Shaping the Church Martyn Percy, 2016-04-01 This book seeks to dynamically alter the way that theologians ecclesiologists students of religion and ministers look at the church Taking the ideas of composition formation and vocation as basic ecclesial categories Martyn Percy explores how apparently innocent and incidental material is in fact highly significant for the shaping of theological and ecclesiological horizons The Introduction sets the tone with a meditation on how the apparently ordinary scent of a country church can be redolent with meaning setting the tone of expectation in relation to subsequent worship This book is not however simply about reading meanings into events ideas conversations and contexts Rather it sets out to faithfully interpret much of the material that surrounds us yet is often taken for granted or more usually unnoticed The book is an invitation to involve the scholar or minister paying close and patient attention to beliefs language artefacts rituals practices and other material all of which are constitutive for ecclesial life and theological identity

Mozart's Journey to Prague and Selected Poems Eduard Mörike, 2003-05-01 The novella Mozart's Journey to Prague 1855 is an imaginary recreation of the journey Mozart made from Vienna in 1787 to conduct the first performance of Don Giovanni Set in the rococo world of the Bohemian nobility it is a charming and playful evocation of Mozart's inner life and creative processes Morike is one of Germany's greatest lyric poets after Goethe His poetry combines classicism romanticism with elements of the traditional folk or faery tale This edition contains all the poems for which he is most admired including the comic idyll The Auld Weathercock **Classical Weekly**, 1932 **Rhythm and Will in Victorian Poetry** Matthew Campbell, 1999-04-22 In Rhythm and Will in Victorian Poetry first published in 1999 Matthew Campbell explores the work of four Victorian poets Tennyson Browning Hopkins and Hardy as they show a consistent and innovative concern with questions of human agency and will The Victorians saw the virtues attendant upon a strong will as central to themselves and to their culture and Victorian poetry strove to find an aesthetic form to represent this sense of the human will Through close study of the metre rhyme and rhythm of a wide range of poems including monologue lyric and elegy Campbell reveals how closely technical questions of poetics are related in the work of these poets to issues of psychology ethics and social change He goes on to discuss more general questions of poetics and the implications of the achievement of the Victorian poets in a wider context from Milton through Romanticism and into contemporary critical debate **Selected Poems** Herman Gorter, 2021-11-02 This is the most extensive selection in English of poems by one of the all time great Dutch poets Herman Gorter 1864 1927 A companion volume to M Kruijff's translation of the epic May this book welcomes the reader to the rich

spectrum of Gorter's lyric verse. The selection traces the stages of Gorter's career as a poet. It opens with 22 poems from his introverted, sensitive *Verses Verzen* 1890, which have been called the beginning of modern Dutch poetry. These are followed by poems from later collections in which Gorter was transitioning to a less self and more world-focused perspective. In the subsequent passages from the long epic *Pan* 1912-1916, he has clearly become a socialist poet, albeit in a unique visionary sense. He is now pursuing a theme which will obsess him for the rest of his life: how to address the object of his love as both an individual woman and an incarnate summation of all humanity. The rest of the book comprises the first publication in English of Gorter's little-known last work *Lyrics Liedjes* 1930. Haft's judicious abridgment reserves the structure, erotic themes, and lyric high points of this outstanding sequence, which originally occupied three volumes. In Haft's version, Gorter sounds the way he should sound: musical and sensitive at times, groping at other times, jubilant, always sure of himself and amazing. For readers of English, it will be a feast to be able to make his acquaintance via this translation. Piet Gerbrandy, winner of the Herman Gorter Prize.

The Conservative Case for Education Nicholas Tate, 2017-07-20. The Conservative Case for Education argues that educational thinking in English-speaking countries over the last fifty years has been massively influenced by a dominant liberal ideology based on unchallenged assumptions. Conservative voices pushing against the current of this ideology have been few but powerful and drawn from across the political spectrum. The book shows how these twentieth-century voices remain highly relevant today, using them to make a conservative case for education. Written by a former government adviser and head teacher, the book focuses on four of the most powerful of these conservative voices: the poet and social critic T. S. Eliot, the philosopher Michael Oakeshott, the political thinker Hannah Arendt, and the educationist E. D. Hirsch. In the case of each thinker, the book shows how their ideas throw fresh light on contemporary educational issues. These issues range widely across current educational practice and include creativity, cultural literacy, mindfulness, the place of religion in schools, education for citizenship, the teaching of history and Classics, the authority of the teacher, the arguments for and against a national curriculum, the educational response to cultural diversity, and more. A concluding chapter sums up the conservative case for education in a set of Principles that would be acceptable to many from the Left as well as the Right of the political spectrum. The book should be of particular interest to educators and educational policy makers at a time when conservative governments are in power in the UK and the USA, as well as to researchers, academics, and postgraduate students engaged in the study of educational policy or those studying educational issues from an ethical, philosophical, and cultural standpoint.

[The Current Debate about the Irish Literary Canon](#) Helen Thompson, 2006. Intended as a response to the publication *The Field Day Anthology of Irish Writing* in 1991, this collection of essays examines the canonical status of writers such as Joyce, Yeats, and Beckett, how postcolonial theory and criticism have reshaped the boundaries of Irish Studies, and how women's writing has challenged canonicity as a concept.

Sinister Resonance David Toop, 2010-06-24 Sinister Resonance begins with the premise that sound is a haunting a ghost a presence whose location is ambiguous and whose existence is transitory The intangibility of sound is uncanny a phenomenal presence in the head at its point of source and all around The close listener is like a medium who draws out substance from that which is not entirely there The history of listening must be constructed from the narratives of myth and fiction silent arts such as painting the resonance of architecture auditory artefacts and nature In such contexts sound often functions as a metaphor for mystical revelation forbidden desires formlessness the unknown and the unconscious As if reading a map of hitherto unexplored territory Sinister Resonance deciphers sounds and silences buried within the ghostly horrors of Arthur Machen Shirley Jackson Charles Dickens M R James and Edgar Allen Poe Dutch genre painting from Rembrandt to Vermeer artists as diverse as Francis Bacon and Juan Munoz and the writing of many modernist authors including Virginia Woolf Samuel Beckett and James Joyce
