Austrian literature film and social history have engaged with social precarity from the period of Romanticism and early industrialization to the present The chapters in this volume deal with precarity as both an objective phenomenon reflected in literary and filmic representations and as a subjective phenomenon that gives these representations their particular shape Representing Social Precarity in German Literature and Film opens new critical perspectives on diverse forms of lived precarity and their creative manifestations by reflecting on the history of capitalist modernity from the vantage points of weakness vulnerability marginality impoverishment and otherness Orchestra Management Arne Herman,2022-08-01

Every orchestra in the world oscillates between crisis and survival This perpetual movement makes innovation both in organizational form and in artistic product vital to the sustainability of the symphony orchestra Based on case study research in Flanders Amsterdam and London this book reflects on the sustainability crisis of the orchestra by framing it as a legitimacy crisis that affects both the orchestra s artistic and organizational identity The aim of this book is to explore the dynamics between various and often conflicting factors in the orchestra s quest for survival and to show how these organizational dynamics relate to the orchestra s repertoire By highlighting the importance of every organization s specific environment to which it needs to adapt this book illustrates that the orchestra field is not a field that relies on best practices The book reflects on conventional as well as innovative orchestra models making the comparative point of view relevant for academic or practice based researchers orchestra managers policymakers and subsidizing bodies interested in sustainable and future oriented orchestra management **East Asian Voices of Resistance Against Racism in Music** Ken

Ueno,Maiko Kawabata,2025-03-18 The negative racialization of East Asian musicians in Western classical music manifests through tropes of othering such as Yellow Peril Orientalism and various harmful stereotypes This volume centers East Asian voices in collaboration with our allies as narrators of our own racialized experiences in music Featuring eleven contributions in a mixture of tone that is academic and personal or reflective thus deliberately disrupting conventional linguistic norms the volume brings together our voices in a creative act of resistance against racism in music and in solidarity with activism that targets inequalities in the arts more broadly The volume is to our knowledge the first of its kind Intended for musicians and artists academics and students it will dynamize topical conversations circling around issues of equality diversity and inclusion so as to contribute towards positive change **The Beethoven Syndrome** Mark Evan Bonds,2019-11-11

The Beethoven Syndrome is the inclination of listeners to hear music as the projection of a composer s inner self This was a radically new way of listening that emerged only after Beethoven s death Beethoven s music was a catalyst for this change but only in retrospect for it was not until after his death that listeners began to hear composers in general and not just Beethoven in their works particularly in their instrumental music The Beethoven Syndrome Hearing Music as Autobiography traces the rise fall and persistence of this mode of listening from the middle of the eighteenth century to the present Prior to 1830 composers and audiences alike operated within a framework of rhetoric in which the burden of intelligibility lay squarely on

the composer whose task it was to move listeners in a calculated way But through a confluence of musical philosophical social and economic changes the paradigm of expressive objectivity gave way to one of subjectivity in the years around 1830 The framework of rhetoric thus yielded to a framework of hermeneutics concert goers no longer perceived composers as orators but as oracles to be deciphered In the wake of World War I however the aesthetics of New Objectivity marked a return not only to certain stylistic features of eighteenth century music but to the earlier concept of expression itself Objectivity would go on to become the cornerstone of the high modernist aesthetic that dominated the century s middle decades Masterfully citing a broad array of source material from composers critics theorists and philosophers Mark Evan Bonds s engaging study reveals how perceptions of subjective expression have endured leading to the present era of mixed and often conflicting paradigms of listening

Understanding Toscanini Joseph Horowitz, 1994-01-01 As America s symbol of Great Music Arturo Toscanini and the masterpieces he served were regarded with religious awe As a celebrity personality he was heralded for everything from his unwavering stance against Hitler and Mussolini and his cataclysmic tantrums to his democratic penchants for television wrestling and soup for dinner During his years with the Metropolitan Opera 1908 15 and the New York Philharmonic 1926 36 he was regularly proclaimed the world s greatest conductor And with the NBC Symphony 1937 54 created for him by RCA s David Sarnoff he became the beneficiary of a voracious multimedia promotional apparatus that spread Toscanini madness nationwide According to *Life* he was as well known as Joe DiMaggio *Time* twice put him on its cover and the New York Herald Tribune attributed Toscanini s fame to simple recognition of his unique greatness In this boldly conceived and

