The Select Speeches Daniel O'Connell, 1871 **Mirrors for Princes** Michael Keeley, 2024-09-02 A historical look at the roots of management theory reveals its flaws and offers important lessons for today's leaders. For four thousand years kings and queens ruled the known world while management experts in the guises of sages, clerics and courtiers of all kinds told them how to do it. These proto experts in leadership ethics and strategy wrote books describing the perfect prince. In such books rulers could seek and polish their own reflection as in a looking glass. These books were called mirrors for princes. Mirrors for Princes documents the clichés of this genre of literature. Typical mirrors taught the same formula over and over that people behave badly because of their pursuit of self interest which needs to be harnessed to a common goal by the ruler or leader. Eighteenth century revolutions spelled the demise of princes and books that sought to instruct them. Today the clichés of mirrors for princes live on in modern mirrors for managers. The rhetoric of common goals and transformational leadership has a pleasing resonance for top managers affirming their authority just as it did for kings and queens in mirrors for princes. Keeley's goal is to sensitize readers to these clichés and to provide today's business leaders with the tools to think more critically when reading business books. Mirrors for Princes concludes with advice for writers of management literature suggesting how organizational theorists and business ethicists might avoid replicating the clichés of mirrors for princes by adopting a social contract model of organizations.

Indigenous African Popular Music, Volume 2 Abiodun Salawu, Israel A. Fadipe, 2022-06-14 This volume examines how African indigenous popular music is deployed in democracy politics and for social crusades by African artists. Exploring the role of indigenous African popular music in environmental health communication and gender empowerment it subsequently focuses on how the music portrays the African future its use by African youths and how it is affected by advanced broadcast technologies and the digital media. Indigenous African popular music has long been under appreciated in communication scholarship. However understanding the nature and philosophies of indigenous African popular music reveals an untapped diversity which can only be unraveled by the knowledge of myriad cultural backgrounds from which its genres originate. With a particular focus on scholarship from Nigeria Zimbabwe and South Africa this volume explores how during the colonial period and post independence dispensation indigenous African music genres and their artists were mainstreamed in order to tackle emerging issues to sensitise Africans about the affairs of their respective nations and to warn African leaders who have failed and are failing African citizenry about the plight of the people. At the same time indigenous African popular music genres have served as a beacon to the teeming African youths to express their dreams frustrations about their environments and to represent themselves. This volume explores how through the advent of new media technologies indigenous African popular musicians have been working relentlessly for indigenous production becoming champions of good governance marginalised population and repositories of

indigenous cultural traditions and cosmologies
