Shrinking A Novel:

Speed Shrinking Susan Shapiro, 2010-07-20 Manhattan self help author Julia Goodman thinks she's got her addictive personality under control. Then her psychoanalyst moves away, her husband takes off to L.A. and her best friend moves to Ohio. Feeling lonely and left out, Julia fills in the void with food. This is a huge problem, especially since she's about to go on national television to plug her hot new self-help book about how she conquered her sugar addiction. Julia desperately sees eight shrinks in eight days, speed dating for Dr. Replacement to help shrink back her body and anxiety in time for her close-up.

Shrinking William Lehr, 1987 Richard Matheson's Monsters June M. Pulliam, Anthony J. Fonseca, 2016-02-02 Richard Matheson was one of the leading writers of science fiction, fantasy, and horror in the twentieth century. Matheson's most famous early works, the novels *I Am Legend* (1954) and *The Shrinking Man* (1956), both depict traditionally masculine figures thrust into extraordinary situations. Other thought-provoking novels include *Hell House* (1971), *Bid Time Return* (1975), and *What Dreams May Come* (1978), as well as short stories and screenplays that convey the ambiguous status of masculinity, how men should behave vis-à-vis women, and what role they should occupy in the family dynamic and in society at large. In *Richard Matheson's Monsters: Gender in the Stories, Scripts, Novels, and Twilight Zone Episodes*, June M. Pulliam and Anthony J. Fonseca examine how this groundbreaking author's writings shed light on society's ever-shifting attitudes on masculinity and domesticity. In this first full-length critical study of Matheson's entire literary output, the authors discuss how *I Am Legend*, *The Shrinking Man*, and other works question traditional male roles. The authors examine how Matheson's scripts for *The Twilight Zone* represented changing expectations in male behavior with the onset of the sexual and feminist revolutions, industrialization, and globalization, and other issues. In a society where gender roles are questioned every day, Matheson's work is more relevant than ever. *Richard Matheson's Monsters* will be of interest to scholars of literature, film, and television, as well as those interested in gender and masculinity studies.

Speed Shrinking Susan Shapiro, 2009-08-04 A self-help guru learns what's truly important when she gains thirty-five pounds days before a morning show appearance. In this laugh-out-loud delight, Ian Frazier, Manhattan self-help author Julia Goodman, thinks she's got her addictive personality under control. Then her beloved psychoanalyst moves away at the same time her husband takes off to L.A. and her best friend gets married and moves to Ohio. Feeling lonely and left out, Julia fills in the void with food, becomes a cupcake addict, and blimps out. Big problem, especially since she's about to go on national television to plug her hot new self-help book about how she conquered her sugar addiction. Navigating her insurance network, Julia desperately sees eight shrinks in eight days, speed dating for Dr. Replacement or any other new guru to help shrink back her body and anxiety in time for her close-up. Praise for *Speed Shrinking*: Smart, fast, hilarious. A caustic sendup of therapy and the addicted-to-addiction culture we live in. *San Francisco Chronicle*: Proust had a cookie, Susan Shapiro has a cupcake, and a really hilarious book. Patricia Marx, author of *Him, Her, Him Again*: The End of Him. Shapiro's high-calorie, high-anxiety heroine is an appealing confection. *People*: An original voice and

Invasions USA Michael Bliss,2014-07-30 Out of more than 180 science fiction films produced in the United States between 1950 and 1959 twenty were concerned with the notion of an invasion Of these a select number used the invasions as metaphors of issues that were of importance to America at the time such as assaults upon individuality and marriage and debates about the supremacy of the human race The invasion may be real The Day the Earth Stood Still and War of the Worlds dreamed Invaders from Mars or the result of a mental breakdown as seems to be the case in Invasion of the Body Snatchers Real or not all of these massive disturbances to the status quo convey the same anxiety In the 1950s

many Americans felt that things in their world weren't quite right and this sense of unease was expressed in the country's art notably these films In *Invasions USA: The Essential Science Fiction Films of the 1950s* Michael Bliss examines movies that stripped away the veneer of normality during a decade often portrayed as the last innocent period in American history From a boy's nightmares about his alien controlled parents and a young woman's fears that her fiancé has been replaced by an emotionless alien to an extraterrestrial visitor who comes to warn mankind about its self-destructive ways the stories of these films offer a variety of messages both subtle and overt With detailed discussions and analyses of the films in question this book examines a unique group of movies with profound messages By exploring depictions of insecurities whether personal or political Bliss shows how science fiction films spoke to American audiences deeply troubled by their circumstances *Invasions USA* will appeal to science fiction buffs and film aficionados interested in this significant phenomenon in movie and cultural history
