Labor Contestation at Walmart Brazil Scott B. Martin, João Paulo Cândia Veiga, Katiuscia Moreno Galhera, 2021-09-10 This book explores how and why the labor practices of the world s largest employer supermarket giant Walmart were contested by unions and government regulators as it expanded to Latin America starting in the 1990s With an in depth case study of Brazil and a comparative chapter examining Argentina Chile and Mexico this book analyzes the problematic encounter between diffusion of home office anti labor practices and evolving national institutional contexts that are quite varied and in some cases enable considerable resistance by unions and or regulators Walmart s repressive familial and anti union model is found to generate costs and conflicts that contributed to its unprofitability and ultimate exit from Brazil in 2018 This experience contrasted with country situations where Walmart s overall competitive and labor and human resource practices fit better with national markets and institutions underlines the brittle problematic nature of diffusionist corporate models lacking adaptive capacity to significant cross national variations across host countries **Selling Women Short** Liza Featherstone, 2009-04-20 On television Wal Mart employees are smiling women delighted with their jobs But reality is another story In 2000 Betty Dukes a 52 year old black woman in Pittsburg California became the lead plaintiff in Dukes v Wal Mart Stores a class action representing 1 4 million women In an explosive investigation of this historic lawsuit journalist Liza Featherstone reveals how Wal Mart a self styled family oriented Christian company Deprives women but not men of the training they need to advance Relegates women to lower paying jobs like selling baby clothes reserving the more lucrative positions for men Inflicts punitive demotions on employees who object to discrimination Exploits Asian women in its sweatshops in Saipan a U S commonwealth Featherstone reveals the creative solutions Wal Mart workers around the country have found like fighting for unions living wage ordinances and childcare options **Selling Women Short** combines the personal

Discrimination Laundering Tristin K. Green,2016-11-14 While discrimination in the workplace is often perceived to be

undertaken at the hands of individual or rogue employees acting against the better interest of their employers the truth is often the opposite organizations are inciting discrimination through the work environments that they create Worse the law increasingly ignores this reality and exacerbates the problem In this groundbreaking book Tristin K Green describes the process of discrimination laundering showing how judges are changing the law to protect employers and why By bringing organizations back into the discussion of discrimination with real world stories and extensive social science research Green shows how organizational and legal efforts to minimize discrimination usually by policing individuals over broader organizational change are taking us in the wrong direction and how the law could do better by creating incentives for organizational efforts that are likely to minimize discrimination instead of inciting it *Equality on Trial* Katherine Turk,2016-06 In 1964 Title VII of the Civil Rights Act outlawed workplace sex discrimination but its practical meaning was uncertain *Equality on Trial* examines how a generation of workers and feminists fought to infuse the law with broad notions of sex equality reshaping workplaces activist channels state agencies and courts along the way *Handbook of the International Political Economy of Agriculture and Food* Alessandro Bonanno, Lawrence Busch,2015-04-30 This book tackles the central question of the political and structural changes and characteristics that govern agriculture and food Original contributions explore this highly globalized economic sector by analyzing salient geographical regions and sub **Business in Ethical Focus: An Anthology - Second Edition** Fritz Allhoff, Alexander Sager, Anand J. groups whether to win votes or to sell products And in a society where many feel increasingly powerless the focus group has at least offered the illusion that ordinary people will be listened to and that their opinions count Yet it seems the more we are consulted the less power we have That paradox is particularly stark today when everyone can post an opinion on social media our 24 hour focus group yet only plutocrats can shape policy In telling this fascinating story Featherstone raises profound questions about democracy desire and the innermost workings of consumer society Gender, Race, and Social Identity in American Politics Lori L.
