*Song of the Immortal Beloved (Special Edition)* Erik P. Antoni, 2019-08-16      Selections from Immortal Beloved Ludwig Van (COP) Beethoven, 1995-05-01 Straight from the dramatic film Immortal Beloved this folio contains most of Beethoven's works that were used throughout the visually captivating movie Titles include Allegro from Symphony No 5 F r Elise Allegro from the Erotica Symphony Moonlight Sonata The Thunderstorm from Symphony No 6 Adagio Cantabile from the Path tique Sonata Ode to Joy from Symphony No 9 Kyrie from Missa Solemnis Rondo from the Emperor Concerto and more      Song of the Immortal Beloved Erik P. Antoni, 2018-12-09      Beethoven Barry Cooper, 2000-11-30 This major new study of Beethoven and his music is written as a single continuous narrative using a strictly chronological approach that enables each work to be seen against the musical and biographical background from which it emerged The result is a much closer integration of life and works than is often achieved The approach works particularly well for Beethoven for two reasons Firstly composition was his central preoccupation for most of his life I live entirely in my music he once wrote Secondly recent study of his large numbers of musical sketches has enabled a much clearer picture of his everyday compositional activity than was previously possible leading to many new insights into the interaction between his life and music The volume concentrates on Beethoven's artistic achievements both by examining the origins of his works and by commentary on some of their most striking and original features Statements in earlier biographies have been treated with caution and have been accepted only where they are supported by sound evidence Everything even down to the translations of individual German words has been reassessed as far as is feasible in an effort to avoid recycling old errors Many well known but fictitious anecdotes have thereby been eliminated while conversely numerous details discovered in recent years have been incorporated into a general Beethoven biography for the first time notably information derived from sketch studies and from a new edition for correspondence This volume reaches many fresh conclusions that should be of interest to both specialists and the general musical public