superbly realized study Joseph Horowitz reveals how and why Toscanini became the object of unparalleled veneration in the United States Combining biography cultural history and music criticism Horowitz explores the cultural and commercial mechanisms that created America's Toscanini cult and fostered in turn a Eurocentric anachronistic new audience for old music

discussions about the orchestra's continued role in a changing society. Other topics discussed include the art of orchestration, score-reading, conductors and conducting, international orchestras, recording, as well as consideration of what it means to be an orchestral musician, an educator, or an informed listener. Written by experts in the field, the book will be of academic and practical interest to a wide-ranging readership of music historians and professional or amateur musicians, as well as an invaluable resource for all those contemplating a career in the performing arts.

A Portrait in 4 Movements Andrew Patner, 2019-04-19. Playing in an orchestra in an intelligent way is the best school for democracy. Daniel Barenboim. The Chicago Symphony Orchestra has been led by a storied group of conductors. And from 1994 to 2015 through the best work of Daniel Barenboim, Pierre Boulez, Bernard Haitink, and Riccardo Muti, Andrew Patner was right there. As a classical music critic for the Chicago Sun Times and WFMT radio, Patner was able to trace the arc of the CSO's changing repertoires all while cultivating a deep rapport with its four principal conductors. This book assembles Patner's reviews of the concerts given by the CSO during this time, as well as transcripts of his remarkable radio interviews with these colossal figures. These pages hold tidbits for the curious, such as Patner's driving survey that playfully ranks the Maestri he knew on a scale of total comfort to fright level five, and the observation that Muti appears to be a southpaw on the baseball field. Moving easily between registers, they also open revealing windows onto the sometimes difficult pasts that brought these conductors to music in the first place, including Boulez's and Haitink's heartbreaking experiences of Nazi occupation in their native countries as children. Throughout these reviews and interviews are threaded together with insights about the power of music and the techniques behind it, from the conductors' varied approaches to research, preparing scores, and interacting with other musicians, to how the sound and personality of the orchestra evolved over time to the ways that we can all learn to listen better and hear more in the music we love. Featuring a foreword by fellow critic Alex Ross on the ethos and humor that informed Patner's writing, as well as an introduction and extensive historical commentary by musicologist Douglas W. Shadle, this book offers a rich portrait of the musical life of Chicago through the eyes and ears of one of its most beloved critics.

Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office, 1965. Includes Part 1 Number 2 Books and Pamphlets Including Serials and Contributions to Periodicals July-December. **Jacobs' Orchestra Monthly**, 1929. **Poetry** Harriet Monroe, 1963. **Managing Organisational Success in the Arts** David Stevenson, 2018-10-10. The creative and cultural industries are a dynamic and rapidly expanding field of enterprise. Yet all too often the dominant narrative about arts organisations is one of crisis, collapse, and closure. This edited collection seeks to challenge that narrative through pursuing a focus on organisational success in the management of creative and cultural organisations. This book offers a robust and in-depth analysis of nine international case studies exploring how different organisations have achieved their objectives through effectively managing their resources. Spanning a broad cross-section of the cultural sector, including Theatres, Multi-Arts Venues, Performing Arts Companies, Museums and Galleries, and Festivals and Events, these cases

highlight the importance of examining an individual organisation's success in relation to its environmental context revealing not only how arts organisations work in practice but also providing inspiration and encouragement for those wishing to emulate such success. With an explicit focus on examining theory in practice this unique collection will be of great interest to students, academics and practitioners alike. While traditional approaches have often been overly theoretical this pragmatic approach will help students to gain a richer understanding of how to manage cultural and creative organisations more effectively.

Guardians of Public Value Arjen Boin, Lauren A. Fahy, Paul 't Hart, 2020-11-12. This open access book presents case studies of twelve organisations which the public have come to view as institutions. From the BBC to Doctors Without Borders, from the Amsterdam Concertgebouw Orchestra to CERN, this volume examines how some organisations rise to prominence and remain in high public esteem through changing and challenging times. It builds upon the scholarly tradition of institutional scholarship pioneered by Philip Selznick and highlights common themes in the stories of these highly diverse organizations, demonstrating how leadership, learning and luck all play a role in becoming and remaining an institution. This case study format makes this volume ideal for classroom use and practitioners alike. In an era where public institutions are increasingly under threat, this volume offers concrete lessons for contemporary organisation leaders.
