Romantics, Rebels and Reactionaries Marilyn Butler, 1987 **Romantics, Rebels and Reactionaries** Marilyn Butler, 1981 *Romantics, Rebels and Reactionaries* Marilyn Butler, 1985 *Spirits of Fire* G. Watkins, 1990 This work is a compilation of twelve essays on romantic literature by practitioners of a resurgent historical criticism sharing the common assumption that no aspect of the object of literary study escapes the conditioning power of historical change

Short Stories and Political Philosophy Erin A. Dolgoy, Kimberly Hurd Hale, Bruce Peabody, 2018-11-01 Short Stories and Political Philosophy Power Prose and Persuasion explores the relationship between fictional short stories and the classic works of political philosophy This edited volume addresses the innovative ways that short stories grapple with the same complex political and moral questions concerns and problems studied in the fields of political philosophy and ethics The volume is designed to highlight the ways in which short stories may be used as an access point for the challenging works of political philosophy encountered in higher education Each chapter analyzes a single story through the lens of thinkers ranging from Plato and Aristotle to Max Weber and Hannah Arendt The contributors to this volume do not adhere to a single theme or intellectual tradition Rather this volume is a celebration of the intellectual and literary diversity available to students and teachers of political philosophy It is a resource for scholars as well as educators who seek to incorporate short stories into their teaching practice

European Literatures in Britain, 18-15-1832: Romantic Translations Diego Saglia, 2019 Sheds new light on the presence and impact of Continental European literary traditions in post Napoleonic Britain

A New World of Labor Simon P. Newman, 2013-05-28 The small and remote island of Barbados seems an unlikely location for the epochal change in labor that overwhelmed it and much of British America in the seventeenth and eighteenth centuries However by 1650 it had become the greatest wealth producing area in the English speaking world the center of an exchange of people and goods between the British Isles the Gold Coast of West Africa and the New World By the early seventeenth century more than half a million enslaved men women and children had been transported to the island In *A New World of Labor* Simon P Newman argues that this exchange stimulated an entirely new system of bound labor Free and bound labor were defined and experienced by Britons and Africans across the British Atlantic world in quite different ways Connecting social developments in seventeenth century Britain with the British experience of slavery on the West African coast Newman demonstrates that the brutal white servant regime rather than the West African institution of slavery provided the most significant foundation for the violent system of racialized black slavery that developed in Barbados Class as much as race informed the creation of plantation slavery in Barbados and throughout British America Enslaved Africans in Barbados were deployed in radically new ways in order to cultivate process and manufacture sugar on single integrated plantations This Barbadian system informed the development of racial slavery on Jamaica and other Caribbean islands as well as in South Carolina and then the Deep South of mainland British North America Drawing on

British and West African precedents and then radically reshaping them Barbados planters invented a new world of labor

The Constitution of English Literature Michael Gardiner, 2013-07-18 This book is available as open access through the Bloomsbury Open Access programme and is available on www.bloomsburycollections.com In this extended essay Michael Gardiner examines the ideology of the discipline of English Literature in the light of the serious redefining work on England and Englishness that has been conducted in Political Studies in the last decade He argues that English Literature emerges from the development of the state and that consequently it has suppressed the idea of the nation His claim is that English Literature has lost its form since its methodology and canonicity depended so heavily on a constitutional form which can no longer be defended He calls upon those working in English Literature to recognise that they are not really participating in the same discipline defined by the Burkean constitutional settlement even if they think of themselves as writing within the canon His view is that a lack of appreciation of hard edged political factors have led to a continuant and regressive form of English Literature which tends to hang on to stifling methodologies In its place he appeals for the creation of a more open ended inclusive internationalist and comparative literature of England

William Hazlitt Kevin Gilmartin, 2015-06-11 Over the course of a literary career that extended from the lingering Malthusian controversies of the late eighteenth century to the brink of the Reform Act of 1832 William Hazlitt produced a remarkable body of committed radical journalism Against the view that partisan passion undermined his aesthetic judgment and compromised his celebrated disinterestedness William Hazlitt Political Essayist restores politics to the center of his achievement as a critic and essayist In doing so Kevin Gilmartin explores his constructive relationship with the early nineteenth century popular reform movement while acknowledging his desire to reflect critically on radical politics and express his own doubts about social progress Early chapters attend closely to his critical method and matters of style and form focusing on the political development of his contradictory prose manner Paradox and inconsistency are central to his attack on Legitimacy a term he drew from the lexicon of post Napoleonic political journalism In treating legitimate government as a revived form of divine right monarchy Hazlitt often produced harrowing visions of the perfect refinement of oppressive power and the complete elimination of any principle of liberty or resistance At the same time he found ways to preserve his commitment to oppositional political expression and the redemptive necessity of what he termed a word uttered against Later chapters bring together the spiritual heritage of rational Dissent and emerging democratic developments in London to understand Hazlitt's distinctive mobilization of radical memory as a way of contending with present injustice and envisioning a political future

The End of Anglo-America Robert Arthur Burchell, 1991 This collection of essays examines the phenomenon of the gradually evolving cultural differences which took place between America and Britain after the American revolution A culture of individualism began to emerge in contrast with elitism leading to suspicion of government and emerging personal ambitions particularly with regard to one's children However cultural changes emerged at a different pace in different parts of the country One author argues that Britain and

