Self Experiences in Group Irene Harwood, Malcolm Pines, 2014-05-14 Self Experiences in Group Irene N. H. Harwood, Malcolm Pines, 1998 Using clinical examples the contributors demonstrate the good enough healing power of carefully constructed and supervised groups conducted by therapists who apply both Kohut's self psychological concepts and those currently evolving from intersubjectivity throughout the world Among the topics covered in this volume are the recent advances in hermeneutics self psychology and intersubjectivity theory the universal need for a group object Kohut's thinking on archaic and mature twinship the applicability of new infant research the need to examine early childhood multiple cross cultural selfobject and traumatic experiences within transferences the utilization of a co therapy model and how to create optimal group environments Mixing new theoretical developments with clinical research and practice **Self Experiences in Group** breaks new ground and illustrates how these concepts can be applied to work at infant child or adult level **Self Experiences in Group, Revisited** Irene N. H. Harwood, Walter Stone, Malcolm Pines, 2012 First Published in 2012 Routledge is an imprint of Taylor Francis an informa company *Theoretical Perspectives for Direct Social Work Practice* Nick Coady, 2008 Print CourseSmart Power Games Richard Raubolt, 2021-04-20 www richardraubolt com An intense account of the misuse of power in psychotherapeutic training that offers solutions to this urgent issue Over the course of his own training in psychotherapy and psychoanalysis Richard Raubolt came to see that advanced training is more often than not plagued by authoritarian practices some subtle and many pronounced It is the contention of Raubolt and his contributors that these practices instill fear and foster blind obedience to the favored proclivities of the leaders of the training institute In turn this subservience which seeps into the therapeutic relationship prevents both the training candidates and their prospective patients from developing creative authentic and meaningful experiences This is a book written from the perspective of scholars and experienced clinicians who are acutely aware both on a personal and theoretical level of the disruptive role of power games in psychoanalytic institutes The collection features a highly nuanced and comprehensively developed psychoanalytic understanding of the use and misuse of power authority status and control operating in many traditional and nontraditional training experiences Finally new supervisory and training models based on empathy respect for subjective experiences and democratic principles are proposed as an alternative to the abusive practices so powerfully described in this book **Listening with the Fourth Ear** Leonard Horwitz, 2018-05-01 There are multiple meanings to the term group as a whole and all have a contribution This book emphasizes that the therapist ideally listens with the fourth ear not only attending to the latent communication of each individual but also listening for the shared theme of the whole group Ferreting out the underlying theme that the entire group is dealing with the common group tension provides a valuable opportunity for each individual to change the underlying issues that impair his or her relationships In addition the author provides a wide ranging coverage of theoretical clinical and training issues These include a clarification of the confusing but all important

conception of projective identification as well as a contribution to the understanding of the similarities and differences between group and individual psychotherapy He presents a special perspective on why groups are particularly indicated in dealing with narcissistic pathology and also explores the effect of the therapist's narcissism on his patients Finally he emphasizes that therapists' participation as members of experiential groups is an essential part of their training The Journey from Psychoanalysis to Group Analysis Malcolm Pines, 2025-05-20 The Journey from Psychoanalysis to Group Analysis presents a selection of papers from Malcolm Pines's long career documenting his profound contribution to group analysis and its applications John Schlapobersky editor is a well established author who organised the collection in History Development of Method Metapsychology Neurology Final Papers The compilation distils the life's work of a pioneer in many fields psychiatrist psychoanalyst group analyst editor and author Pines's writing encompasses psychoanalytic and group analytic theory developmental psychology neuroscience ethology social science language theory and mythology He seeks their integration in the crucible of group analysis The book will become an essential text in psychotherapy and therapeutic communities of value to students and readers in psychoanalysis and psychotherapy politics social and neurological sciences humanities and language theory **Dreams in Group Psychotherapy** Robi Friedman, Claudio Neri, Malcolm

Pines, 2002-07-15 This state of the art book provides help for therapists encountering a dream told in their group It covers the major theoretical perspectives for their understanding as well as representing different psychological schools and their approaches to the technical issues of group dream therapy **New Developments in Self Psychology Practice** Peter Buirski, Amanda Kottler, 2007-10-23 It has been 35 years since the publication of Heinz Kohut's monumental book The Analysis of the Self in 1971 and in this period self psychology has undergone a vibrant and exciting evolution that has significantly influenced and expanded the range of psychoanalytic thinking While undergoing this change self psychology has kept the developmental importance of self object relatedness and the primacy of subjective experience as central tenets of the theory But where other theories of mind can tend to stagnate and resist innovations that transcend their founding figure Kohut's self psychology continues to grow in depth complexity and richness Indeed one of the great strengths of the self psychology movement has been the openness of the succeeding generations to push the theoretical envelope to entertain examine and integrate new understandings and perspectives New Developments in Self Psychology Practice gives voice to many of these developments reflected in its four sections The first section examines complexity theory attachment theory and the work of the Boston Change Study Group The second section is concerned with the treatment of children while the third section examines various treatment modalities such as family therapy group therapy and supervisory process The final section looks at diversity difference and otherness within both the therapeutic dyad and therapeutic community and considers how shame enactments and traumatic experiences influence the therapeutic process Group Analysis Sigmund Karterud, 2024-04-11 Group Analysis outlines how clinical group analysis can re-establish itself as a leading paradigm for

group psychotherapy Sigmund Karterud explains how the focus of group analysis and its applications can be expanded by stronger emphasis on the philosophy and psychology of the self The book is divided into four parts with part one reconsidering the historical roots of group analysis through its founder S H Foulkes and part two demonstrating how the fields of evolution primary emotions attachment mentalizing personality theory and personality disorders can be integrated with group analysis Part three develops a philosophy of the self that includes a group self which accounts for the we ness of groups and part four illustrates how these concepts can inform the practice of group analysis through a series of clinical vignettes addressing the major challenges which face the clinician Group Analysis A Modern Synthesis will be essential reading for all group psychotherapists in practice and in training It will also appeal to students of group analytic psychotherapy
