Merhavy, 2019-12-03 Now more than ever the role of icons and monuments in shaping a national identity is a subject of vital importance to scholars of both nationalism and memory studies While the nation state undoubtedly has a powerful influence on a society's cultural memory it cannot necessarily control the ways in which icons are perceived Once created national symbols and perceptions of them take on a life of their own Taking an innovative approach to the study of Iranian nationalism Merhavy examines the way symbols from Iran's past have played an important role in the struggles between political religious and ideological movements over legitimacy in the last five decades Using a rich variety of primary sources he traces the process by which these symbols have been appropriated rejected and reinterpreted by the Pahlavi state the Islamic opposition and finally the Islamic Republic In doing so this volume contributes to our understanding of cultural symbols that survive political upheavals dramatic and significant as they may be It also contributes to the growing body of literature that challenges the state centered perspective of much research on modern Iran by exposing the ever growing importance of civil society in the Iranian public sphere from the second half of the twentieth century onward      **Training and Education in**

**Islam** Murtada Mutahhari, 2011-01-01 The twentieth century saw heightened tension between religious and secular approaches to education In this era of cataclysmic social change Mutahhari presented this Islamic perspective on training and education using his signature approach of applying traditional Islamic sources to contemporary questions Although in his time rote learning was prized Mutahhari emphasised the importance of critical thinking skills He also emphasised education outside of the classroom such as learning through work Taking a holistic perspective he discussed the importance of spiritual and moral training worship as a means of personal development and the importance of developing self esteem Although delivered in the 1970s these lectures remain essential reading for anyone involved in training or education      Iran Nuclear Accord and the Remaking of the Middle East Nader Entessar, Kaveh L. Afrasiabi, 2017-12-20 Entessar Afrasiabi's Iran Nuclear Negotiations Rowman Littlefield October 2015 offered a thorough analysis of the negotiation process between Iran and the 5 1 great powers about its nuclear program This book essentially builds upon it focusing this time on the final nuclear agreement the ensuing debates around it and its global and regional ramifications especially in the Middle East The first section analyzes the agreement through the prism of international relations theories using a constructivist critical theory approach This is followed by an overview of the intense debates in Iran the West and other parts of the world on the nuclear agreement and its various pros and cons not to mention the connected yet separate Iran IAEA agreement The second section covers Iran's foreign policy and its various priorities looking in particular at the impact of the nuclear deal on the country's external relations and orientations contextualized in terms of pre-existing issues and concerns and the profound influence of

the nuclear agreement on the perceptions of Iranian power in the region and beyond Iran's relations with its Arab Turkish Russian and other neighbors are discussed focusing on both the direct and indirect impact of the nuclear agreement on these relations especially the paradoxical implications of the nuclear deal with respect to the non nuclear crises in the Middle East such as the Syria Iraq crisis and the re-alignments that have put Iran at the crossroads of East and West Other issues covered include energy security regional economic cooperation the endemic sectarianism highlighted by Iran Saudi competition and the deadlock on the Middle East peace process The third section then examines the issue of a Middle East nuclear weapons free zone and the likely consequences of the Iran nuclear deal on this prospect which in turn raises the issue of regional proliferation and counterproliferation The last section explores some possible various scenarios and the challenges of implementation as a relatively long term agreement providing specific policy recommendations for the regional actors and the external powers that are stakeholders in the volatile Middle East

