Reasons For Actions A Critique Of Utilitarian Rationality:

Reasons for Actions Richard J. Norman,1971 Reasons for Actions Richard J. Norman,1971-01-01 *Rationality in Action* Paul K. Moser,1990-10-26 An anthology of previously published pieces that have proven long term importance to theoretical work in rational action **The Epistemology of Desire and the Problem of Nihilism** Allan Hazlett,2024-07-12 Most people have wondered whether anything really matters some have temporarily thought that nothing really matters and some philosophers have defended the view that nothing really matters However if someone thinks that nothing matters if they are a nihilist about value then it seems that it is irrational for them to care about anything It seems that nihilism about value mandates total indifference This is the problem of nihilism Allan Hazlett addresses in *The Epistemology of Desire and the Problem of Nihilism* Hazlett argues that the problem of nihilism arises because desire and thus caring is a species of evaluation that admits of irrationality This contradicts the influential Humean view that desire does not admit of irrationality which has a ready solution to the problem of nihilism since desire does not admit of irrationality it cannot be irrational to care about something that you believe does not matter However following G E Anscombe Hazlett argues that desire has the same relationship to goodness as belief has to truth just as truth is the accuracy condition for belief goodness is the accuracy condition for desire This reveals desire as an appropriate target of epistemological inquiry in the same way that belief is an appropriate target of epistemological inquiry Desires can amount to knowledge in the same way that beliefs can amount to knowledge and crucially for the problem of nihilism desire admits of irrationality in the same way that belief admits of irrationality Nevertheless although it is obviously irrational to believe something that you believe is not true Hazlett argues that it is not irrational to desire something you believe is not good despite the fact that goodness is the accuracy condition for desire This provides a solution to the problem of nihilism and shows that nihilism about value can coherently be combined with the anti Humean view that desire is a species of evaluation

Reasons for Actions Richard J. Norman,1971 A revision of the author s thesis London Bibliography p 173 175 **The Limits of Utilitarianism** Harlan B. Miller,William Hatton Williams, *The Limits of Utilitarianism* was first published in 1982 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions Many philosophers have argued that utilitarianism is an unacceptable moral theory and that promoting the general welfare is at best only one of the legitimate goals of public policy Utilitarian principles seem to place no limits on the extent to which society may legitimately interfere with a person s liberties provided that such actions can be shown to promote the long term welfare of its members These issues have played a central role in discussions of utilitarianism since the time of Bentham and Mill Despite criticisms utilitarianism remains the most influential and widely accepted moral theory of recent times In this volume contemporary philosophers address four aspects of utilitarianism the principle of utility utilitarianism vis vis contractarianism welfare and voluntary cooperation and

helping others The editors provide an introduction and a comprehensive bibliography that covers all books and articles published in utilitarianism since 1930

Problems of Market Liberalism: Volume 15, Social Philosophy and Policy, Part 2 Ellen Frankel Paul, Fred D. Miller (Jr.), Jeffrey Paul, 1998-10-13 These essays assess market liberal or libertarian political theory They provide insights into the limits of government develop market oriented solutions to pressing social problems and explore some defects in traditional libertarian theory and practice Some of the essays deal with crucial theoretical issues asking whether the promotion of citizens welfare can serve as the justification for the establishment of government or inquiring into the constraints on individual behavior that exist in a liberal social order Some essays explore market liberal or libertarian positions on specific public policy issues such as affirmative action ownership of the airwaves the provision of healthcare or the regulation of food and drugs Other essays look at property rights the morality of profit making or the provision of public goods Still others address libertarianism as a political movement suggesting ways in which libertarians can reach out to those who do not share their views

Medicine, Rationality and Experience Byron J. Good, 1994 Biomedicine is often thought to provide a scientific account of the human body and of illness In this view non Western and folk medical systems are regarded as systems of belief and subtly discounted This is an impoverished perspective for understanding illness and healing across cultures one that neglects many facets of Western medical practice and obscures its kinship with healing in other traditions Drawing on his research in several American and Middle Eastern medical settings in this 1993 book Professor Good develops a critical anthropological account of medical knowledge and practice He shows how physicians and healers enter and inhabit distinctive worlds of meaning and experience He explores how stories or illness narratives are joined with bodily experience in shaping and responding to

human suffering and argues that moral and aesthetic considerations are present in routine medical practice as in other forms of healing *Sex, Drugs, Death, and the Law* David A. J. Richards, 1986 Among the most commonly argued legal questions are those involving victimless crimes consensual adult sexual relations including homosexuality and prostitution the use of drugs and the right to die How can they be distinguished from proper crimes and how can we as citizens judge the complex moral and legal issues that such questions entail David Richards a teacher of law in the areas of constitutional and criminal law and a moral and legal philosopher concerned with the investigation of legal concepts applies an interdisciplinary approach to the question of overcriminalization he draws on legal and philosophical arguments and links the subject to history psychology social science and literature To demonstrate how gross and unjust overcriminalization has developed Professor Richards explores basic assumptions that often underlie the common American sense of proper criminalization
