Feminist Theology and the Challenge of Difference Margaret D. Kamitsuka, 2007-07-20 In the early years of contesting patriarchy in the academy and religious institutions feminist theology often presented itself as a unified front a sisterhood The term feminist theology however is misleading It suggests a singular feminist purpose driven by a unified female cultural identity that struggles as a cohesive whole against patriarchal dominance Upon closer inspection the voice of feminist theology is in fact a chorus of diverging perspectives each informed by a variety of individual and communal experiences and an embattled scholarly field marked by the effects of privilege and power imbalances This complexity raises an important question How can feminist theologians respect the irreducible diversity of women s experiences and unmask entrenched forms of privilege in feminist theological discourse In *Feminist Theology and the Challenge of Difference* Margaret D Kamitsuka urges the feminist theological community to examine critically its most deeply held commitments assumptions and goals especially those of feminist theologians writing from positions of privilege as white or heterosexual women Focusing on women s experience as portrayed in literature biblical narrative and ethnographic writing Kamitsuka examines the assumptions of feminist theology regarding race and sexuality She proposes theoretical tools that feminist theologians can employ to identify and hopefully avoid the imposition of racial or sexual hegemony thus providing invaluable complexity to the movement s identity and ultimately contributing to current and future Christian theological issues Blending poststructuralist and postcolonial theoretical resources with feminist and queer concerns *Feminist Theology and the Challenge of Difference* makes constructive theological proposals ranging from sin to christology The text calls feminist theologians to a more rigorous self critical approach as they continue to shape the changing face of Christian theological discourse

religious studies sociology and gender studies **Pieties and Gender** L. E. Sjrur, Hilda Rømer Christensen, 2009 Taking up the challenge of Saba Mahmood to feminist studies in religion that there is a liberalist understanding of agency and a tendency to mix the feminist political project with the analytical the authors of this anthology discuss the relations between pieties and politics pieties and methodologies virtuous masculinities and symbolic gender representations Several articles discuss highly controversial questions Muslim piety religion in the European Union between the Vatican and the Muslim populations the religiously motivated abstinence policies of the US Furthermore there is an interesting section about religious masculinities in a historical and contemporary perspective *Divine Flesh, Embodied Word* Anne-Claire Mulder, 2006 What has Luce Irigaray's statement that women need a God to do with her thoughts on the relation between body and mind or the sensible and the intelligible Using the theological notion incarnation as a hermeneutical key Anne Claire Mulder brings together and illuminates the interrelations between these different themes in Luce Irigaray's work Seesawing between Luce Irigaray's critique of philosophical discourse and her constructive philosophy Mulder elucidates Irigaray's thoughts on the relations between becoming woman and becoming divine She shows that Luce Irigaray's restaging of the relation between the sensible and the intelligible between flesh and Word is key to her reinterpretation of the relation between woman and God In and through her interpretation of Luce Irigaray's thoughts on the flesh she argues that the relation between flesh and Word must be seen as a dialectical one instead of as a dualistic relation This means that incarnation is no longer seen as a one way process of Word becoming flesh but as a continuing process of flesh becoming word and word becoming flesh For all images and thoughts including those of God are produced by the flesh divine in its creativity inexhaustibility in response to the touch of the other And these images thoughts words in turn become embodied by touching and moving the flesh of the subject **The Encyclopedia of Modern Witchcraft and Neo-Paganism** Shelley Rabinovitch, James Lewis, 2004 A comprehensive guide to the world of magick this book includes definitions straightforward thorough explanations biographies of all of the important figures in Wiccan and Pagan cultures and descriptions of the various traditions of Wicca as well as offering a detailed history of the pagan tradition With essays from authorities such as Lois Bourne and Marian Green on topics ranging from Jungian Psychology and Neo Paganism to Buffy the Vampire Slayer this book is the first encyclopedia that discusses modern Neo Pagan beliefs from international points of view *Mary Magdalene from the New Testament to the New Age and Beyond* Edmondo F. Lupieri, 2019-10-14 An international team of twenty scholars under Edmondo F Lupieri's direction produced *Mary Magdalene from the New Testament to the New Age and Beyond* While the historical figure of the Magdalene may be lost forever the construction of her literary images and their transformations and adaptations over the centuries are a lively testimony to human creativity and faith Different pictures of Mary travelled through time and space from history to legend and mythology crossed religious boundaries going beyond the various Christianities to become a sign of contradiction for many This book describes a special case of biblical reception

history that of the New Testament figure of a woman whose presence at the side of Jesus has been disturbing for some but proves to be inspiring for others

Seeing Nature Through Gender Virginia Scharff, 2003 Environmental history has traditionally told the story of Man and Nature Scholars have too frequently overlooked the ways in which their predominantly male subjects have themselves been shaped by gender Seeing Nature through Gender here reintroduces gender as a meaningful category of analysis for environmental history showing how women s actions desires and choices have shaped the world and seeing men as gendered actors as well In thirteen essays that show how gendered ideas have shaped the ways in which people have represented experienced and consumed their world Virginia Scharff and her coauthors explore

interactions between gender and environment in history Ranging from colonial borderlands to transnational boundaries from mountaintop to marketplace they focus on historical representations of humans and nature on questions about consumption on environmental politics and on the complex reciprocal relations among human bodies and changing landscapes They also challenge the ecofeminist position by challenging the notion that men and women are essentially different creatures with biologically different destinies Each article shows how a person or group of people in history have understood nature in gendered terms and acted accordingly often with dire consequences for other people and organisms Here are considerations of the ways we study sexuality among birds of William Byrd s masking sexual encounters in his account of an eighteenth century expedition of how the ecology of fire in a changing built environment has reshaped firefighters own gendered identities Some are playful as in a piece on the evolution of snow bunnies to shed betties Others are dead serious as in a chilling portrait of how endocrine disrupters are reinventing humans animals and water systems from the cellular level out Aiding and adding significantly to the enterprise of environmental history Seeing Nature through Gender bridges gender history and environmental history in unexpected ways to show us how the natural world can remake the gendered patterns we ve engraved on ourselves and on the planet *Secrets of the Eternal Moon Phase Goddesses* Julie Peters, 2016-05-10

Part introduction to Tantric traditions part personal growth guide this exploration of the Eternal Moon Phase Goddesses with nightly meditation and journaling practices is for anyone who wants to embrace the confusion loss loneliness desire and pleasure that make up the spectrum of human experience and better understand who they already are **Transcendence**

Women and Mental Disorders Paula K. Lundberg-Love, Kevin L. Nadal, Michele A. Bednarowski, 1999-10-22 Explores five ideas that animate the theological imagination of women in religious communities throughout America: ambivalence toward tradition; the immanence or indwelling of the divine; the sacredness of the ordinary; and the ordinariness of the sacred; the vision of the universe as a web of relationships; and healing as a central function of religion. back cover
