under Gogol's Overcoat is a remark that has been variously attributed to Dostoevsky and Turgenev. That either or both might have said it is an indication of the far-reaching significance of Gogol's work. Gogol's writings have been seen as a bridge between the genres of romanticism and realism in Russian literature. Progressive critics of his day praised Gogol for grounding his prose fictions in the everyday lives of ordinary people and they claimed him as a pioneer of a new naturalist aesthetic. Yet Gogol viewed his work in a more conservative light and his writing seems to incorporate as much fantasy and folklore as realistic detail. The Overcoat, which was written sporadically over several years during a self-imposed exile in Geneva and Rome, is a particularly dazzling amalgam of these seemingly disparate tendencies in Gogol's writing. The story begins by taking its readers through the mundane and alienating world of a bureaucratic office in St. Petersburg, where an awkward, impoverished clerk must scrimp and save in order to afford a badly needed new winter coat. As the story progresses, we enter a fairy tale world of supernatural revenge where the clerk's corpse is seen wandering city streets, ripping coats off the backs of passersby. Gogol's story is both comic and horrific at once: a scathing social satire, a moralistic fable, and a psychological study.
