Selfdetermination And The Moral Act A Study Of The Contributions Of Odon Lottin Osb:

Self-determination and the Moral Act Mary Jo Iozzio,1995 **History of Catholic Theological Ethics**, A Keenan, James F., SJ,2022 An introduction to Catholic theological ethics through the lens of its historical development from the beginning of the church until today **A History of Catholic Moral Theology in the Twentieth Century** James F. Keenan,2010-01-17 This is an historical survey of 20th Century Roman Catholic Theological Ethics also known as moral theology The thesis is that only through historical investigation can we really understand how the most conservative and negative field in Catholic theology at the beginning of the 20th could become by the end of the 20th century the most innovative one The 20th century begins with moral manuals being translated into the vernacular After examining the manuals of Thomas Slater and Henry Davis Keenan then turns to three works and a crowning synthesis of innovation all developed before during and soon after the Second World War The first by Odon Lottin asks whether moral theology is adequately historical Fritz Tillmann asks whether it s adequately biblical and Gerard Gilleman whether it s adequately spiritual Bernard Haering integrates these contributions into his Law of Christ Of course people like Gerald Kelly and John Ford in the US are like a few moralists elsewhere classical gate keepers censoring innovation But with Humanae vitae and successive encyclicals bishops and popes reject the direction of moral theologians At the same time moral theologians like Josef Fuchs ask whether the locus of moral truth is in continuous universal teachings of the magisterium or in the moral judgment of the informed conscience In their move toward a deeper appreciation of their field as forming consciences they turn more deeply to local experience where they continue their work of innovation Each continent subsequently gives rise to their own respondents In Europe they speak of autonomy and personalism in Latin America liberation theology in North America Feminism and Black Catholic theology and in Asia and Africa a deep post colonial interculturatism At the end I assert that in its nature theological ethics is historical and innovative seeking moral truth for the conscience by looking to speak crossculturally **The Oxford Handbook of Theological Ethics** Gilbert Meilaender,William Werpehowski,2007-08-09 Annotation What are the practical and theoretical issues that concern and shape theological ethics This handbook offers a guide to the discipline Written by an international group of 30 scholars the book is aimed at all students and academics who want to explore more fully essential topics in Christian ethics Journal of Moral Theology, Volume 6, Special Issue 2 Miguel J. Romero,Mary Jo Iozzio,2017-09-22 Engaging Disability Edited by Miguel J Romero and Mary Jo Iozzio Preface Engaging Disability Mary Jo Iozzio and Miguel J Romero God Bends Over Backwards to Accommodate Humankind While the Civil Rights Acts and the Americans with Disabilities Act Require Only the Minimum Mary Jo Iozzio On And Vulnerable Catholic Social Thought and the Social Challenges of Cognitive Disability Matthew Gaudet From Universal Precautions to Universal Design Disclosure of Concealable Disability in the Case of HIV Mary M Doyle Roche Disability the Healing of Infirmary and the Theological Virtue of Hope A Thomistic Approach Paul Gondreau Seventeenth Century Casuistry

Keenan, 2024-01-02 A profound inquiry into what prompts human beings to act morally Most foundational texts on theological ethics address either the person or society In *The Moral Life* James F Keenan SJ posits that these two are inextricably linked He presents eight stages of preparing for the moral life describing vulnerability as the foundation for contemporary ethics He understands vulnerability to be what establishes the human capacity for recognizing and responding to others rather than a compromised state of being Mutual recognition emerges as the first moral act of the vulnerable human He shows how conscience guides the activity of one who has first vulnerably recognized others *The Moral Life* offers scholars and students of Christian ethics a novel perspective on what we need to know not only to be and live morally but also to teach and share with others what they need to know

Hope and Solidarity Stephen J. Pope, 2015-02-25 *The Ethics of Aquinas* Stephen J. Pope, 2002 In this comprehensive anthology twenty seven outstanding scholars from North America and Europe address every major aspect of Thomas Aquinas's understanding of morality and comment on his remarkable legacy While there has been a revival of interest in recent years in the ethics of St Thomas no single work has yet fully examined the basic moral arguments and content of Aquinas major moral work the Second Part of the Summa Theologiae This work fills that lacuna The first chapters of *The Ethics of Aquinas* introduce readers to the sources methods and major themes of Aquinas's ethics The second part of the book provides an extended discussion of ideas in the Second Part of the Summa Theologiae in which contributors present cogent interpretations of the structure major arguments and themes of each of the treatises The third and final part examines aspects of Thomistic ethics in the twentieth century and beyond These essays reflect a diverse group of scholars representing a variety of intellectual perspectives Contributors span numerous fields of study including intellectual history medieval studies moral philosophy religious ethics and moral theology This remarkable variety underscores how interpretations of Thomas's ethics continue to develop and evolve and stimulate fervent discussion within the academy and the church This volume is aimed at scholars students clergy and all those who continue to find Aquinas a rich source of moral insight

