Constructing Genocide and Mass Violence Maureen S. Hiebert, 2017-03-16 This book addresses two closely related questions: what is the process by which the relatively short and violent genocides of the twentieth century and beyond have occurred? Why have these instances of mass violence been genocidal and not some other form of state violence, repression, or conflict? Hiebert answers these questions by exploring the structures and processes that underpin the decision by political elites to commit genocide, focusing on a sustained comparison of two cases: the Nazi Final Solution and the Cambodian genocide. The book clearly differentiates the structures and processes contained within a larger overall process that leads to genocidal violence. Uncovering the mechanisms by which societies at least in the contemporary era come to experience genocide as a distinct form of destruction and not some other form of mass or political violence, Hiebert is able to highlight a set of key processes that lead to specifically genocidal violence. Providing an insightful contribution to the burgeoning literature in this area, this book will be of interest to students and scholars of genocide, international relations, and political violence.

Sources of Vietnamese Tradition George Edson Dutton, Jayne Susan Werner, John K. Whitmore, 2012 Sources of Vietnamese Tradition provides an essential guide to two thousand years of Vietnamese history and a comprehensive overview of the society and state of Vietnam. Strategic selections illuminate key figures, issues, and events while building a thematic portrait of the country's developing territory, politics, culture, and relations with neighbors. The volume showcases Vietnam's remarkable independence in the face of Chinese and other external pressures and respects the complexity of the Vietnamese experience both past and present. The anthology begins with selections that cover more than a millennium of Chinese dominance over Vietnam (111 B.C.E. - 939 C.E.) and follows with texts that illuminate four centuries of independence ensured by the Lý, Trần, and Hồ dynasties (1009-1407). The earlier cultivation of Buddhism and Southeast Asian political practices by the monarchy gave way to two centuries of Confucian influence and bureaucratic governance (1407-1600) based on Chinese models, and three centuries of political competition between the north and the south, resolving in the latter's favor (1600-1885). Concluding with the colonial era and the modern age, the volume recounts the ravages of war and the creation of a united, independent Vietnam in 1975. Each chapter features readings that reveal the views, customs, outside influences, and religious and philosophical beliefs of a rapidly changing people and culture. Descriptions of land, society, economy, and governance underscore the role of the past in the formation of contemporary Vietnam and its relationships with neighboring countries and the West.

The Vietnam War from the Other Side Cheng Guan Ang, 2013-07-04 Existing studies of the Vietnam War have been written mostly from an American perspective, using western sources and viewing the conflict through western eyes. This book, based on extensive original research including Vietnamese, Chinese, and former Soviet

sources presents a history of the war from the perspective of the Vietnamese communists It charts relations with Moscow and Beijing showing how the involvement of the two major communist powers changed over time and how the Vietnamese despite their huge dependence on the Chinese and the Soviets were most definitely in charge of their own decision making Overall it provides an important corrective to the many one sided studies of the war and presents a very interesting new perspective

Transplanting Commercial Law Reform John Gillespie,2017-03-02 The first sustained analysis examining legal transplantation into East Asia this volume examines the prospects for transplanting a rule of law that will attract and sustain international trade and investment in this economically dynamic region The book develops both a general model that explains how legal transplantation shapes legal development in the region whilst developing theoretical insights into the political economic and legal discourses guiding commercial law reforms in Vietnam For the first time this book develops a research methodology specifically designed to investigate law reform in developing East Asia In so doing it challenges the relevance of conventional convergence and divergence explanations for legal transplantation that have been developed in European and North American contexts As the first finely grained analysis of legal development in Vietnam the book will be invaluable to academics and researchers working in this area It will also be of interest to those involved in commercial legal theory

The Vietnam wars Kevin Ruane,2024-06-04 This source book chronicles the history of the most controversial conflict of the 20th century beginning with the birth of the Vietnamese communist party in 1930 and ending with the Vietnamese revolution in 1975 The text combines short essays with original documents to illustrate the debate Alongside the dominating American intervention the study also focuses on the international dimension of the conflict particularly the role of the Soviet Chinese and British but it is the Vietnamese perspective that remains key

War By Other Means Carlyle A. Thayer,2021-12-27 This book first published in 1989 examines the creation and implementation of Communist policy in Vietnam during the crucial period between the 1954 Geneva Conference and the establishment of the National Front for the Liberation of South Vietnam in December 1960 This study challenges long held views about the origins and nature of the Viet Cong It carefully examines the various stages in the struggle for national liberation during this period reviews the consequences of the failure of purely political means to achieve reunification and then focuses on the struggle between the Diem regime and the Communists

People's Diplomacy of Vietnam Harish C. Mehta, 2019-08-20 This is the first full length book on the concept of People's Diplomacy promoted by the president of North Vietnam Ho Chi Minh at the peak of the Vietnam War from 1965 1972 It holds great appeal for historians international relations scholars diplomats and the general reader interested in Vietnam A form of informal diplomacy people's diplomacy was carried out by ordinary Vietnamese including writers cartoonists workers women students filmmakers medical doctors academics and sportspersons They created an awareness of the American bombardment of innocent Vietnamese civilians and made profound connections with the anti war movements abroad People's diplomacy made it difficult for the United States to prolong the war because the North Vietnamese together with the peace movements abroad exerted popular pressure on the American presidents Lyndon Johnson and Richard Nixon to end the conflict It was much more effective than the formal North Vietnamese diplomacy in gaining the support of Westerners who were averse to communism It damaged the reputation of the United States by casting North Vietnam as a victim of American imperialism

