

The Key Steps in Short Story Writing

START

01
STEP

Everything Hangs On The Start

Get the start of your short narrative right and you have the reader hooked onto the rest of the story. The format can be merciless on stories that start slow. Build up works fine in a novel; short stories need explosive starts much like a T20 cricket match.

02
STEP

From Conflict Develop Your Character

For this particular genre, it works better if you can develop your character/s from the conflict present in the story. This will help you to be brief with the character and not overdo their role in the story. This step also helps the writer set up his character in the quickest time possible without wasting valuable words or story space.

03
STEP

Push Characters To The Edge

This format grants you the right to push your characters to the very edge and do it in double quick time. Setting, explanation, and, at times, even logic is exempt. When you push and push your characters, it reveals their personality and psychology to the reader instantly.

04
STEP

Keep It Short And Sweet

Simply put, cut the crowd out: Be it the number of characters, descriptive passages, or a convoluted storyline. Be as direct in your approach as you possibly can and leave the frills out of the story. This is simply not the format for it.
