literary and cultural crisis in Britain at the end of the nineteenth century **The Rule of the Clan** Mark S.

Weiner, 2013-03-12 A revealing look at the role kin based societies have played throughout history and around the world A lively wide ranging meditation on human development that offers surprising lessons for the future of modern individualism The Rule of the Clan examines the constitutional principles and cultural institutions of kin based societies from medieval Iceland to modern Pakistan Mark S Weiner an expert in constitutional law and legal history shows us that true individual freedom depends on the existence of a robust state dedicated to the public interest In the absence of a healthy state he explains humans naturally tend to create legal structures centered not on individuals but rather on extended family groups The modern liberal state makes individualism possible by keeping this powerful drive in check and we ignore the continuing threat to liberal values and institutions at our peril At the same time for modern individualism to survive liberals must also acknowledge the profound social and psychological benefits the rule of the clan provides and recognize the loss humanity sustains in its transition to modernity Masterfully argued and filled with rich historical detail Weiner s investigation speaks both to modern liberal societies and to developing nations riven by clannism including Muslim societies in the wake of the Arab Spring Designing and Implementing Global Selection Systems Ann G. Britain Enforcing the Peace, 1918-1923

John D Grainger, 2025-01-30 Details the British Navy's efforts during the post Great War period facing challenges in the Near East from the Russian Revolution to Turkish resurgence under Mustafa Kemal The end of the Great War in the Near East began with the Turkish Armistice but was not complete until the final peace treaty in 1923 During that five year period the British Navy dealt with the overspill from the Russian Revolution in the Caucasus the Caspian Sea and Central Asia as well and then in the Aegean Sea and the Straits confronting the resurgent Turkish forces under Mustafa Kemal The British in India were very concerned about Bolshevik activities in Central Asia and had sent two battalions of Indian troops under a British general to attempt to cope with it They were successful in battle against larger forces but politically they were unable to reach any sort of settlement They were withdrawn when an Afghan war broke out A second expedition was sent early in 1918 from Iraq through Persia to gain control of the oil fields at Baku in Azerbaijan The object here was to prevent the oil falling into German or Turkish hands This was an expedition at the limit of military capabilities but it did succeed in seizing Baku and preventing a German conquest In the process ships in the Caspian Sea were captured and turned into a Caspian Sea flotilla to fight Russian Bolshevik advances These adventures happened before the Turkish Armistice Constantinople had been occupied but holding it became increasingly difficult and required the use of considerable forces mainly British The other allies gradually faded away or adopted the Turkish side The resurgence of Turkish power in Anatolia eventually led to a tense confrontation between British and Turkish forces at Chanak on the Dardanelles and a difficult negotiation between generals The result was a truce British withdrawal from all occupied areas and the collapse of the Lloyd George government in Britain which was prepared to indulge in another war over the issues