Our Vietnam A. J. Langguth, 2000-11-15 Winner of the Overseas Press Club s Cornelius J Ryan Award for Best Nonfiction Book the Commonwealth Club of California s Gold Medal for Nonfiction and the PEN Center West Award for Best Research Nonfiction Twenty five years after the end of the Vietnam War historian and journalist A J Langguth delivers an authoritative account of the war based on official documents not available earlier and on new reporting from both the American and Vietnamese perspectives In *Our Vietnam* Langguth takes us inside the waffling and deceitful White Houses of Kennedy Johnson and Nixon documents the ineptness and corruption of our South Vietnamese allies and recounts the bravery of soldiers on both sides of the war With its broad sweep and keen insights *Our Vietnam* brings together the kaleidoscopic events and personalities of the war into one engrossing and unforgettable narrative *Nixon, Ford and the Abandonment of South Vietnam* J. Edward Lee, H.C. "Toby" Haynsworth, 2015-10-03 South Vietnam fell because of events occurring thousands of miles away from the battlefields in China the Soviet Union Latin America the Middle East and Washington s corridors of power along protest lines and around America s dinner tables These other wars being fought by American presidents Richard Nixon and Gerald Ford profoundly impacted what happened in Vietnam This work examines those other conflicts and the political social and economic factors involved with them that distracted and crippled the presidencies of Richard Nixon and Gerald Ford and led to the eventual abandonment of the U S supported South Vietnamese regime Nixon entered office with the goal of bringing the world together but saw that goal ruined by the 1973 war in the Middle East preoccupations with China and the Soviet Union a weak economy Watergate and his disgraceful exit from the White House Ford s presidency was tainted almost from the beginning because of the pardon he granted to Nixon but the American public tired of war and concerned about the economy was ready to hear that the war had come to an end An argument is presented that the war could have been won if the other wars had been fought by presidents willing to honor the American commitment to its allies in South Vietnam **The Found Generation** Marilyn A. Levine, 2016-06-01 In contrast to the Lost Generation of youth in the West who were disoriented and disillusioned by the First World War and its aftermath the Chinese youth born between 1895 and 1905 not only believed they had a duty to save their nation but pursued their goal through social and political experimentation The vigorous purpose and optimism of this Found Generation contrasted with the apathy and detachment of their Western counterparts who followed a different path in coming to terms with the new world of the twentieth century Just after the First World War sixteen hundred Chinese young men and women traveled to Europe most of them to France as members of the Work Study Movement Their goal was to study Western technology and culture and utilize this knowledge to achieve national salvation and they planned to finance their study at European schools by factory work While in Europe many

of these students became politicized partly through their exposure to European political ideas such as Marxism and partly through the social network based on shared experience that transcended what would have separated them in China. One important result of this political activity was the formation of the European Branches of the Chinese Communist Organizations (ECCO). The Found Generation explores the origins, development, and significance of the ECCO, highlights the differences between it and the Communist home organization, and describes its impact on the Chinese Communist Party. The founders of the ECCO shared values and goals with their compatriots in China, but their experiences and opportunities in Europe molded them in different ways that can be traced in their later careers. On their return to China, many of the young activists, including Zhou Enlai, Deng Xiaoping, Chen Yi, Cai Hesen, Li Lisan, Zhu De, Nie Rongzhen, and Wang Ruofei, quickly assumed powerful positions in Chinese politics, and their influence is still felt today. Levine's examination of the early experiences of this important cohort of Chinese leaders helps explain their adherence to the Leninist concept of Party discipline and their tenacious hold over central governmental power. The Found Generation is a pioneering study based on original sources, including interviews with several prominent participants in the Work Study Movement and the ECCO. Chinese studies and memoirs and Chinese and French periodicals. It provides otherwise unavailable information and analysis about the political leadership of modern China, and by pointing out the differences between the Chinese radicals in Europe and in China, it furthers our understanding of the conflicts, motivations, and values of modern Chinese leaders.

River Warfare in Vietnam Robin L. Rieley, 2024-02-08. America's entrance into the wars in Vietnam came as a result of several factors. Among them was the necessity of bolstering French influence in the area in the face of mounting communist expansion. This expansion was intensified by the outbreak of the Korean War, making it necessary for the United States to revamp its Southeast Asian policy. During the French era, control of Vietnam's rivers, streams, and canals became necessary. This led various factions to develop specialized military units heavily dependent on new types of river craft that could traverse the myriad waterways in Vietnam. The focal point of this study is a new assessment of the conduct of river warfare. Drawing on little-known French, Vietnamese, and American sources and materials, it sheds light on an important aspect of the Vietnam War. Chapters also detail numerous aspects of river warfare not generally covered in other books on the subject.
