*Central Asia* Vladimir Fedorenko,2012 Recently there was a wave of celebration of the 20th anniversary of independence in all Central Asian states yet their nation building process is not complete and the perception of the national identity is still distorted By its nature national identity should bring people together and unite them around common values and goals in Central Asian states however national identity conceived on ethnic basis is a divisive force fragmenting people along the lines

of ethnicity religion language birth place and social status After the collapse of the Soviet Union Central Asian republics Kazakhstan Turkmenistan Uzbekistan Tajikistan and Kyrgyzsta faced the difficult task of state and nation building Although every Central Asian nation had its own challenges determined by its geography ethnic and cultural composition availability of natural resources and other factors all of them faced same complexity that hindered the attaining of unity in those countries As a result of abrupt dissolution of the Soviet Union politically unstable economically weak and interdependent institutionally unprepared and socially disorientated Central Asian states were in a serious crisis In order to forge a new national identity the political elites in all five Central Asian states decided to implement a nation building policy based on ethnicity Ethnic nationalism was convenient and promising strategy capable of providing a sense of stability by uniting majority groups around the common and powerful link of ethnicity In order to increase people s attachment to these new national identities attractive myths regarding ethnic identities were created In all of the Central Asian countries the strategy of creating a national myth was similar It consisted of rewriting history in order to show a strong attachment of the majority group to the present geographical location of the country as well as of choosing a historical figure that boosted the national pride of the dominant ethnic group Consequently Uzbeks have been putting emphasis on being successors of the famous conqueror Tamerlane who established Timurid Empire Kyrgyz have been promoting the image of the mythical hero Manas and Tajiks have been rediscovering their history that was linked to the Samanid Empire ruled by Ismail Samani Kazakhs have been promoting nomadic culture and traditions and Turkmens have been focusing on the Turkmen spiritual leader Magtymguly Pyragy However an important barrier to the nation building process around single ethnicity is the fact that most Central Asian states are multiethnic and multicultural societies Thus while ethnic nationalism provides the majority group a sense of belonging to the nation minority ethnic groups in Central Asia do not easily embrace this new national identity and feel excluded from the nation building process Moreover majority ethnic groups also realize their dominance and often treat minorities unjustly This creates tension and conflicts among the different ethnic groups This paper addresses the question of how Central Asian societies can move away from divisive to inclusive form of nationalism

**Virtual Politics** Andrew Wilson,Professor of the Archaeology of the Roman Empire Andrew Wilson,2005-01-01 States like Russia and Ukraine may not have gone back to totalitarianism or the traditional authoritarian formula of stuffing the

ballot box cowering the population and imprisoning the opposition or not obviously But a whole industry of political technology has developed instead with shadowy private firms and government fixers on lucrative contracts dedicated to the black arts of organizing electoral success This book uncovers the sophisticated techniques of the virtual political system used to legitimize post Soviet regimes entire fake parties phantom political rivals and scarecrow opponents And it exposes the paramount role of the mass media in projecting these creations and in falsifying the entire political process Wilson argues that it is not primarily economic problems that have made it so difficult to develop meaningful democracy in the former Soviet world Although the West also has its spin doctors dirty tricks and aggressive ad campaigns it is the unique post Bolshevik culture of political technology that is the main obstacle to better governance in the region to real popular participation in public affairs and to the modernization of the political economy in the longer term

Havrylyshyn, 2006-02-20 The most comprehensive and up to date analysis of the successes and failures of 27 countries post communism transformation Looking at life after the fall of the Berlin wall in 1989 the book examines and contrasts why some countries have virtually completed their transformation to a liberal polity and economy while others lag behind

Variations on Uzbek Identity Peter Finke, 2014-02-01 Throughout its history the concept of Uzbekness or more generally of a Turkic speaking sedentary population has continuously attracted members of other groups to join as being Uzbek promises opportunities to enlarge one's social network Accession is comparatively easy as Uzbekness is grounded in a cultural model of territoriality rather than genealogy as the basis for social attachments It acknowledges regional variation and the possibility of membership by voluntary decision Therefore the boundaries of being Uzbek vary almost by definition incorporating elements of local languages cultural patterns and social organization This book combines an historical analysis with thorough ethnographic field research looking at differences in the conceptualization of group boundaries and the social practices they entail It does so by analysing decision making processes by Uzbeks on the individual as well as cognitive level and the political configurations that surround them

*Symbolism and Power in Central Asia* Sally Cummings, 2013-09-13 With the collapse of communism post communist societies scrambled to find meaning to their new independence Central Asia was no exception Events relationships gestures spatial units and objects produced conveyed and interpreted meaning The new power container of the five independent states of Kazakhstan Kyrgyzstan Tajikistan Turkmenistan and Uzbekistan would

significantly influence this process of signification Post Soviet Central Asia is an intriguing field to examine this transformation a region which did not see an organised independence movement develop prior to Soviet implosion at the centre it provokes questions about how symbolisation begins in the absence of a national will to do so The transformation overnight of Soviet republic into sovereign state provokes questions about how the process of communism turned nationalism could become symbolised and what specific role symbols came to play in these early years of independence Characterized by authoritarianism since 1991 the region's ruling elites have enjoyed disproportionate access to knowledge and to deciding what how and when that knowledge should be applied The first of its kind on Central Asia this book not only widens our understandings of developments in this geopolitically important region but also contributes to broader studies of representation ritual power and identity This book was published as a special issue of *Europe Asia Studies* *The Statesman's Yearbook 2010* B.
