classifications and the interplay between natural philosophy medicine and ethics The idea of the body as a mirror of the soul has fascinated mankind throughout history Being able to see through an individual and drawing conclusions on their character solely based on a selection of external features is the subject of physiognomy and has a long tradition running well into recent times However the pre modern especially medieval background of this discipline has remained underexplored The selected case studies in this volume each contribute to a better understanding of the history of physiognomy from antiquity to the Renaissance and offer discussions on unedited treatises and on the application development and reception of this field of knowledge as well as on visual sources inspired by physiognomic theory Contributors Enik B k s Hungarian Academy of Sciences Jo l Biard University of Tours Lisa Devriese KU Leuven Maria Fernanda Ferrini University of Macerata Christophe Grellard cole Pratique des Hautes tudes Lu s Campos Ribeiro University of Lisbon Maria Michela Sassi University of Pisa Oleg Voskoboynikov Higher School of Economics Moscow Steven J Williams New Mexico Highlands University Joseph Ziegler University of Haifa Gabriella Zuccolin University of Pavia *Donati Graeci* Federica Ciccolella, 2008 The starting point generally acknowledged for the revival of Greek studies in the West is 1397 when the Byzantine Manuel Chrysoloras began to teach Greek in Florence With his *Erotemata* Chrysoloras gave Westerners a tool to learn Greek the search for the ideal Greek textbook however continued even after the publication of the best Byzantine humanist grammars The four Greek Donati edited in this book Latinate Greek grammars based on the Latin schoolbook entitled *Ianua* or *Donatus* belong to the many pedagogical experiments documented in manuscripts They attest to a tradition of Greek studies that probably originated in Venice and or Crete a tradition certainly inferior to the Florentine scholarship in quality and circulation but still important in the cultural history of the Renaissance **Ancient Alexandria between Egypt and Greece** William V. Harris, Giovanni Ruffini, 2021-10-01 As one of the greatest cities of antiquity Alexandria has always been a severe challenge to its historians all the more so because the surviving evidence material and textual is so disparate New archaeological and literary discoveries and the startling diversity of ancient Alexandria so reminiscent of some modern cities add to the interest The present volume contains the papers given at a conference at Columbia University in 2002 which attempted to lay some of the foundations for a new history of Alexandria by considering in particular its position between the traditions and life of Egypt on the one hand and on the other the immigrants who came there from Greece and elsewhere in the wake of the founder Alexander of Macedon *The Spread of Christianity in the First Four Centuries* William V. Harris, 2005-11-01 The Spread of Christianity in the First Four Centuries Essays in Explanation attempts to show how contemporary historical scholarship or rather a selection of its exponents views the perennial question why a new religion indeed a new kind of religion succeeded in subverting the other religions of the Roman Empire in the first three centuries and in the generations immediately following the conversion of the usurper Constantine in 312
