed to raise a family in the cultural chaos of the twenty first century If you have asked any of these questions before then this book is for you Peterson argues forcefully that the changes in our culture are a direct result of a postmodern and post Christian cultural rejection of the mandates established by God in the opening two chapters of Genesis The reason Western culture is imploding morally is directly connected to the Enemy's undoing of each of the Genesis mandates established by God for human and cultural flourishing With Western culture's rejection or undoing of every one of God's mandates in Genesis is there any hope for the survival of once thriving Judeo Christian cultures Peterson tackles these and many other issues in a forthright and unreserved manner This book is not for the faint of heart It is a call for a return to cultural sanity rooted in the fear of God and his Word
