Nadezhda Krupskaya and the New View of Radical Society in Russia M. A. Iasilli,2024-06-25 The Russian Revolution is typically studied from a perspective of power and authority The shadow of Communism tends to portray the revolutionary character of 1917 as an ominous path toward totalitarianism While the revolutionary story has been overshadowed by the authoritarianism of Stalinist regimes the Revolution has much more complex underpinnings that tie back to the nineteenth century Russian populist movement and the women who were drawn into it Nadezhda Krupskaya and the New View of Radical Society in Russia reexamines the fundamental ideas and moments that led to the revolution and its eventual bureaucratization from the perspective of Nadezhda Krupskaya Vladimir Lenin s wife Her involvement provides a new perspective in how we should consider the role of culture as opposed to ideology particularly the subordination of Communism as well as the women in Soviet politics M A

The Communism of Love Richard Gilman-Opalsky, 2020-12-01 Exploring the meanings and powers of love from ancient Greece to the present day Richard Gilman Opalsky argues that what is called love by the best thinkers who have approached the subject is in fact the beating heart of communism understood as a way of living not as a form of government Along the way he reveals with clarity that the capitalist way of assigning value to things is incapable of appreciating what humans value most Capitalism cannot value the experiences and relationships that make our lives worth living and can only destroy love by turning it into a commodity The Communism of Love follows the struggles of love in different contexts of race class gender and sexuality and shows how the aspiration for love is as close as we may get to a universal communist aspiration
