Self-attitudes and Deviant Behavior Howard B. Kaplan, 1974 **Deviant Behavior in Defense of Self** Howard B. Kaplan, 1980 **Research Issues**, 1974 Prospective Studies of Crime and Delinquency K.T. van Dusen, Sarnoff A. Mednick, 2012-12-06 Katherine Teilmann Van Dusen and Sarnoff A Mednick This introduction delineates what we consider to be three of the most important impediments to the advance of knowledge in the field of criminology The most fundamental need is for more studies of the nature and progress of criminal and delinquent careers The second need is for more prospective longitudinal studies of the etiology of crime and delinquency The third need concerns the lack of interdisciplinary research toward a more integrated understanding of delinquent and criminal behavior Criminal and Delinquent Careers The birth cohort study by Wolfgang Figlio and Sellin 1972 was heralded by many Farrington 1973 Erickson 1973 Weis 1974 as a landmark which allowed researchers to study the course of delinquency without the usual sampling biases that plagued other cross sectional research For the first time we could get a reasonable picture of when delinquency usually starts what proportion of the population engages in delinquency what types of delinquencies they engage in what proportion continue and so on Cross sectional studies do not permit the investigation of careers because cross 1 PROSPECTIVE STUDIES OF CRIME AND DELINQUENCY 2 sectional sampling includes only portions of careers for many of the individuals sampled This is just one of the many problems that restricted researchers ability to study the nature of criminal careers **Self-attitudes and Deviant Behaviour** Howard B. Kaplan, 1975 NIDA Research Monograph, 1976 **Handbook on Crime and Deviance** Marvin D. Krohn, Alan J. Lizotte, Gina Penly Hall, 2010-01-15 **Social Deviance** Howard B. Kaplan, Robert J. Johnson, 2012-12-06 The authors surveyed over 9 000 seventh grade students in the Houston Independent School District up to three times during their junior high school years and once as young adults between 1971 and 1980 Drawing on the extensive data gathered from this longitudinal survey Kaplan and Johnson develop and test a comprehensive theoretical statement about the social and social psychological processes involved in the onset and course of deviant behavior

Taking Stock of Delinquency Terence P. Thornberry, Marvin D. Krohn, 2003 This volume is the comprehensive synthesis of the empirical findings of seven important ongoing longitudinal studies of delinquency It aims to examine the extent to which these studies answer the basic question of the origins of delinquent and criminal careers despite their varying guiding theories methods and settings This book is an important resource for criminologists psychologists sociologists and students on juvenile delinquency criminology developmental psychology and deviant behavior Youth at Risk David Capuzzi, Douglas R.
