Canada India Germany Greece and Romania with different academic backgrounds in fields as diverse as literature art history social studies criminology musicology and cultural studies and provides answers to questions such as What are the features of death representations in certain literary genres Is it possible to speak of an homogeneous vision of death in the case of some literary movements How do writers perceive imagine and describe their death through their personal diaries or how do they metabolize the death of the significant others through their writings To what extent does the literary representation of death refer to the extra fictional socio historically constructed Death Is it moral to represent death in children's literature What are the differences and similarities between representing death in literature and death representations in other connected fields Are metaphors and literary representations of death forms of death denial or on the contrary a more insightful way of capturing the meaning of death Selected Poems of John Updike John Updike, Christopher Carduff, 2018-10-23 The best from Updike's lifework in poetry 129 witty and intimate poems that when read together take on the quality of an autobiography in verse By a master of American letters and the author of the acclaimed Rabbit series Updike s gift for close observation in these poems as elsewhere is near to supernatural The New York Times Five decades of witty intimate and moving poems written between 1953 and 2008 with the cumulative force of an unfolding verse diary Though John Updike is widely known as one of America's greatest writers of prose both his first book and his last were poetry collections and in the fifty years between he published six other volumes of verse Now six years after his death Christopher Carduff has selected the best from Updike's lifework in poetry 129 witty and intimate poems that when read together in the order of their composition take on the quality of an unfolding verse diary Among these poems are precocious undergraduate efforts including the previously unpublished Coming into New York frequently anthologized midcareer classics Seagulls Seven Stanzas at Easter Dog's Death and dozens of later works in a form that Updike made his own the blank verse sonnet The poems range from metaphysical epigrams and devotional poems to lyrical odes to rot growth and healing from meditations on Roman portrait busts and the fleshy canvases of Lucian Freud to observations on sash cords postage stamps and hand tools from several brief episodes in family history to a pair of long autobiographical poems the antic and eclectic Midpoint written at age thirty five and the elegiac masterpiece Endpoint completed just before his death at seventy six The variety of the work is astonishing the craftsmanship always of the highest caliber Art science popular culture foreign travel erotic love the beauty of the man made and the God given worlds these recurring topics provided Updike ever surprising occasions for wonder and matchless verbal invention His Selected Poems is as Brad Leithauser writes in his introduction a celebration of American life in the second half of the twentieth century No other writer of his time captured so much of this passing pageant And that he did so with brio and delight and nimbleness is another reason to celebrate our noble celebrant
