**Lifting the Veil** Malcolm Guite, 2022-04-29 Christianity has often been suspicious of the human imagination equating it with what is imaginary or merely made up while in the secular world the arts are often seen as little more than a source of entertainment In *Lifting the Veil* Malcolm Guite explores the vision from which all his writing springs that there is a radiant reality at the heart of things which our dulled sight misses and that the imagination is an aspect of the image of God in us that can awaken us to the presence and truth of God shimmering through all creation He considers how Jesus appealed to the imagination in his use of stories parables and everyday metaphors often startling people into a fresh awareness of the kingdom of God and explores how poets and artists such as Blake and Coleridge sought to remove the dull film of familiarity that lies over our senses and reawaken a sense of wonder Malcolm argues that renewing our artistic imaginations strengthens our moral and prophetic imaginations making *Lifting the Veil* an inspiring manifesto for all who seek to embody the kingdom of God      **Poesis in Extremis** Daniel Feldman, Efraim Sicher, 2024-02-08 How can genocide be witnessed through imaginative literature How can the Holocaust affect readers who were not there Reading the work of major figures such as Elie Wiesel Paul Celan Avrom Sutzkever Ida Fink Wladyslaw Szlengel Itzhak Katzenelson and Czeslaw Milosz *Poesis in Extremis* poses fundamental questions about how prose and poetry are written under extreme conditions either in real time or immediately after the Holocaust Framed by discussion of literary testimony with Wiesel's literary memoir *Night* as an

entry point this innovative study explores the blurred boundary of fact and fiction in Holocaust literature It asks whether there is a poetics of the Holocaust and what might be the criteria for literary witnessing Wartime writing in particular tests the limits of poesis in extremis when poets faced their own annihilation and wrote in the hope that their words like a message in a bottle would somehow reach readers Through Poesis in Extremis Daniel Feldman and Efraim Sicher probe the boundaries of Holocaust literature as well as the limits of representation *Words and Silence* Thérèse Lentfoehr, 1979

Perceptions born of her friendship with Merton over the course of nearly three decades are shared in Sister Therese Lentfoehr's analysis of the entire corpus of the late Trappist monk's poetry **The Ethics of Literary Communication** Roger D. Sell, Adam Borch, Inna Lindgren, 2013-09-25 Viewing literature as one among other forms of communication Roger D Sell and his colleagues evaluate writer respondent relationships according to the same ethical criterion as applies for dialogue of any other kind In a nutshell Are writers and readers respecting each other's human autonomy If and when the answer here is Yes Sell's team describe the communication that is going on as genuine In this latest book they offer new illustrations of what they mean by this and ask whether genuineness is compatible with communicational directness and communicational indirectness Is there a risk for instance that a very direct manner of writing could be unacceptably coercive or that a more indirect manner could be irresponsible or positively deceitful The book's overall conclusion is Not necessarily A directness which is truthful and stimulates free discussion does respect the integrity of the other person And the same is true of an indirectness which encourages readers themselves to contribute to the construction and assessment of ideas stories and experiences sometimes literary indirectness may allow greater scope for genuineness than does the directness of a non literary letter By way of illustrating these points the book opens up new lines of inquiry into a wide range of literary texts from Britain Germany France Denmark Poland Romania and the United States **Translating Jazz Into Poetry** Erik Redling, 2017-02-20 The study develops a new theoretical approach to the relationship between two media jazz music and writing and demonstrates its explanatory power with the help of a rich sampling of jazz poems Currently the mimetic approach to intermediality e g the notion that jazz poetry imitates jazz music still dominates the field of criticism This book challenges that interpretive approach It demonstrates that a mimetic view of jazz poetry hinders readers from perceiving the metaphoric ways poets rendered music in writing Drawing on and extending recent cognitive metaphor theories Lakoff Johnson Turner Fauconnier it promotes a conceptual metaphor model that allows readers to discover the innovative ways poets translate melody dynamics tempo mood and other musical elements into literal and figurative expressions that invite readers to imagine the music in their mind's eye i e their mind's ear **Literary History of England** George Sherburn, Donald F. Bond, 1967 English historians in the Middle Ages is an overview of the history of English historians and their works in the Middle Ages English historians helped lay the groundwork for modern historical methodology provided vital accounts of the early history of England its culture and revelations about the historians themselves The most remarkable

period of historical writing was during the High Middle Ages in the 12th and 13th centuries when English chronicles produced works with a variety of interest, wealth of information and amplitude of range. However, one might choose to view the reliability.

**Art's Emotions** Damien Freeman, 2014-09-03. Despite the very obvious differences between looking at Manet's *Woman with a Parrot* and listening to Elgar's *Cello Concerto*, both experiences provoke similar questions in the thoughtful aesthete: why does the painting seem to express reverie and the music nostalgia? How do we experience the reverie and nostalgia in such works of art? Why do we find these experiences rewarding in similar ways? As our awareness of emotion in art and our engagement with art's emotions can make such a special contribution to our life, it is timely for a philosopher to seek to account for the nature and significance of the experience of art's emotions. Damien Freeman develops a new theory of emotion that is suitable for resolving key questions in aesthetics. He then reviews and evaluates three existing approaches to artistic expression and proposes a new approach to the emotional experience of art that draws on the strengths of the existing approaches. Finally, he seeks to establish the ethical significance of this emotional experience of art for human flourishing. Freeman challenges the reader not only to consider how art engages with emotion but how we should connect up our answers to questions concerning the nature and value of the experiences offered by works of art.

