Self-Development and Transcendence D. B. Clark, 2000-12-29 Two thirds of the way through my thirty eight year career as a Clinical Psychologist I felt the need to describe and understand exactly what I had been doing as I attempted to help counselees and why I seemed to be successful This self analysis forced me to develop working definitions of life consciousness freewill self development and self transcendence and led me to conclude that to be successful in psychotherapy counselees must be taught the effective use of consciousness Sharing what I have learned is my way of thanking those thousands of counselees who have shared their lives with me and enabled me to learn about myself I also hope that reading this book will encourage my psychotherapeutic colleagues to put even more effort into their own self analysis For me the effort was worthwhile At the close of my career I am finally comfortable that what I was doing was exactly what I should have been doing