opportunities and common interests that lie beneath the surface      *Economic Sanctions under International Law* P. Sean Morris,2024-08-15 The effects of US secondary sanctions are broad and are often designed to cripple the target country's economy and currency. Some states have sought to circumvent these sanctions by setting up a special purpose vehicle to facilitate trade and financial transactions with the sanctioned country on humanitarian grounds. Although the nature of these special purpose vehicles is new and experimental, they are little understood, not least how they operate and function in international law. This volume addresses this gap by identifying and examining some of the legal issues that a special purpose vehicle such as the Instrument in Support of Trade Exchanges (INSTEX) generates. The collection brings together leading legal academics, sanctions practitioners and policy experts to provide an assessment of the special purpose vehicle in the context of secondary sanctions in international law. It will be of interest to researchers and academics in International law, Security law, Economic law and Comparative law      Iran Country Study Guide Volume 1 Strategic Information and Developments IBP, Inc,2012-03-03 Iran Country Study Guide Strategic Information and Developments Volume 1 Strategic Information and Developments      Consistency and Viability of Islamic Economic Systems and the Transition Process J. Marangos,2013-08-27 Consistency and Viability of Islamic Economics Systems and the Transition Process outlines the transition problem for non-market economies and creates an analytic framework for understanding the cause and effect of these economies      **The U.S. Intelligence Community** Jeffrey T Richelson,2018-05-04 The role of intelligence in US government operations has changed dramatically and is now more critical than ever to domestic security and foreign policy. This authoritative and highly researched book written by Jeffrey T Richelson provides a detailed overview of America's vast intelligence empire from its organizations and operations to its management structure. Drawing from a multitude of sources including hundreds of official documents, The US Intelligence Community allows students to understand the full scope of intelligence organizations and activities and gives valuable support to policymakers and military operations. The seventh edition has been fully revised to include a new chapter on the major issues confronting the intelligence community including secrecy and leaks, domestic spying and congressional oversight as well as revamped chapters on signals intelligence and cyber collection, geospatial intelligence and open sources. The inclusion of more maps, tables and photos as well as electronic briefing books on the book's Web site makes The US Intelligence Community an even more valuable and engaging resource for students      *Treaties and International Agreements Registered Or Filed and Recorded with the Secretariat of the United Nations* United Nations Staff,2003 *Treaties and International Agreements Registered or Filed and Recorded with the Secretariat of the United Nations*      Perspectives on Turkey's Multi-Regional Role in the 21st Century Dr Mujib Alam,2015-07-15 This book dwells upon the various aspects of the Turkish foreign policy in the different regions of the world, especially with the dawn of the twenty-first century. Turkey has attracted international attention due to a marked transformation in the country's domestic and external realms which in turn has led to an increased activism in its foreign policy actions. Particularly, Turkey's economic

rise has fuelled the country's ambition and quest for a more significant role in international affairs. These transformations have come about with the ascendance of the Adalet ve Kalkınma Partisi (AKP) or Justice Development Party (JDP) to power in 2002. Turkey under the AKP moved towards a new direction in the foreign policy and consequently endeavoured to play a larger role in West Asia, Middle East, the Balkans, southern Mediterranean, the Caucasus, Central Asia, Africa and Asia. The country has emerged as a multi-regional player having stakes and tractions on a range of issues in these regions. The several discernible aspects of Turkey's involvement are dealt with in the contributions to this volume.

**Iran-United States Claims Tribunal Reports** Iran-United States Claims Tribunal, 1991      The Energy Charter Treaty Crina Baltag, 2012-01-01

The Energy Charter Treaty (ECT) is a multilateral treaty in the energy sector entered into force in April 1998 which gained worldwide recognition mainly because of its provisions on the promotion and protection of investments. The ECT currently has over 45 contracting parties. Its popularity increased significantly in the last few years following the proliferation of disputes submitted to arbitration under Article 26 of the ECT while investors became more familiarized with the rights granted by the ECT in respect of their investments. At present more than 20 disputes between investors and contracting parties have been submitted to arbitration. The requirements of investor and investment are essential for the benefit of the protection offered by the ECT. The book suggests a comprehensive approach to the notion of investor. It analyzes the notion of investor in an inclusive manner starting with the concept of Contracting Party to the ECT and its implications in respect of the notion of investor going through nationality, permanent residency, dual nationality, companies and other legal entities and shareholders to the notion of investment and its role in defining the concept of investor under the ECT. The aim of the book is to shed light on the proper meaning of the notion of investor under the ECT considering the close relationship between the ECT and other treaties such as the ICSID Convention and arbitration rules.
