Ainsworth, 2001 The nine papers collected in this publication which comprises the third and latest edition to the symposium volumes by the Metropolitan Museum of Art were first presented in conjunction with the Museum s exhibition of Early Netherlandish painting culled from its own holdings in 1998 The essays by an international roster of leading specialists together uncover the circumstances underlying the creation of works of art and shed new light on their meaning in the context of the growing interdisciplinary activity and burgeoning scholarship in the field The importance of archival research into the socio economic factors that existed in the late fifteenth and early sixteenth centuries is emphasized especially the impact of art markets on the production of paintings as well as sculpture Much new

material has surfaced as a result of advances in the technical investigation of works of art underscoring the premise that the clues to the meaning of a work are often found not only in its method of manufacture but also in the specific audience for which it was intended and in the function that it originally served for that audience

Jan van Eyck within His Art Alfred Acres, 2023-06-26 A new assessment of the inventive and influential artist Jan van Eyck Jan van Eyck 1390 1441 was one of the most inventive and influential artists in the entire European tradition The realism of his paintings continues to astound observers more than six centuries on even though our world is saturated by high resolution images However viewers today are as like to be absorbed by Van Eyck s personality as his realism While he sometimes directly painted himself into his works he also suggested his presence through an array of inscriptions signatures and even a personal motto Incorporating a wealth of new research and recent discoveries within a fresh exploration of the paintings themselves this book reveals how profoundly Jan van Eyck transformed the very idea of what an artist could be

The Art of Copying Art Penelope Jackson, 2022-08-26 This book is a study of the history role and significance of copying art Copies have enjoyed a different status from authentic artworks and though often acknowledged very rarely have they been considered collectively as a genre in their own right This volume showcases a variety of examples from copies of famous artworks made and used as props in movies to those made innocently by student artists as part of their training Examining the motivations for making copies and reflecting on the reception of copies is central to this book Copies have historically filled voids in collections where some sadly languish and have become a curatorial burden In other cases having a copy assists in conservation projects and fills the place of a lost work Ultimately by interrogating a copy s role and intent we might ask ourselves if viewing a copy changes our experience and perception of an artwork

Radermecker,2021-05-25 Working with a data set accounting for 13 000 auction sales results Anne Sophie V Radermecker explores what contemporary buyers value when purchasing paintings of unknown or uncertain authorship and which variables influence price formation mechanisms in this market segment The principle finding of this book is not only that historical names matter in the art market but so do all other alternative identification strategies that art market players use to label anonymous paintings Indirect names provisional names and spatiotemporal designations function as substitutes for real names that simulate identities create ex post stories around the artworks offered for sale and consequently reduce information asymmetry about an artist s identity with at time quite unexpected effects on price **Making Copies in European Art 1400-1600** ,2018-11-26 Making Copies in European Art 1400 1600 comprises sixteen essays that explore the form and function manner and meaning of copies after Renaissance works of art The authors construe copying as a method of exchange based in the theory and practice of imitation and they investigate the artistic techniques that enabled and facilitated the production of copies They also ask what patrons and collectors wanted from a copy which characteristics of an artwork were considered copyable and where and how copies were stored studied displayed and circulated Making Copies in European Art in addition to studying many unfamiliar pictures incorporates previously unpublished documentary materials
