discrimination and union organizing efforts The volume demonstrates the negative effects for union workers of arbitration agreements that undermine civil rights legislation in the workplace It also provides a detailed case study of the nature and extent of racial conflict within a major industrial union and analyzes and suggests policy changes that would increase the political and economic power of American workers as a whole while aggressively attacking racism in social economic and political institutions African Americans Labor and Society presents strategies for creating better opportunities for African Americans through private sector employment that will appeal to legal union and labor students and scholars as well as economists