Disability Ethics and Preferential Justice Mary Jo Iozzio, 2023 Disability is a global reality which we do not acknowledge As a result too few people without immediate experience of persons with disability remain unconcerned with

this largest and most diverse minority of people across the globe at least 15 percent of the world's population. Moreover, the likelihood of able-bodied able-minded persons joining this minority increases over the lifespan with, for example, Alzheimer's, arthritis, depression, diabetes, heart disease, multiple sclerosis, Parkinson's, and other conditions being very common around the world. No geographic location is immune from this prevalence, though poverty increases and exacerbates vulnerability to being born with or acquiring a disability in one's lifetime.

Disability Ethics and Preferential Justice is one response to a dearth of theological reflection on disability, arguing that justice requires a preferential safeguard for persons and communities of people with disability. The book makes this argument by presenting a Trinitarian theological anthropology on the *imago Dei* and applying the liberation lens of Catholic Social Teaching with a preferential justice for those who are poor and otherwise marginalized, oppressed, or silenced on account of their disability.

Waiting and Being Joshua B. Davis, 2013-10-01 The problem of creation and grace has a long history of contention within Protestant and Catholic theology, involving not only internecine conflict within the traditions but fueling as well ecumenical debates that have continued a dogmatic divide. This volume traces out that conflict in modern Catholic and Protestant dogmatics and provides a historical genealogy that situates the origin of the problem within different emphases in the thought of St. Augustine.

Journal of the Society of Christian Ethics, 2008 Method and Catholic Moral Theology Todd A. Salzman, 1999 This work is an investigation of the ongoing methodical reconstruction of Catholic moral theology. As such, it is based on and honors the work of Norbert Rigali S.J., one of the most important contributors to this reconstruction. The decisive break from the traditional manual approach to moral theology represented by Vatican II reoriented moral theology away from universal natural law morality based on the commandments to a morality based on specifically Christian sources. This reorientation, however, was not an either/or but a both/and proposition. Father Norbert Rigali S.J. has been an inspiration and a challenge to moral theologians working toward reconstruction. The essays in this collection address four questions in the renewal movement: an investigation of normative methods; a clarification of sources; an investigation of the tension between natural law morality and Christian ethics; and/or morality and a combination of methodical insights of philosophy with traditional Christian sources in their investigation of biomedical ethical issues. The contributors to the collection include Richard M. Gula S.S., Joseph A. Selling, Bernard Hoose, Mark O. Keefe O.S.B., James F. Keenan S.J., Edward Collins Vacek S.J., Charles E. Curran, James J. Walter, Todd A. Salzman, Jean Porter, Lisa Sowle Cahill, and Richard A. McCormick S.J.

Ethics and the Catechism of the Catholic Church Michael E. Allsopp, 1999 The essays in this volume are a commentary on the latest Catechism of the Catholic Church, centering on its third part (1691-2557), the part that deals with moral questions and is entitled *Life in Christ*. Their purpose is to highlight its moral teaching and make it more generally available and understandable by means of background analysis and explanation.

Responsibility, God and Society Johan de Tavernier, 2008 A generation of students at the Faculty of Theology of the KU Leuven have been introduced by Roger Burggraeve to the thoughts of Emmanuel Levinas (1905-1995). Levinas has been and

still is for him a true master in thinking For Levinas responsibility is heteronymous because it does not start from the I but from the epiphany of the other as the face appealing to me not to kill but to promote him her In and through the appeal of the face the difference between the other and me expressed in the irreducible alterity of the other is ethically speaking the appeal to the highest non indifference proximity without absorption As Levinas thinking carries on obvious Jewish Talmudic imprint Burggraeve was interested as to how the concept of responsibility can be connected to a biblically inspired ethic In which way can the Levinasian view on responsibility enhance a Christian anthropology and in particular that one articulated by Louvain personalism and in its turn inspired by a Christian anthropology so that it benefits from uniquely Christian accents In this Festschrift for Roger Burggraeve authors explore the theme of Responsibility God and Society in order to answer two questions What does Levinas ethic of responsibility have to offer Christian theology And vice versa what can Christian theology offer to contemporary ethical thought on personal relational and societal responsibility **International Philosophical Quarterly** ,1997 **The Modern Schoolman** ,2006 **Heythrop Journal** ,2001 A select book list appears quarterly **International Books in Print** ,1990 *Index to Book Reviews in Religion* ,1999
