**The Shame and the Sorrow** Donna Merwick, 2013-03-01 The Dutch through the directors of the West India Company purchased Manhattan Island in 1625 They had come to the New World as traders not expecting to assume responsibility as the sovereign possessor of a conquered New Netherland They did not intend to make war on the native peoples around Manhattan Island but they did they did not intend to help destroy native cultures but they did they intended to be overseas the tolerant pluralistic and antimilitaristic people they thought themselves to be and in so many respects were at home but they were not For the Dutch intruders establishing a settled presence away from the homeland meant the destabilization of the adventurers values and self regard They found that the initially peaceful encounters with the indigenous people soon took on the alarming overtones of an insurgency as the influx of the Dutch led to a complete upheaval and eventual disintegration of the social and political worlds of the natives How are the Dutch to be judged Donna Merwick in *The Shame and the Sorrow* asks this question She points to a betrayal both of their own values and of the native peoples She also directs us to the self delusion of hegemonic control Her work belongs alongside the best of today's postcolonial studies in the description of cross cultural violence and subtle questioning of the nature of writing its history

**Forthcoming Books** Rose Arny, 1991 *The Scientist as Rebel* Freeman Dyson, 2006-11-14 An illuminating collection of essays by an award winning scientist whom the London Times calls one of the world's most original minds From Galileo to today's amateur astronomers scientists have been rebels writes Freeman Dyson Like artists and poets they are free spirits who resist the restrictions their cultures impose on them In their pursuit of Nature's truths they are guided as much by imagination as by reason and their greatest theories have the uniqueness and beauty of great works of art Dyson argues that the best way to understand science is by understanding those who practice it He tells stories of scientists at work ranging

from Isaac Newton's absorption in physics alchemy theology and politics to Ernest Rutherford's discovery of the structure of the atom to Albert Einstein's stubborn hostility to the idea of black holes His descriptions of brilliant physicists like Edward Teller and Richard Feynman are enlivened by his own reminiscences of them He looks with a skeptical eye at fashionable scientific fads and fantasies and speculates on the future of climate prediction genetic engineering the colonization of space and the possibility that paranormal phenomena may exist yet not be scientifically verifiable Dyson also looks beyond particular scientific questions to reflect on broader philosophical issues such as the limits of reductionism the morality of strategic bombing and nuclear weapons the preservation of the environment and the relationship between science and religion These essays by a distinguished physicist who is also a lovely writer offer informed insights into the history of science and fresh perspectives on contentious current debates about science ethics and faith **Smoke Jumper** R. The Congressional Globe United States. Congress, 1872 Obama's Unending Wars Jeremy Kuzmarov, 2019-07-20 Many academics consider Obama to have been a master foreign policy strategist and shrewd practitioner of the art of realpolitik This book demonstrates however that Obama in reality helped to institutionalize a permanent warfare state that resulted in gross human rights violations and contributed to America's strategic decline His perpetuation of the War on Terror created more enemies and prompted the United States to lose influence in the Middle East His Pivot to Asia policy intensified prospects for regional war while his unnecessary and willful military intervention destroyed Libya and drew the Russians in to protect Bashar al Assad who won Syria's civil war The Obama administration's heavy handed interference in Ukraine led to effective Russian counter moves promoting a strategic alliance with China and regional integration that is moving the world towards multi polarity Obama's Unending Wars provides the first critical comprehensive and highly documented history of the foreign policy of America's forty fourth president the drone king who ordered the bombing of seven Muslim countries backtracked on a pledge to reduce America's nuclear arsenal and helped fuel a new Cold War with Russia During his years in office Obama provided billions of dollars in arms sales to Saudi Arabia as it assisted in the crushing of pro democracy demonstrators in Bahrain and invaded Yemen He sanctioned a coup in Honduras which plunged that country into chaos

perpetuated a failed drug war policy and contributed to the recolonization of Africa While any Democratic Party president would have faced peril in confronting the Pentagon which had carried out a slow coup d'etat over the decades Obama was rather in many ways the most perfect spokesman for the military industrial complex Who else but this articulate constitutional law professor could pull off a pro war speech after winning the Nobel Peace Prize while ramping up drone assassinations and America's network of military bases in Africa and still retain the support of liberal progressives As many in the time of Trump now glance nostalgically back to the Obama presidency this book will help them to see the continuity and continuous failure of American foreign policy irrespective of the party or figurehead representing it *Convincing Rebel Fighters to Disarm* Jacob Udo-Udo Jacob, 2016-11-07 One of the key mission objectives of the UN Mission in the Democratic Republic of Congo MONUC was to disarm and repatriate foreign combatants in the eastern region of the country To achieve this MONUC adopted a push and pull strategy This involved applying military pressure while at the same time offering opportunities for voluntary disarmament and repatriation for armed combatants of the elusive but deadly Democratic Forces for the Liberation of Rwanda FDLR a predominantly Rwandan Hutu armed group in eastern DRC As part of its pull strategy MONUC embarked on one of the most sophisticated Information Operations IO campaigns in UN history with the core objective of convincing thousands of individual combatants and commanders of the FDLR to voluntarily disarm and join the UN's Demobilization Disarmament Repatriation Resettlement and Reintegration programme DDRRR This book is derived from studies of the narratives coordination and effectiveness of the UN's IO in support of DDRRR and how the UN has integrated IO as part of its Mission peace support operations This book advances contemporary understanding of the relative importance of communication models and their interactions within conflict settings It provides instruments with which conflict and communication analysts can compare predictions and rationalize Information impacts for future conflicts About the author Dr Jacob Udo Udo Jacob teaches Communications Media Studies at the American University of Nigeria He earned his PhD in Communication Studies from the University of Leeds United Kingdom