America continued as members of a single political family which in turn belonged to a wider European community Another suggests that a clear but selective emancipation from the British political culture took place and that a development of distinctly American institutions and practices emerged Yet another believes that in the United States there was less criticism of business success and less possibility of the generations that succeeded business success being seduced by gentrification

Thinking Through Poetry Marjorie Levinson, 2018-07-04 Thinking through Poetry Field Reports on Romantic Lyric pursues two goals The title signals the contribution to debates about reading Do we think through by means of with poems sympathetically elaborating their surfaces Is this compatible with a second meaning thinking through poems to their end solving a problem getting to its root its deep truth Third can we square these surface and depth readings with a speculative philosophical criticism to which the poem carries us where through denotes a going beyond All three meanings of through are in play throughout The subtitle applies field first to Romantic studies since the 1980s a field that this project reflects upon from beginning to end Examples are drawn especially from Wordsworth but also from Coleridge and in assessing Romanticism's afterlife from Stevens Field also characterizes the shift from a unitary to a field concept of form during that time span a shift pursued through prolonged engagement with Spinoza Field thus underscores the synthesis of form and history the importance of analytic scale to that synthesis and the displacement of entity text by relation as the object of investigation While the book historically connects early nineteenth century intellectual trends to twentieth and twenty first century scientific revolutions its focuses on introducing new models to literary criticism Unlike accounts of the influence of science on literature or various literature X approaches literature and ecology literature and cognitive science it constructs its object of inquiry in a way cognate with work in non humanities disciplines thus highlighting a certain unity to human knowledge The claim is that specialists in literature should think the way distinguished scientists think and vice versa

From the Heart of Tibet Elmar R. Gruber, 2010-08-10 The story of Drikung Chetsang Rinpoche's life notes the Dalai Lama encompasses a remarkably broad range of Tibetan experience over the past fifty years This is the story of a young boy born in 1946 to inherit the role of high ranking lama When the Chinese army invaded his family escaped the country but he and the other monks in his monastery were rounded up by soldiers and sent to an indoctrination school After surviving almost two decades of the Cultural Revolution in Tibet during which time lamas and aristocrats were persecuted and jailed Chetsang Rinpoche walked out of Tibet alone and found his way to Kathmandu Nepal Eventually after living as a refugee and an immigrant he fully took on leadership of the Drikung lineage by founding the Drikung Kagyu Institute in India Since then the teachings of this lineage have spread around the world after nearly being lost **Percy Bysshe Shelley** Michael O'Neill, 1989-10-24 In Percy Bysshe Shelly A Literary Life Michael O'Neill gives a knowledgeable and balanced account of Shelley's literary career from his earliest published work to his last unfinished masterpiece The Triumph of Life The book draws on recent research about the poet and his age but its sense of the ways in which texts and contexts interact is sharply

independent Issues discussed include Shelley s social background his radical politics and his complex response to Enlightenment rationalism O Neill stresses Shelley s often disappointed search for an audience connecting it with the growing sophistication of his poetry and poetics For Shelley a poet was the combined product of internal powers and external influences Preface to Prometheus Unbound this book explores how such a combination manifests itself in his own writings

Anti-Catholicism in the Mexican Revolution, 1913-1940 Jürgen Buchenau,David S. Dalton,2024-12-01 Anti Catholicism in the Mexican Revolution 1913 1940 examines anti Catholic leaders and movements during the Mexican Revolution an era that resulted in a constitution denying the Church political rights Anti Catholic Mexicans recognized a common enemy in a politically active Church in a predominantly Catholic nation Many books have elucidated the popular roots and diversity of Roman Catholicism in Mexico but the perspective of the Church s adversaries has remained much less understood This volume provides a fresh perspective on the violent conflict between Catholics and the revolutionary state which was led by anti Catholics such as Plutarco El as Calles who were bent on eradicating the influence of the Catholic Church in politics in the nation s educational system and in the national consciousness The zeal with which anti Catholics pursued their goals and the equal vigor with which Catholics defended their Church and their faith explains why the conflict between Catholics and anti Catholics turned violent culminating in the devastating Cristero Rebellion 1926 1929 Collecting essays by a team of senior scholars in history and cultural studies the book includes chapters on anti Catholic leaders and intellectuals movements promoting scientific education and anti alcohol campaigns muralism feminist activists and Mormons and Mennonites A concluding afterword by Matthew Butler a global authority on twentieth century Mexican religion provides a larger perspective on the themes of the book *A History of Modern Tibet, Volume 4* Melvyn C. Goldstein,2019-10-22 It is

not possible to understand contemporary politics between China and the Dalai Lama without understanding what happened in the 1950s especially the events that occurred in 1957-59. The fourth volume of Melvyn C. Goldstein's *History of Modern Tibet* series, *In the Eye of the Storm*, provides new perspectives on Sino-Tibetan history during the period leading to the Tibetan Uprising of 1959. The volume also reassesses issues that have been widely misunderstood as well as stereotypes and misrepresentations in the popular realm and in academic literature such as in Mao's policies on Tibet. Volume 4 draws on important new Chinese government documents, published and unpublished memoirs, new biographies, and a large corpus of in-depth, specially collected political interviews to reexamine the events that produced the March 10th uprising and the demise of Tibet's famous Buddhist civilization. The result is a heavily documented analysis that presents a nuanced and balanced account of the principal players and their policies during the critical final two years of Sino-Tibetan relations under the Seventeen Point Agreement of 1951.
