Cook, 1953-12      **The Railroad in American Fiction** Grant Burns, 2015-01-28 Nothing better represented the early spirit of American expansion than the railroad Dominant in daily life as well as in the popular imagination the railroad appealed strongly to creative writers For many years fiction of railroad life and travel was plentiful and varied As the nineteenth century receded the railroad's allure faded as did railroad fiction Today it is hard to sense what the railroad once meant to Americans The fiction of the railroad often by railroaders themselves recaptures that sense and provides valuable insights on American cultural history This extensively annotated bibliography lists and discusses in 956 entries novels and short stories from the 1840s to the present in which the railroad is important Each entry includes plot and character description to help the reader make an informed decision on the source's merit A detailed introduction discusses the history of railroad fiction and highlights common themes such as strikes hoboes and the roles of women and African Americans Such writers of pure railroad fiction as Harry Bedwell Frank Packard and Cy Warman are well represented along with such literary artists as Mark Twain Thomas Wolfe Flannery O'Connor and Ellen Glasgow Work by minority writers including Jean Toomer Richard Wright Frank Chin and Toni Morrison also receives close attention An appendix organizes entries by decade of publication and the work is indexed by subject and title      Frame by Frame III Audrey T. **Empowerment** Jeffrey Helgeson, 2014-04-24 The term community organizer was deployed repeatedly against Barack Obama during the 2008 presidential campaign as a way to paint him as an inexperienced politician unfit for the presidency The implication was that the job of a community organizer wasn't a serious one and that it certainly wasn't on the list of credentials needed for a presidential résumé In reality community organizers have played key roles in the political lives of American cities for decades perhaps never more so than during the 1970s in Chicago where African Americans laid the groundwork for further empowerment as they organized against segregation discrimination and lack of equal access to schools housing and jobs In *Crucibles of Black Empowerment* Jeffrey Helgeson recounts the rise of African American political power and activism from the 1930s onward revealing how it was achieved through community building His book tells stories of the housewives who organized their neighbors building tradesmen who used connections with federal officials to create opportunities in a deeply discriminatory employment sector and the social workers personnel managers and journalists who carved out positions in the white collar workforce Looking closely at black liberal politics at the neighborhood level in Chicago Helgeson explains how black Chicagoans built the networks that eventually would overthrow the city's seemingly invincible political machine [How to Teach American Literature](#) Elizabeth McCallum Marlow, 2017-09-01 How does one
