Tradition, Modernity, and Postmodernity in Arabic Literature Kamal Abdel-Malek, Wael Hallaq, 2000-07-18 The collection of essays contained in this volume is written by a group of prominent scholars of Arabic literature. They explore various manifestations of traditional as well as modern and postmodern themes and techniques in Arabic literature. This is the first time the tripartite concepts of tradition, modernity and postmodernity in Arabic literary works are explored and analyzed in one volume. It illustrates very clearly the fact that Arabic literature has kept abreast not only of the primarily modern literary movements in the West that is amply illustrated by many studies to date but also of the postmodern condition. Scholars in the fields of Arabic literature, Islamic Studies, Comparative Literature, postmodern studies among others will find this collection of essays of great interest.

Alice Munro and the Art of Time Laura K. Davis, 2025-08-25 Alice Munro and the Art of Time reveals how one of the world's greatest writers of short stories challenged and reconfigured traditional assumptions about time. In chapters that analyze selected stories and collections from across Munro's career, Laura K. Davis examines the formal and conceptual function of temporality in Munro's oeuvre, considering the relationship between the past and the present, material experiences of being, story structure, memory.

and memoir Clear and compelling interpretations of Munro's stories offer insights into her writing process her representations of character and setting and the complexities of her narrative techniques which often evade linearity and chronology emphasizing instead revision repetition and the body By highlighting the connections between time and various tropes in Munro's stories including identity ephemerality and environmental change this study provides new exciting avenues for engaging with Munro's work

Kate Chopin and the City Heather Ostman, 2023-12-15 This book examines selected short stories and novels by Kate Chopin through the lens of the city of New Orleans Chopin's depictions of and references to New Orleans celebrate the vibrancy of this unique American city but also illustrate the complex interdependent relationships defined within its coded system of racial gendered and class designations These stories feature canny depictions of the complexity of human struggles for freedom as well as love within this nineteenth century southern city While Chopin has been highly regarded as a local color writer and especially as a feminist literary icon this book shows how the author's city stories also point to her sophistication as an author who perceived the shifting literary landscape and it identifies the ways many of these stories protomodernist elements anticipate the advent of the Modern era

Words in Collision Michael L. Ross, 2023-04-15 For centuries English language writers have borrowed words and phrases from other languages in their fictional works Words in Collision explores this tradition of language mixing and its consequences Returning to Shakespeare's Henry V Michael Ross asks why writers employ foreign phrases in their English language texts why this practice continues and what it means He finds that the insertion of foreign elements rather than random or arbitrary occurs in literary works that display a self-conscious preoccupation with language in general as a dynamic determinant of social relations Discussing nineteenth century works by Sir Walter Scott Charlotte Brontë and Henry James the book demonstrates how multilingualism connects with themes of cosmopolitanism estrangement and resistance to social convention In the second half of the book the multilingual practices of canonical Anglo-American literature are compared with postcolonial texts by Caribbean Nigerian and Indian authors including Chimamanda Ngozi Adichie and Arundhati Roy whose choice of language is fraught with complex moral and artistic implications Ross's readings reveal both crucial departures and surprising underlying continuities in linguistic traditions often thought to be deeply divided in time space and politics The first extended treatment of language mixing in English texts Words in Collision is critical to understanding past practices and future prospects for multilingualism in fiction

Scientific and Technical Aerospace Reports ,1988 Lists citations with abstracts for aerospace related reports obtained from world wide sources and announces documents that have recently been entered into the NASA Scientific and Technical Information Database Patterns Of Censorship Around The World Ilan Peleg,Vladimir Wozniuk,2019-06-04 This volume addresses an important aspect in the political life of most societies today limitations on freedom of expression and the existence of censorship As a topic for research study and reflection particularly in its comparative dimension freedom of expression is a somewhat neglected area The vast majority of studies in this field focus either on a specific aspect of freedom of expression or on a specific country The current volume however assumes that there is much to be gained by studying freedom of expression and censorship practices broadly and comparatively In a world grown small global perspective is possible and beneficial particularly when it is applied to an issue of great relevance for all societies **The Fuss that Never Ended** Deborah Gare,2003 It is time to reassess the work of Geoffrey Blainey and consider his role in Australian history politics and public life Geoffrey Blainey has steered Australian history into the nation s conversation No one would dispute that he is a courageous public intellectual a writer of rare grace and a master storyteller And he has indeed provoked a rare fuss both public and professional with some of his comments on Asian immigration and Aboriginal land rights Blainey has challenged the academic history profession not only with his ideas but also by his practice A brilliant student he looked set for Oxford but chose instead the austere west coast of Tasmania for his postgraduate research For the next decade he earned a living with his pen And instead of political history in the traditional academic mould he wrote corporate histories that dispensed with footnotes Always probing and speculative Blainey has dislodged many of the keystones in our

understandings of Australia's past. He was one of the first to write about the expansive social history of this land before 1788; he questioned whether Botany Bay was founded primarily as a convict colony; he argued that the Eureka uprising had economic rather than political causes; and he identified sport as a neglected key to the Australian character. His controversial views earned such newspaper headlines as "Brave Man Set Upon by Thugs for Telling Truth In The Fuss That Never Ended" a lively and distinguished assembly of fellow historians and of various ages, interests, and political stances take a fresh look at Blainey's remarkable and sometimes controversial career.
