**Self-Defense and Battered Women Who Kill** Robbin S. Ogle, Susan Jacobs, 2002-08-30 Battering relationships often escalate to a point where the battered woman commits homicide When such homicides occur attention is usually focused on the final violent encounter however Ogle and Jacobs argue while that act is the last homicidal encounter it is not the only one This important study argues that the battering relationship is properly understood as a long term homicidal process that if played out to the point that contrition dissipates is very likely to result in the death of one of the parties In that context Ogle and Jacobs posit a social interaction perspective for understanding the situational cultural social and structural forces that work toward maintaining the battering relationship and escalating it to a homicidal end This book details this theory and explains how to apply it in a trial setting Elements of self defense law are problematic for battered women who kill their abusers These include imminence reasonableness of the victim s perception of danger and reasonableness of the victim s choice of lethal violence and their proportionality Social interaction theory argues that once contrition dissipates imminence is constant The victim functions in an unending state of extreme tension and fear This allows us to understand the victim s view of the violence as escalating beyond control thereby increasing her reasonable perception of danger and lethality After social resources for whatever reason fail to end the violence it is then reasonable for the victim to conclude that she will have to act in her own defense in order to survive *A Law of Her Own* Caroline Forell, Donna Meredith Matthews, 2001-05 A proposal to radically change the legal concept of the reasonable man standard in order to better protect women from violence and other injustices *Defending Battered Women on Trial* Elizabeth A. Sheehy, 2013-12-15 In the landmark Lavallee decision of 1990 the Supreme Court of Canada ruled that evidence of battered woman syndrome was admissible in establishing self defence for women accused of killing their abusive partners This book looks at the legal response to battered women who killed their partners in the fifteen years since Lavallee Elizabeth Sheehy uses trial transcripts and a case study approach to tell the stories of eleven women ten of whom killed their partners She looks at the barriers women face to just leaving the various ways in which self defence was argued in these cases and which form of expert testimony was used to frame women s experience of battering Drawing upon a rich expanse of research from many disciplines she highlights the limitations of the law of self defence and the costs to women undergoing a murder trial In a final chapter she proposes numerous reforms In Canada a woman is killed every six days by her male partner and about twelve women per year kill their male partners By illuminating the cases of eleven women this book highlights the barriers to leaving violent men and the practical and legal dilemmas that face battered women on trial for murder *The SAGE Handbook of Domestic Violence* Todd K. **Women and Feminist Lawmaking** Elizabeth M. Schneider,2008-10-01 Women s rights advocates in the United States have long argued that violence against women denies women equality and citizenship but it took a movement of feminist activists and lawyers beginning in the late 1960s to set about realizing this vision and transforming domestic violence from a private problem into a public harm This important book examines the pathbreaking legal process that has brought the pervasiveness and severity of domestic violence to public attention and has led the United States Congress the Supreme Court and the United Nations to address the problem Elizabeth Schneider has played a pioneering role in this process From an insider s perspective she explores how claims of rights for battered women have emerged from feminist activism and she assesses the possibilities and limitations of feminist legal advocacy to improve battered women s lives and transform law and culture The book chronicles the struggle to incorporate feminist arguments into law particularly in cases of battered women who kill their assailants and battered women who are mothers With a broad perspective on feminist lawmaking as a vehicle of social change Schneider examines subjects as wide ranging as criminal prosecution of batterers the civil rights remedy of the

Violence Against Women Act of 1994 the O J Simpson trials and a class on battered women and the law that she taught at Harvard Law School Feminist lawmaking on woman abuse Schneider argues should reaffirm the historic vision of violence and gender equality that originally animated activist and legal work *Legítima defensa en situaciones sin confrontación* María Camila Correa Flórez, 2024-02-01 Aquel que mata a otro para defenderse a si mismo o a un tercero act a de manera no contraria a derecho si la agresi n de la que es victima es actual y su reacci n defensiva es racionalmente necesaria no ha provocado el ataque en su contra y lo mueve un animo defensivo Esta afirmaci n es el contenido de la leg tima defensa A simple vista parece sencillo evaluar cuando esta figura cobija la conducta de una persona y cuando no lo hace pero como en todo hay situaciones grises difusas hay casos en los que la configuraci n de la leg tima defensa no se establece en el primer nivel de analisis sino despu s de un examen profundo de las circunstancias concretas en las que tienen lugar los hechos Este es el caso de las mujeres tiranizadas que matan a sus parejas agresoras en situaciones donde no hay confrontaci n por un lado ellas cometen un acto t pico de matar que dependiendo de las diferentes regulaciones penales de los pa ses va a encajar dentro del tipo penal de homicidio agravado asesinato parricidio etc Adem s de lo anterior por la situaci n en la que se encuentra el agresor en el momento de su muerte dormido borracho desprevenido se dice que concurre la alevos a lo que va a influir en la calificaci n de la conducta punible de la mujer y como es evidente en la pena que se le va a imponer pero por el otro lado la actuaci n de estas mujeres se enmarca en un contexto de violencia reiterada en su contra y esta dirigida a defenderse a si mismas Y en este punto hilamos con el problema objeto del presente trabajo por mas que la acci n de la mujer es un acto claro de defensa el supuesto de hecho parece dif cil de encajar dentro de la eximente de responsabilidad penal que precisamente permite matar a otro para defenderse la leg tima defensa La finalidad principal de este trabajo es poner de manifiesto como haciendo una correcta interpretaci n de los requisitos de configuraci n de la leg tima defensa es posible aplicarla a algunos casos de mujeres maltratadas que en el marco de una situaci n personal devastadora matan a sus agresores en momentos donde no hay confrontaci n La presente investigaci n busca ser una llamada o mejor un grito de auxilio que haga visible la situaci n de desesperaci n y desprotecci n en la que se hallan las mujeres maltratadas que es el resultado de una desigualdad estructural en la que hist ricamente se encuentran las mujeres con respecto a los hombres

**Human Rights and Personal Self-Defense in International Law** Jan Arno

Hessbruegge,2016-12-13 While an abundance of literature covers the right of states to defend themselves against external aggression this is the first book dedicated to the right to personal self defense in international law Drawing on his extensive experience as a human rights practitioner and scholar Dr Hessbruegge sets out in careful detail the strict requirements that human rights impose on defensive force by law enforcement authorities especially police killings in self defense The book also discusses the exceptional application of the right to personal self defense in military led operations notably to contain violent civilians who do not directly participate in hostilities Human rights also establish parameters on how broad or narrow the laws can be drawn on self defense between private persons Setting out the prevailing international standards the book critically examines the ongoing trend to excessively broaden self defense laws It also refutes the claim that there is a human right to possess firearms for self defense purposes In extraordinary circumstances the right to personal self defence sharpens human rights and allows people to defend themselves against the state Here the author establishes that international law gives individuals the right to forcibly resist human rights violations that pose a serious risk of significant and irreparable harm At the same time he calls into question prevailing state practice which fails to recognize any collective right to organized armed resistance even when it constitutes the last resort to defend against genocide or other mass atrocities