**Rooted** David R. Pichaske, 2009-05. David Pichaske has been writing and teaching about midwestern literature for three decades. In *Rooted*, by paying close attention to text, landscape and biography, he examines the relationship between place and art. His focus is on seven midwestern authors who came of age toward the close of the twentieth century: their lives and their work grounded in distinct places. Dave Etter in small town upstate Illinois, Norbert Blei in Door County, Wisconsin, William Kloefkorn in southern Kansas and Nebraska, Bill Holm in Minnesota, Linda Hasselstrom in Hermosa, South Dakota, Jim Heynen in Sioux County, Iowa, and Jim Harrison in upper Michigan. The writers' intimate knowledge of place is reflected in their use of details of geography, language, environment and behavior. Yet each writer reaches toward other geographies and into other dimensions of art or thought: jazz music and formalism in the case of Etter, gender issues in the case of Hasselstrom, time past and present in the case of Kloefkorn, ethnicity and the role of the artist in the case of Blei, magical realism in the case of Heynen, the landscape of literature in the case of Holm, and the curious worlds of academia, best-selling novels and Hollywood films in the case of Harrison. The result, Pichaske notes, is the growing away from roots, the explorations and alter egos of these writers of place and the tension between the here and there that gives each writer's art the complexity it needs to transcend provincial boundaries. Quoting generously from the writers, Pichaske employs a practical, jargon-free literary analysis, fixed in the text, making *Rooted* interesting, readable and especially useful in treating the literary categories of memoir and literary essay that have become important in recent decades.

*The Collected Poems of Frank O'Hara* Frank O'Hara, 1995-03-31. Available for the first time in paperback, *The Collected Poems of Frank O'Hara* reflects the poet's growth as an artist from the earliest dazzling experimental verses that he began writing in the late 1940s to the years before his

**Men and Women Writers of the 1930s** Jan Montefiore, 1996 Jan Montefiore presents an original and challenging critique of the issues of memory and gender during the 1930s The book looks at the part played by memory in the political literature of the era and at the roles of women at that time

**The Social Nature of Persons** A.P. Tom Ormay, 2018-05-08 This book is a theoretical study of many interconnected facets of the social unconscious and the social part of the personality It takes us from what we thought we knew and knew we thought to the unthought and the unknown which is indeed both disturbing and creative

**Nonlinear Temporality in Joyce and Walcott** Sean Seeger, 2017-11-22 Nonlinear Temporality in Joyce and Walcott is the first dedicated comparative study of James Joyce and Derek Walcott The book examines the ways in which both Joyce's fiction and Walcott's poetry articulate a nonlinear conception of time with radical cultural and political implications For Joyce and Walcott equally the book argues it is only by reconceiving time in this way that it becomes possible to envisage a means of escape from what Joyce calls force hatred history and what Walcott calls the madness of history seen as sequential time A starting point for the comparisons drawn between Joyce and Walcott is their relationship to Homer Joyce's Ulysses is in one respect a rewriting of Homer's Odyssey Walcott's Omeros stands in an analogous relationship to the Iliad This book argues that these acts of rewriting far from being instances of influence intertextuality or straightforward repetition exemplify Joyce and Walcott's complex stance not just toward literary history but toward the idea of history as such The book goes on to

demonstrate how an enhanced appreciation of the role of nonlinear temporality in Joyce and Walcott can help to illuminate numerous other aspects of their work      1960 Al Filreis, 2021-10-26 In 1960 when World War II might seem to have been receding into history a number of artists and writers instead turned back to it They chose to confront the unprecedented horror and mass killing of the war searching for new creative and political possibilities after the conservatism of the 1950s in the long shadow of genocide Al Filreis recasts 1960 as a turning point to offer a groundbreaking account of postwar culture He examines an eclectic group of artistic literary and intellectual figures who strove to create a new language to reckon with the trauma of World War II and to imagine a new world Filreis reflects on the belatedness of this response to the war and the Holocaust and shows how key works linked the legacies of fascism and antisemitism with American racism In grappling with the memory of the war he demonstrates artists reclaimed the radical elements of modernism and brought forth original ideas about testimony to traumatic history 1960 interweaves the lives and works of figures across high and popular culture including Chinua Achebe Hannah Arendt James Baldwin Amiri Baraka Paul Celan John Coltrane Frantz Fanon Roberto Rossellini Muriel Rukeyser Rod Serling and Louis Zukofsky and considers art forms spanning poetry fiction memoir film painting sculpture teleplays musical theater and jazz A deeply interdisciplinary cultural literary and intellectual history this book also offers fresh perspective on the beginning of the 1960s
