Rebellion in a High School Arthur L. Stinchcombe, 1964      **Social Sources of Rebellion in a High School** Arthur L. Stinchcombe, 1960      High-school Literature, 1854      **The Logic of Social Research** Arthur L. Stinchcombe, 2020-07-08

Arthur L. Stinchcombe has earned a reputation as a leading practitioner of methodology in sociology and related disciplines. Throughout his distinguished career, he has championed the idea that to be an effective sociologist, one must use many methods. This incisive work introduces students to the logic of those methods. *The Logic of Social Research* orients students to a set of logical problems that all methods must address to study social causation. Almost all sociological theory asserts that some social conditions produce other social conditions, but the theoretical links between causes and effects are not easily supported by observation. Observations cannot directly show causation, but they can reject or support causal theories with different degrees of credibility. As a result, sociologists have created four main types of methods that Stinchcombe terms quantitative, historical, ethnographic, and experimental to support their theories. Each method has value, and each has its uses for different research purposes. Accessible and astute, *The Logic of Social Research* offers an image of what sociology is, what it's all about, and what the craft of the sociologist consists of.      Historical Catalogue of the Dedham High School, Teachers and Students, 1851-1889 Dedham (Mass.). High school, 1889      **When Rebellion Ruled** Gerry Ellen, 2023-09-26

High school in the 1970s had many definitions for those who were lucky enough to attend this Catholic all-girl school. Uniforms, nuns as teachers, daily Mass, and getting into trouble became the prevailing theme for not only myself but others who experienced these rebellious years. And of course, boy crushes from freshman to senior year. Every 12 months brought about a new energy and a new adventure, ones that defined how this era was supposed to be: no laughing matter, but it was. For me, anyway, I wasn't a stellar student at all. If anything, I had my foibles and rebellion that landed me in one interesting situation after another. What I do know is that high school at Ursuline Academy in Dallas was about the most significant moment of my life. It defined me as a woman and brought about the challenges that led me to college in Austin and to the many moves around the United States in the subsequent decades thereafter. I treasure the 1970s high school years and wouldn't trade any of it for a moment. But I was a rebel, that's a given.      *Encyclopedia of Criminological Theory* Francis T. Cullen, Pamela Wilcox, 2009-12-15. This two-volume set is designed to serve as a reference source for anyone interested in the roots of contemporary criminological theory. Drawing together a team of international scholars, it examines the global landscape of all the key theories and the theorists behind them, presenting them in a context needed to understand their strengths and weaknesses. The work provides essays on cutting-edge research as well as concise, to-the-point definitions of key concepts, ideas, schools, and figures. Topics include contexts and concepts in criminological theory, the social construction of crime, policy implications of theory, diversity and intercultural contexts, conflict theory, rational choice theories, conservative criminology, feminist theory, and more. Key Themes: The Classical School of Criminology, The Positivist School of

Criminology Early American Theories of Crime Biological and Biosocial Theories of Crime Psychological Theories of Crime The Chicago School of Criminology Cultural and Learning Theories of Crime Anomie and Strain Theories of Crime and Deviance Control Theories of Crime Labeling and Interactionist Theories of Crime Theories of the Criminal Sanction Conflict Radical and Critical Theories of Crime Feminist and Gender Specific Theories of Crime Choice and Opportunity Theories of Crime Macro Level Community Theories of Crime Life Course and Developmental Theories of Crime Integrated Theories of Crime Theories of White Collar and Corporate Crime Contemporary Gang Theories Theories of Prison Behavior and Insurgency Theories of Fear and Concern About Crime

**It is Right to Rebel** Jean-Paul Sartre, Philippe Gavi, Pierre Victor, 2024-11-01 The early 1970s were a crucial period in the political and intellectual climate of France The newspaper Libération was founded in the wake of the protest movements of 1968 and the country was gripped by industrial political and civil unrest on a huge scale Behind all this were deep debates about the nature and justification of revolt class conflict and consciousness and the nature of what it meant to be free It is Right to Rebel available in English for the first time with a new Preface by Philippe Gavi is a fascinating discussion between three thinkers about this extraordinary period The book comprises extensive conversations between the philosopher and writer Jean Paul Sartre journalist and co founder of Libération Philippe Gavi and political radical and Maoist Pierre Victor all conducted between 1972 and 1974 In these conversations Sartre works out his relation between socialism and freedom providing fascinating background to his tortured relationship with the French Communist Party Together with his interlocutors they explore and debate what should be the basis of ethics the nature of oppression and racism including immigration the Arab Israeli conflict the Chilean military coup in 1973 and more A recurring theme is their exploration of two major questions what should ethics be based on and what makes for a revolutionary It is Right to Rebel is a fascinating insight into the philosophical and political background to Sartre's thought as well as the two lesser known figures of Gavi and Victor who play political foil to Sartre's measured philosophical stance It is a fascinating rich new resource for anyone studying Sartre political theory and French politics and political history

**Disruption in High School Classrooms** Leslie La Hugh Gardner, 1969 *Human Intelligence* J. McV. Hunt, 2020-03-12 What determines human intelligence What is its relationship to creativity Its potential for change To illuminate some of these questions J McVicker Hunt has gathered together a number of essays This volume contains some of the answers that have been found but emphasizes that we still need to learn a great deal about developing ways to assess our human resources We remain for example uncertain about what abilities pinpoint intelligence and the extent to which intellectual ability can predict classroom success even the ability to perform a job well Articles in this book show that indications of heritability have nothing to say about the educability of individuals or classes w races Investigations indicate that there is a great deal more plasticity in the development of behavior and abilities than was presumed by those who believe in predetermined intelligence They also indicate that knowledge and ability both grow during the early years

knowledge grows throughout life but the ability to acquire new knowledge and skill declines over time These areas of developing knowledge are of political as well as social significance Any attempts to upgrade the abilities of the poor or the disadvantaged must necessarily be concerned with manipulation of the environment These articles represent the most advanced available information about the relationship of experience environment and heredity to the development of measurable intelligence     An Inventory of Surveys of the Public on Crime, Justice and Related Topics ,1972     *A History of the Class of 1854 in Dartmouth College* Dartmouth College. Patrick Solomon,1992-03-16 This book investigates and brings into focus the formidable issues of racial culture left undeveloped in research on multiracial school populations in the United States Britain and Canada Through ethnographic research the author presents significant and provocative insight into the formation of black self concept and captures the complex interplay between black students accommodation to the official achievement ideology and their resistance to the powerful structural forces operating within the school It offers practical suggestions for working constructively with racial and ethnic subcultures as well as offering suggestions to school districts in the process of planning or implementing race and ethnic relations policies     **Resources in Education** ,1995     **Los Angeles School Journal** ,1926     **Hearings** United States.
