Matchett, Maggie McCaffrey, Cynthia Cochran, 2020-10-07 For the most part those who teach writing and administer writing programs do not conduct research on writing Perhaps more significantly they do not often read the research done by others because effective reading of articles on empirical research requires special knowledge and abilities By and large those responsible for maintaining and improving writing instruction cannot without further training access work that could help them carry out their responsibilities more effectively This book is designed as a text in graduate programs that offer instruction in rhetoric and composition Its primary educational purposes are to provide models and critical methods designed to improve the reading of scientific discourse to provide models of effective research designs and projects appropriate to those learning to do empirical research in rhetoric Aiming to cultivate new attitudes toward empirical research this volume encourages an appreciation of the rhetorical tradition that informs the production and critical reading of empirical studies The book should also reinforce a slowly growing realization in English studies that empirical methods are not inherently alien to the humanities rather that methods extend the power of humanist researchers trying to solve the problems of their discipline Successful College Writing Brief with 2009 MLA and 2010 APA Update Kathleen T. Vicki describes how the elements of traditional writing are being reinvented with cloud-based tools. Instead of paper, note-taking, filing cabinets, word processors, and group reports, we now have tools like ePaper, eBooks, social bookmarking, cloud syncing, infographics, and more. Vicki shows you how to select the right tool, set it up quickly, and prevent common mistakes. She also helps you teach digital citizenship and offers exciting ways to build writing communities where students love to learn. Special Features: Essential questions at the start of each chapter to get you thinking about the big ideas. A chapter on each of the nine essential cloud-based tools: ePaper and eBooks, digital notebooks, social bookmarking, cloud syncing, cloud writing apps, blogging, and microblogging, wikis, and website builders, online graphic organizers, and mind maps, and cartoons and infographics. A wide variety of practical ways to use each tool in the classroom. Alignments to the Common Core State Standards in writing. Level Up Learning: a special section at the end of each chapter to help you review, reflect on, and apply what you've learned. Writing tips to help you make the best use of the tools and avoid common pitfalls. A glossary of key terms discussed in the book. Useful appendices including reproducible material for your classroom. Larry Rosen, 2010-03-30 This book offers insight and help to motivate and maximize learning for the Internet Generation. From the coauthor of *The Distracted Mind*, Eric Milou, Professor of Mathematics, Rowan University, look around at today's youth and you can see how technology has changed their lives. They lie on their beds and study while texting and chatting online with friends and scrolling through TikTok. How does the new, charged-up multitasking generation respond to traditional textbooks and lectures? Are we effectively reaching today's technologically advanced youth? *Rewired* is the first book to help educators and parents teach to this new generation's radically different learning styles and needs. This book will also help parents learn what to expect from their techie children concerning school homework and even socialization. In short, it is a book that exposes the impact of generational differences on learning while providing strategies for engaging students at

school and at home Larry's research based positive proactive messages are a welcome relief from the unsupported fear based messages that are unfortunately also present Rewired should be considered a must read by all professionals who work with youth especially those in leadership positions Nancy Willard Director of Center for Safe and Responsible Internet Use

Canon Fanfiction Christine Schott,2023-01-30 Several scholarly fields investigate the reuse of source texts most relevantly adaptation studies and fanfiction studies The limitation of these two fields is that adaptation studies focuses narrowly on retelling usually in the form of film adaptations but is not as well equipped to treat other uses of source material like prequels sequels and spinoffs On the other hand fanfiction studies has the broad reach adaptation studies lacks but is generally interested in underground production rather than material that goes through the official publication process and thus enters the literary canon This book sits in the gap between these fields discussing published novels and their contribution to the scholarly engagement with their pre and early modern source material as well as applying that creative framework to the teaching of literature in the college classroom
